Outstanding Value from America's Largest Tent Store

Heavy Water-Proofed All Khaki Wall Tents

CHECK over all the features of this splendid, heavy, water-proof Khaki Duck Tent. Look at other tents embracing these features, a examine them carefully. Then compare prices—and you will understa why we sell more tents than any other store in the world!

This tent is an outstanding example of the immense values which ha made us America's headquarters for Camping Equipment. Our rigid spe fications and strict inspection insure a high standard of quality; buying huge quantities for our thousands of camper friends keeps prices down.

Made entirely of heavy khaki duck, weighing about 12 ounces to the yard after the special water-proofing treatment. This splendid material sheds water—no need for a fly—and keeps heat out by dimming the glaring rays of the sun, making the tent always cool, dry and comfortable.

Strong sewed-in iron rings with unoiled Manila guy ropes spliced on replace the small grommets generally used for ty guy ropes. Full height center and walls— sizes given are exact. Heavy reinforceme at corners and ridge. All seams dou stitched with extra strong thread. Compl with poles and stakes. Not mailable.

See "Estimated Freight Charges" bottom of page.

Genuine Kool-Dri Wall Tents

"We traveled all over the West, and used the Kool-Dri Tent winter and summ It has neve leaked a drop, and it has stood some very severe wind and rain storm We have see n and used several different kinds of tents, but none stand what t Kool-Dri will." So writes Earl L. Jones of Livingston, Mont.

The Khaki Duck Top, weighing about 12 ounces per yard after water-proofing, protects you from the sun, heat and rain. No fly necessary. That's why you'll find it a favorite in any tourist camp from Maine to California. Wide eaves extending three inches beyond the side walls carry the water off, leaving the white duck sides dry. Ends and side walls are of heavy white duck weighing ten ounces to the square yard. Sewed-in iron rings with spliced-on Man guy ropes. Kool-Dri Tents are full size a full height—plenty of head room—reinfor at every strain point. Furnished compl with poles, stakes, unoiled Manila guy ro and keys, all ready to set up. Every tent rigidly inspected to see that it meets quality requirements. The prices are less than usually asked for tents of this qu ity. Not mailable.

Nationally Famous Bungalow Tents

Features

4-Foot Side Walls.
Sewed-in Floor Cloth.
Sewed-in Rings. Guy Ropes Spliced-on.
Bobbinet Screened Windows with Patented Gutters.
Heavy Rope Ridge.

Plenty of Standing Room

Before making the Bungalow Tent, we asked thousands of experienced tourists and campers the kind of a tent they would like best to have. Their suggestions have been built into the Bungalow.

The best points of other high-grade tents—including the auto and umbrella types—are combined in this one. Yet, it costs only a little more than you would ordinarily be asked to pay for a plain wall tent without these extra features.

In the Bungalow there is enough head room and floor space to enable you to have your beds, camp stove, table and chairs all inside. A direct circulation of air is provided through two 18 by 20-inch windows, one each, front and rear, and a doorway measuring about 28 by 72 inches. Windows and door are reinforced all around and screened with bobbin Patented gutters of tent-cloth are sewed both sides of windows to prevent water fr running inside the tent. Storm curtain on ea window overlaps four inches and operat from inside.

Ward's Bungalow Tents are furnished compl with two two-piece 8-foot jointed wood poles, he rope ridge, guy ropes and stakes—ready to set Not mailable.

Auto-Tour Rain-Shed Umbrella Tent

$16.98 — 7 by 7 Feet

Features

Rear Window 18 by 20 inches. Has patented gutters with marquisette screen.
Awning, 6 feet long.
Marquisette door screen.
Sewed-in floor cloth.

Patented Gutters on Windows Exclusive in Our Tents

The Auto-Tour is certainly one of the most popular Tourist Tents. Designed to give the utmost in comfort at a moderate price. Raises and lowers much like an umbrella. One person can easily set it up in from 5 to 10 minutes. Taken down just as quickly and rolled into a compact bundle. Of improved durable material which is khaki dyed, water-proofed, guaranteed to shed rain. Weighs about 10 ounces per yard.

The water gutters on each window, a feature found only on Ward's tents, is one of the latest improvements in tent construction. Tent cloth flaps are stitched on both sides of window opening, forming a gutter which prevents water from running in, insuring a dry and comfortable interior at all times.

The large 18 by 20-inch window, located in rear, is screened with marquisette and has a storm curtain with large overlaps, operated from inside.

The Auto-Tour will make your camping more enjoyable. Plenty of standing room, complete privacy, excellent ventilation, and secure protection from weather and insects.

Furnished in three sizes. Height, at eaves, 6 feet. Full width awning, 6 feet long, can be lowered and tied down to form storm door. Tent complete with two-piece jointed wood center pole, 7½ feet high, stakes and guy ropes for awning. Awning poles not included.

Ward's Knockabout Touring Tent

The Best Low Priced Water-Proofed Tent You Can Buy

$8.95 — 7 by 7 Feet

Features

Seams Double Stitched. Reinforced at corners and at ridge.
Sewed-in Iron Rings with Spliced-on Guy Ropes.
Khaki Water-proofed Auto-Tent Fabric.
Three-foot back wall and 6½ feet at front.
Extension Flap 6½ feet long and 7 feet wide.

Compare the Knockabout's specifications with those of similar tents being sold elsewhere, and then compare prices. Special khaki water-proofed auto tent fabric makes each Knockabout water repellent, and lighter to handle; weight, about 8 ounces per yard. When used with car, front flap is placed over top and fastened to wheels or stakes on opposite side. Tent is then stretched and corners staked down. No poles are required when used with car. When set up as an open front tent without use of car, use poles No. 460 G 9594 listed above. For party of four or more the use of two tents is recommended; one on each side of the car, or with jointed poles, as shown in small picture.

Sewed-in iron rings on eaves with spliced-on Manila guy ropes. Wooden stakes and guy ropes furnished; poles for front wall or awning not included. Mailable.

Campers! Here's Home-Like Comfort For Your Next Outing.

Fifty-fifth Anniversary Special

Tourest Steel Double Bed

$6.95

Our new Tourest Camp Bed is one of the most comfortable, compact and practical double size portable camp beds made. Very strong yet it weighs only 34 pounds. Set up or closed in one minute, you can have it ready to sleep on in a few minutes after pitching camp. Will hold two people in absolute comfort. Roll mattress 460 G 9750 listed below makes it as comfortable as a bed at home. Can be used as a spare bed in your home after vacation-time.

Sleepers cannot roll to the center on the tight springy top, which is suspended from the frame by 15 resilient coil springs. Patented lever tension adjustment on the end braces keeps the top taut when set up, and prevents sagging.

Framework is of light-weight, U-shaped steel finished in olive green enamel. Legs are double braced, providing unusual strength and rigidity.

Folded Size 4¼ by 6½ by 48 Inches

Bed is 48 by 76 inches—18½ inches above floor when opened. Folds into an easy-to-carry bundle. Both are mailable.

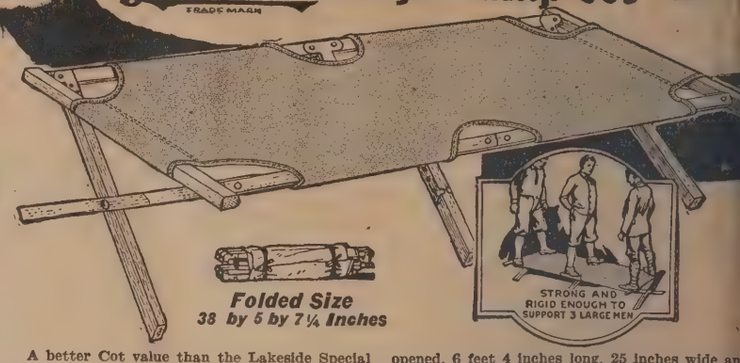
460 G 9658—Top is of rust-resisting, galvanized steel chain that will not come apart, bend or tangle when folded. Preferred by experienced campers over ordinary types having open link wire fabric tops. Shipping weight, 39 pounds..... **$6.95**

460 G 9659—This bed will save you money and valuable space as it does not require a separate mattress. Same as 460 G 9658, except it has genuine 14-ounce Green dundee duck top reinforced with strips of heavy webbing underneath. Priced low. Ship. wt., 37 lbs. **$9.45**

Ready for Sleep in a Minute $2.4[illegible]

Lakeside Single Camp Cot

TRADE MARK



Folded Size 38 by 5 by 7¼ Inches

A better Cot value than the Lakeside Special cannot be found anywhere. It has stood every test for durability and strength. It is so strongly made that it supports 500 pounds. Frame is of straight grained selected hardwood, either birch or rock elm; well seasoned and thoroughly air dried. Reinforcing steel plates at joint of center legs and at all points where the strain is most severe. Top is of extra quality 14-ounce heavy dundee cloth, tan in color and especially woven for this purpose. Edges heavily reinforced. Makes a very comfortable, elastic, full length bed. It is strong and rigid enough to support 3 large men. The simplicity of construction, and the ease with which this cot is opened and folded makes it ideal for any camp. You can feel its strength and firmness the moment you put your weight on it. Size opened, 6 feet 4 inches long, 25 inches wide an[illegible] 16¾ inches high. Folded it takes a space 38 by[illegible] by 7¼ inches. Shipping weight, 15 pounds[illegible] Mailable.

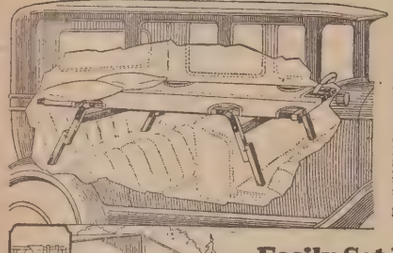
460 G 9672..... **$2.4[illegible]**

Folding Army Style Camp Cot

Higher quality and slightly larger than th[illegible] Lakeside. Top is 12-ounce double filled[illegible] Brown cotton duck. Selected birch or rock elm[illegible] frame, air dried. Will hold 1000 pounds. Shipping[illegible] weight, 22 pounds. Mailable.

460 G 9673..... **$3.4[illegible]**

Our New Kar Kamp Bed—Fits Almost Any Car



Easily set up in your car or on the ground as a tent bed. Strong, compact and light in weight, the Kar Kamp Bed is the most practical bed of this type on the market today. It may be used in any four-door sedan or touring car and in every coach measuring 76 inches or more from rear window glass to windshield. More comfortable than most auto beds because the usual center ridge pole is eliminated—a heavy, adjustable non-stretch web extends through the center, reinforcing the strong 12-ounce khaki duck top. When set up in your car this bed does not rest upon the upholstering to damage it in any way. And because it is the same width at head and foot you usually have room to step from running board into the car before lying down, instead of having to crawl from running board to bed as with many other models.

Also Serves as Tent Cot

Easily Set Up—Makes Double Size Bed

Makes a double size bed 72 by 39 inches, and folds into a compact bundle 4 by 6 by 39 inches. To erect simply unfold the hardwood frame, push seat cushions of car slightly forward and the sturdy legs may be extended to rest upon base of auto seat. Through a fortunate contract with the manufacturer we are able to offer this high-grade bed to you at a price much lower than is usually asked elsewhere. Buy from Ward's and save money. Simple instructions included. Actual weight, 22½ pounds. Ship. wt., 27 lbs. Mailable. **$7.95**

460 G 9871—Complete.....

Folding Auto-Tour Bed

Fits any touring car or four-door sedan. Also fits any coach or brougham with two folding front seat backs, having removable rear seat back rest and cushion and measuring 76 inches or more from rear window to windshield.

A folding adjustable hardwood frame supports the cushions, over which 12-ounce khaki duck is stretched from back to windshield, forming a bed for two medium size adults. Bed is 70 inches long, 40½ inches wide at foot and 45 inches at head. Easily set up or taken down. Weighs only 12 pounds. Folds up into a package 44 by 5½ by 4¼ inches. Shipping weight, 19 pounds. Both are mailable.

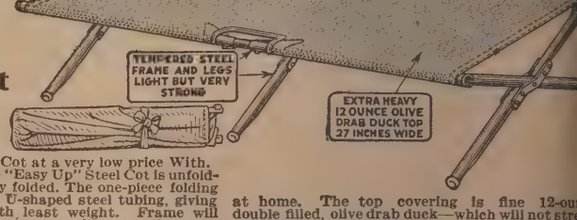
Folds up into a package 44 by 5½ by 4¼ inches. Easily set up or taken down. Weighs only 12 pounds.

460 G 9886—For all cars with full width front seat cushion..... **$5.95**

460 G 9889—For sedans and touring cars with divided front seats and removable cushions. **6.45**

$2.98 "Easy Up" Folding Cot

Tempered Steel



A remarkably good Cot at a very low price With a few simple moves the "Easy Up" Steel Cot is unfolded—and just as easily folded. The one-piece folding frame and legs are of U-shaped steel tubing, giving greatest strength with least weight. Frame will remain serviceable for years—will not split, warp or crack, and is not affected by the weather. The legs have fiber tips to prevent scratching wood floors or punching holes in tent floor cloths. Frame and legs are enameled olive green. You will get as much comfort in camp on this cot as you would on a spring bed at home. The top covering is fine 12-ou[illegible] double filled, olive drab duck—which will not str[illegible] or sag in use. Tape bound, double sewed, and r[illegible] forced wherever strain comes. Size of cot, ope[illegible] 74 by 27 inches, 17 inches high; folded, 38 by[illegible] by 4½ inches. Actual weight, 16 pounds. Ship[illegible] weight, 20 pounds. Mailable.

460 G 9625..... **$2.[illegible]**

Best Quality Steel Tables, Chairs and Stools

Sit and eat in comfort, off the ground, away from bugs and insects. An ideal outfit for campers, picnickers and tourists—and at a price that makes it an outstanding bargain. Durably made, sanitary and compact. Light in weight, easy to handle. Four chairs or stools fold and fit inside folded table which forms a handy carrying case with carrying handle. Table, chairs and stools stand very rigid. All parts are metal; nothing detachable to break or lose. Will give many years of service. Enameled a rich brown. Mailable.

460 G 9691—Table only. Holds four chairs or stools. Height, 27 inches with top 30 inches square. Folds to 3 by 15 by 30 inches. Shipping weight, 23 pounds..... **$4.65**

Bed Roll Mattress

Comfortable and Moisture-Proof

You can always be sure of a dry, clean bed with this soft Mattress of new, downy cotton. Covered with a good weight Green denim. After being quilted, mattress is stitched to a heavy, water-proof bottom, which prevents forcing through the steel mesh tops as in some beds; also helps to keep out dampness. Outside cover extends about twelve inches on two sides and 8 inches at foot. Flaps protect bed clothes when rolled; bundle is held securely by three long heavy web straps with non-slip buckles. All are mailable.

460 G 9749—Water-proof black rubberized drill bottom. Rolls into bundle 10 inches in diameter by 4 inches long. Size, unrolled, 76 by 48 inches. **$7.65**
Shipping weight, 16 pounds.....

460 G 9750—Has heavy khaki drill bottom, not rubberized, but thoroughly water-proofed by a secret process. Rolls into bundle 10 inches in diameter by 48 inches long. Size, unrolled, 76 by 48 inches. **$6.65**
Shipping weight, 16 pounds.....

460 G 9751—Single size, 26 by 78 inches. Rolls into bundle 10 inches in diameter by 26 inches long. Shipping weight, 11 pounds..... **$4.45**

$4.25

Kapok Mattress

Moisture-Proof and Vermin-Proof

Most comfortable Cot Mattress you can buy. Filled with the finest prime Japara kapok, soft and fluffy as down. Vermin-proof, non-absorbent, light and buoyant—the best mattress filling for camp use and the same as used by the U. S. Navy. Kapok will not bunch or become lumpy. It gives you comfort equal to that of the best mattress in your home.

Covered with Green denim and quilted. About 2½ inches thick. Mailable.

460 G 9416—Single cot size; 78 by 26 inches. Makes roll 26 by 13 inches in diameter. Ship weight, 6 pounds.. **$4.25**

Latest Improved Lakeside Safety Camp Stove $3.98

Trade Mark

CAMPERS everywhere proclaim this America's leading Camp Stove value. Wherever you go, you'll find the Lakeside Safety Camp Stove a supreme favorite. We have overlooked no feature to make it desirable in every way. Safe to operate; quick acting; easy to prepare food with it in a hurry; compact for travel; takes little space in your car. Low priced, at least $2 less than you would pay elsewhere for a stove of equal quality.

The high windshields at back and full side shields protect the intense blue flame, and you have wholesome, well cooked food in just a few minutes. An extra feature is the patented double priming cup for superheating the gas. Generates gas 50 per cent faster than any other stove. With the new improved manifold, very little air pressure is required to make the vaporized gas flow to the burner. No need to move the gas tank for generating—simply fill and light the special generating cup, and in one minute the burners are ready to light. Absolute safety is assured—the one-piece drawn brass non-rusting tank is outside the stove when in use. Holds one quart, approximately three hours' supply. Needle point in the gas tube automatically cleans opening in tube each time gas is shut off. Flame of the second burner can be adjusted by the new patented slide control.

Cooking surface 9 by 17 inches includes two large burners with unbreakable steel wire hinged-on Grate. One or both burners may be used. Stove has rigid wire legs. When you break camp the legs push up, the tank fits inside, and down come the windshields to form a neat, compact carrying case measuring only 9½ by 5 by 17 inches. Sheet steel case is enameled black. Air pump, funnel and illustrated instructions included with stove. Ship. wt., 14 lbs. Mailable.

Large Size New Lakeside Two-Burner

An excellent two-burner Camp Stove larger than the Lakeside. Has new improved warming shelf that tilts back supported by two small legs. Can also be used as a cover to protect food, making it possible to cook in any kind of weather. The ring type burners throw a wide intensely hot blue flame. Will not scorch cooking utensils. Hinged-on cast iron grate gives better heat distribution. This stove has all the best features found on the smaller Lakeside model. Body of 24-gauge sheet steel, enameled brown. Drawn brass non-rusting gas tank. Tank and burners slide into case as a unit when folding stove. Absolutely safe. One or both burners may be used. Improved sliding control on second burner. New type generator with patented double priming cup generates 50 per cent faster than any other stove. Self-cleaning needle point in gas tube prevents clogging. Cooking surface, 9 by 18 inches. Sturdy steel legs. Air pump funnel and instructions included. Actual weight, 16½ pounds. Shipping weight, 20 pounds. Mailable.

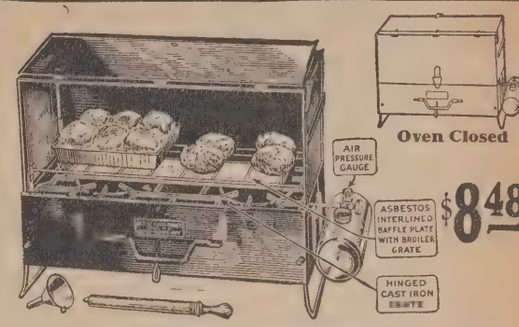
ONE-PIECE HINGED ON CAST IRON GRATE FOR BETTER HEAT DISTRIBUTION
SLIDE CONTROLS REGULATE FLAME USE 1,2 OR 3 BURNERS
AIR PRESSURE GAUGE

Prentiss-Wabers Three-Burner Stove

If you want the finest three-burner Camp Stove made—a stove with every feature you've been looking for, with plenty of cooking surface to meet the needs of a large party—order the Prentiss-Wabers.

Air pressure forces the vaporized gas from the tank to the three large burners, where it burns with an intense blue flame hotter than either kerosene or city gas. No smoke or odor of any kind. Large cast iron grate for better heat distribution is hinged at back of stove. Cooking surface, 10½ by 26½ inches. Patented double priming cup generates gas 50 per cent faster than any other stove. Patented slide controls regulate two burners; the other is controlled at tank.

Extra large safety drawn brass tank is outside, away from flame and will not rust or leak. Air pressure gauge to indicate when pressure is running low. Tank and burners in one unit slip into case with air pressure pump and funnel, and the 9-inch windshield folds down to make a compact carrying case 5¼ by 10⅝ by 26½ inches. Case is 24-gauge sheet steel, enameled brown. Shipping weight, 27 pounds. Mailable.
460 G 9666 ..... **$9.35**



$8.48

Prentiss-Wabers Two-Burner Oven Stove

Roasting or baking is now made practical in camp with this new improved two-burner Oven Stove. Designed with all the latest improvements including built-in oven and detachable asbestos interlined baffle plate with baking rack. Whole oven tips back on small legs for use as warming shelf. Hinged on iron grate gives better heat distribution. Cooking surface 11 by 20½ inches. Oven is 10⅝ by 20½ by 11 inches—much larger than the average. Hinged lid may be fastened down to protect flame and food.

Simple and easy to operate. One or two burners may be used. Patented double priming cup generates gas 50 per cent faster than any other stove. Large one-piece drawn brass non-rusting gas tank with air pressure gauge. Self-cleaning needle valve—cannot clog. Tank and burners slide into case as one unit. Sturdy, rigid legs lock in case. Small brackets on side hold oven firmly in place. Case is of heavy-gauge sheet steel with brown enamel finish. Oven folds flat inside lid, and the stove folded with all parts enclosed is only 5½ by 11 by 20½ inches. Actual weight 22¾ pounds. Shipping weight, 26 pounds. Mailable.

Boys'

Hawthorne Juvenile Bicycle

For Children 5 to 8 Years

Boys and girls. Here's the finest and best constructed Bicycle for you we have ever offered. This dandy bike is exactly the same style and high quality as our "Scout" shown above. The only difference is in the color of the frame and the construction of the rims. The Hawthorne Juvenile is finished entirely in Cherry Red, without white trimmings. The rims are all steel cement type Fisk Red Tread tires and New Departure coaster brake.

Frame, 16-inch. For boys and girls 5 to 8 years old or with inseam measurements of 16 to 23 inches from crotch to toe. Actual weight, 26 pounds. Ship. weight, 43 pounds. Shipped from our Baltimore Store.

160 G 3029.....$19.95

The "HAWTHORNE SCOUT"

For you who prefer a lighter weight Bicycle without motobike features, we offer our New 1928 model "Hawthorne Scout" and "Scout Junior." Materials and construction exactly the same as our motobike models. Both "Scout" bikes are covered by our ironclad Bicycle Guarantee on opposite page. **The prices are exceptionally low because the Largest Bicycle Store in the World can afford to sell them at just a small profit added to the cost of manufacture.**

A beautiful bicycle with clean racy lines and all modern up-to-date features, including New Departure coaster brake and front hub, compound saddle springs, deep center mud guards, and heavy duty famous Fisk Victor red tread cement type tires.

The finish is Cherry Red enamel with White trimmings baked on and weather varnished. The rims are the new Lobdell steel armored wood, with highly polished nickel finish. Handlebars, crank hangers and other exposed metal parts are also highly polished nickel.

Shipped from Warehouse near Albany, N.Y., or our Baltimore Store, whichever is nearest you.

"Hawthorne Scout" for Men

160 G 3028—With 20-inch frame having one-inch drop at seat post. For riders with inseam measurements of 27 to 35 inches, crotch to toe; 28-inch Fisk Victor red tread cement type tires. Actual weight, 35 pounds. Ship. wt., 60 pounds.....$24.95

"Hawthorne Scout, Jr." for Boys

160 G 3026—For boys 7 to 11 years, with inseam measurements, 18 to 26 inches, crotch to toe. Has 18-inch frame, 26-inch Fisk Victor red tread cement type tires and New Departure coaster brake. Actual weight, 31 pounds. Shipping weight, 53 pounds.....$23.95

The "DOLLY VARDEN"

$26.85

Women's

Ward's "Dolly Varden" Bicycle for girls and women is one of the most attractive you have ever seen. Built in the same sturdy manner as the Hawthorne Motobike. The frame is finished in a rich blue with white trimmings. The baked on enamel has a brilliant finish. All exposed metal parts are nickeled and highly polished.

The design of this model insures easy riding. The saddle is well made of soft leather, padded and cushioned on compound springs. Metal safety guard over chain, deep mudguards over wheels, and heavy cording on rear wheel, protect rider's clothes. New Departure front hub and coaster brake. Lobdell nickel-plated armored wood rims. Tires are Fisk Victor red tread cement type.

Someone Buys a HAWTHORNE

The HAWTHORNE FLYER
Our Finest 1928 Model

HAWTHORNE Bicycle Guarantee

We will replace, free of charge, any part of a HAWTHORNE Bicycle which proves defective because of imperfections in materials, workmanship or construction. We further guarantee that if, when you receive it and try it, you do not believe it to be the greatest bicycle value you can buy anywhere, or if for any other reason you are not perfectly satisfied in every way after riding it for thirty days, you may write us for shipping instructions and we will refund all you have paid, including transportation charges both ways.

Satisfaction Guaranteed or Your Money Back

$33.85
Cash Price
Fully Equipped as Shown

Or Easy Monthly Payments
$10 Down
Five Dollars a Month

Boys! $10 Down Brings You the Finest Bike We Sell Then Pay Only $5 a Month

GAIN the World's Largest Bicycle Store leads in motobike values. The Beautiful Hawthorne Flyer, with all its new 1928 features and complete riding equipment, is the finest Motobike we ever sold—and you save fully one-third by buying from us, as you would pay $55 or $60 elsewhere and not get as much real bicycle quality and value as the Hawthorne Flyer brings to you. Our low price is possible because we sell many more bikes than any other store in the world, and add only one small profit to manufacturing cost.

You'll like the Hawthorne Flyer. It has many of the desirable features of a motorcycle—strong nickeled trussed fork, big comfortable Troxel motobike saddle, streamline motobike tank (for tools) with hinged door, and the braced handlebars with long motobike grips—the finest ever. And it has Fisk tires!

The new powerful Delta electric headlight has a 3½-inch polished reflector, with 1½-volt bulb, battery container and battery; red jewel on rear mudguard reflects the rays from auto headlights approaching from behind. Auto type hand horn; fine nickel-plated tire pump; handy adjustable wrench; luggage carrier and wide-base parking stand.

Nationally Advertised Fisk Tires Standard Equipment

The Hawthorne Flye Motorbike has to be splendidly built to live to our guarantee. The frame is 18-gauge one-inch, seamless steel tubing, reinforced at all joints and strongly brazed; size, 20-inch, with one-inch drop at seat post; for inseam measurements of 27 to 32 inches from crotch to toe. Leather covered Troxel Motobike saddle, with compound steel springs. Ball-bearing wheels and crank-hanger—wide rubber-tread ball-bearing pedals, each tread may be turned over as it wears down—giving you four wearing surfaces. Fine Diamond roller chain—sprocket and crank designed for extreme strength.

The famous Fisk Victor red tread Tires are standard equipment on the Hawthorne. Your choice of genuine **Lobdell** nickel-plated, cement type or all steel clincher rims. Rim size 25-in. for 28-in. tires.

Lobdell Rims are made by compressing a wood rim into a strong nickel-plated steel shell and are springy, resilient and extremely durable. The tires are securely cemented on rims..

All Steel Clincher Rims, enameled gray with white center, for clincher tires, and are built for strength and riding comfort. Motorcycle type mudguards with drop sides and deep center. Weather-proof enamel is baked on and highly varnished. Your choice of rich blue or golden brown, with white head, and white mudguard stripes. Genuine New Departure or Morrow coaster brakes.

Try the Hawthorne Flyer Motobike for 30 days. Send your order in the regular way—either all cash or, if you prefer, a payment of only $10 down. If not completely satisfied after thirty days' trial, write us for shipping instructions and we will return all you have paid, including transportation charges both ways.

Actual weight, 43 pounds. Ship. wt., 67 lbs. Estimated Total Freight Charges for 150 miles, 70¢; 300 miles, 89¢; 500 miles, $1.38. Express rates about one-half more. For Easy Payments Use Order Blank on Page 725.

Boys under age of 21 must obtain signature of parent or guardian on order blank.

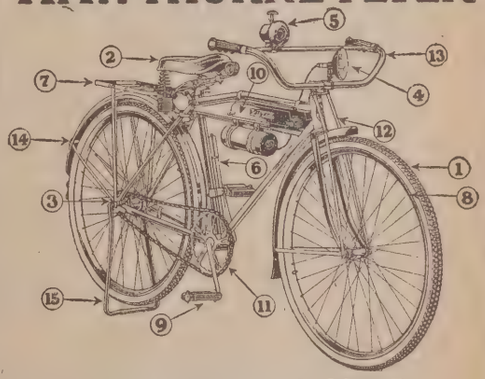
features of the 1928 HAWTHORNE FLYER



Choice of Rich Blue or Golden Brown

1 The Famous Fisk Victor Red Tread tires. Usually sell for $2.75 each. Standard equipment on all Hawthorne Bicycles.

2 Wide, comfortable Troxel Motobike Saddle with double compound tempered steel springs.

3 Your choice of Genuine New Departure or Morrow Coaster Brakes. Enables you to coast freely or stop quickly.

4 New Delta Electric Headlight with 3½-inch polished reflector; bulb and battery included. Lights up the road.

5 Auto type horn. A slight pressure on the plunger produces a warning blast.

6 Pump is seamless brass tubing, finished nickel.

7 Strong, substantial luggage carrier, enameled to match bicycle. Holds heavy packages.

8 Choice of the New Lobdell cement type of rims, rock maple encased in highly nickeled steel armor, or enameled all steel clincher type.

9 Fine quality ball-bearing pedals with 4-surfaced rubber treads and nickeled metal parts. High carbon steel shaft.

10 Handy tank to keep your tools.

11 Genuine Diamond Roller chain. Sprocket, geared 26 to 10—which is the ideal ratio for Motobikes.

12 Nickeled and highly polished truss fork rods.

13 Nickeled and polished braced Motobike handle bars, 20 inches across. Made of steel tubing.

14 Red jewel reflects headlights from autos approaching from behind.

15 Strong U-shaped bar steel parking stand. Unusually broad base.

"Best Bicycle I Have Ever Seen"

"Two and one-half years ago I purchased a Hawthorne Flyer Motobike, and will say it is the best bicycle I have ever seen. I have traveled 2530 miles on it. It still runs almost like new and is in perfect condition." So writes Carl E. Strand of Karlstad, Minn.

The wood rims are of one piece high-grade select seasoned rock maple. Finely finished and varnished. All steel rims are of high-grade steel finished gray enamel. All rims drilled for 36 spokes.

Built-Up Bicycle Wheels

Completely assembled with hub axle to set into forks. Wood rims are rock maple cured to prevent warping. Front Wheels are fitted with New Departure hubs. Rear Wheels are fitted with either plain non-coasting hubs, complete with sprocket and axle assembly, or with New Departure or Morrow Coaster Brake. Rear wheels will be fitted with 10-tooth ⅜-inch wide sprocket for 1-inch pitch chain on both plain and coaster brakes unless specified otherwise.

Wood Rims for Cement Type Tires

Plain hubs listed below are without coaster brakes. N. D. represents Departure.

Article Number	Kind of Wheel	Wheel Diam.	Tire Size	Finish	Eac

Built-Up Wheels With Genuine Lobdell Armored Wood Rims for Cement Type Tires

Have advantages of both wood and steel. More resilient, stronger and will not warp or buckle. The wood rim of rock maple is protected by two coats of white lead then rolled into armor steel shell under pressure, making wood and steel as one—water-tight with no space between. It is given a heavy coat of nickel—a flashing rust-resisting finish.

Read "How to Order" on Page 643.

560 G 3235	Front	25 in.	28 in.	Nickel-Plated	$2.6
560 G 3236	Rear, Plain Hub	25 in.	28 in.	Nickel-Plated	3.9

Ship. wts., with plain hub, 7 pounds; with coaster, 10 pounds.

Every Keen Boy Wants Sturdy Bicycle Tires—and I Picked These *for* Exceptional Quality"

Earnway Edwards, Manager Bicycle Department

Wonderful values because, like our world-nous Riverside automobile tires, they are ade right. Each tire is given the most severe t for strength and durability.

Every tire is made by expert workmen, according to our own rigid specifications, which call for the finest quality materials and the most approved methods of construction.

$1.75 Each

$2.45 Each

Riverside Giant Red Stud Cement Type

While Bicycle Tires do not receive the shocks and hard use given automobile tires, the experience gained in making the heavier auto tires has been applied here to produce a long life bicycle tire. You save money because we purchase enormous quantities direct from the manufacturer and eliminate all in-between profits.

Enjoy greater riding comfort and get more mileage at less cost. Tough, red rubber treads with giant non-skid studs that are soft and lively, yet not easily punctured; grip the road and prevent skidding. The pliable, white rubber side walls are designed to absorb the shocks of rough roads. Two plies of finest quality, heavy fabric all around and an extra ply under the tread. This extra ply makes the Giant Stud superior in wearing qualities to many tires sold elsewhere for more money. The inner lining is strong elastic red rubber—no porous walls to leak. Full standard size. Shipping weight, each, 2 pounds 8 ounces.

Article No.	Tire Size	Fits Rim	Each	Pair
60 G 3150	28 inches	25 inches	$1.75	$3.30
60 G 3154	26 inches	23 inches	1.65	3.15
560 G 3158	24 inches	21 inches	1.55	2.95
560 G 3159	20 inches	17 inches	1.45	2.80

Nationally Known Fisk Victor Tire

$2.35 Each

Standard Equipment on Hawthorne Bicycles

Boys who know Bicycle Tires will realize the big value we are offering in these famous Fisk Victor Tires at this low price. Built like the finest motorcycle tires from strong motorcycle fabric and live, durable rubber. They have thick, white rubber side walls, and a heavy red tread that firmly grips the road and prevents skidding. Actual comparisons have shown that they are good for much more mileage than ordinary low priced tires sold elsewhere at the same price.

Only because we buy direct from the makers in carload lots at a little above the cost of manufacture are we able to offer them to you at these moderate prices.

Every boy wants his bicycle to look as much like a motorcycle as possible and no other tire will give that appearance better than the Fisk Victor. Notice, too, the inner construction of this tire as shown in the small illustration above. Our customers are always assured of receiving fresh new stock that will give long, satisfactory service. Each tire is carefully inspected before shipment. Shipping weight, each, 2 pounds 8 ounces.

Article No.	Tire Size	Fits Rim	Each	Pair
60 G 3110	28 inches	25 inches	$2.35	$4.50
60 G 3111	26 inches	23 inches	2.25	4.30

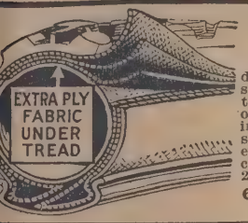
Riverside Black Crow Auto Cord—Cement Type

Our best Bicycle Tire value—a real cord tire. Our enormous sales have enabled us to increase the quality and strength without advancing the price. The Riverside Black Crow Auto Cord has been tested with many of the most expensive tires manufactured and we believe no better tire is made. Notice the illustration above—the thick black rubber tread is resilient to absorb shocks, yet firmly grips the road and helps prevent skidding. The body is made with two layers of long fiber cotton auto cord bedded in pure rubber and vulcanized. This construction insures long wear and is as near puncture-proof as experts can make it.

Buy one Riverside Black Crow Auto Cord and put it on the rear wheel where the wear is hardest; put any other make of tire on the front wheel. You will find the Riverside far superior.

Cement type, which needs no inner tube. Rim side has flannel strip so cement holds securely. No "creeping" on rim or torn valve stems. Thick inner wall of pure, fine grain non-porous rubber, the best assurance against slow leaks. Size 28-inch only, for 25-inch standard size rim. Shipping weight, each, 3 pounds.

60 G 3149—Each $2.45
Per pair 4.65



Riverside Giant Stud Clincher Tire

Same as the cement type tires described above, but made Clincher style. Shaped like an automobile tire. Much easier to put on than the old style "flat" clincher tires. Size 28-inch to fit 25-inch standard size single or double clincher rims of either steel, wood or wood-lined steel construction. Shipping weight, each, 2 pounds 8 ounces.

60 G 3160—Each $2.25
Per pair 4.25

Riverside Motor Fabric

$2.15 Each

This New Motor Fabric Road Gripper is built like the best motorcycle tires, of sturdy motorcycle fabric and live, durable rubber. The side walls are of thick white rubber and the tread is heavy black rubber made in non-skid style; grips the road firmly and prevents skidding.

These tires, like all the others on the page, have undergone the most severe tests for strength and durability. Actual tests show they give much more mileage than other tires sold elsewhere at the same or even higher prices. You save money on Riverside Tires because our large volume sales enable us to make our price at only a few cents more than the actual manufacturing cost. Size 28-inch for 25-inch standard size rims. Ship. wt., each, 3 pounds.

60 G 3145—Each $2.15
Per pair 4.05

Auto Cord Clincher

Strong, flexible—two layers auto cords vulcanized in pure rubber. New auto style clincher which is very easy to put on and take off rim. Use inner tubes shown below. Fits single or double clincher rim of either wood, steel or wood lined steel construction. Size 28-inch for 25-inch standard size rim. Shipping weight, each, 2 pounds, 12 ounces.

60 G 3147—Each $2.65
Per pair ... 5.05

Improved Runabout Tire

Cement Type

$1.45 Each

Although our lowest priced Bicycle Tire, we assure you that it will give many miles of service. Full size with two-ply select bicycle fabric and tough, live rubber black studded tread with white side walls. The inner lining is good quality rubber, carefully vulcanized.

Not as heavily constructed as our higher priced tires and will not equal them in long and hard usage but will outwear many tires offered elsewhere for more money. Size 28-inch for 25-inch standard size rim. Shipping weight, each, 2 pounds 8 ounces.

60 G 3190—Each $1.45
Per pair 2.80

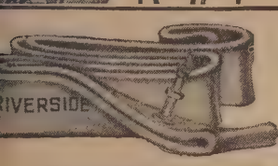
U. S. Giant Chain Tread

$1.98 Each

This nationally known tire is of tough three-ply fabric. The thick black Giant Chain tread forms vacuum cups when riding, giving an excellent, road gripping surface. White rubber side walls with three plies of closely woven, tough tire fabric all around are strong, yet pliable to absorb the shocks.

Our price is much less than usually asked for this quality tire. Size 28-inch for 25-inch standard size rim. Shipping weight, each, 2 pounds 8 ounces.

60 G 3188—Each $1.98



85¢ Each

Red Rubber

Riverside Inner Tubes

The same high quality as Riverside tires. Hand made of fresh, live, red rubber and well vulcanized. Correctly constructed to fit the casing snugly and give you many miles of satisfaction. Valve set securely in combination fabric and rubber base. For 28-inch clincher tires. Shipping weight, each, 14 ounces.

60 G 3302—Butt end. For changing leaky single tube tire into serviceable double tube tire. 85¢
60 G 3303—Endless. For all clincher tires.
Each ..... $ .85
Per pair 1.60

How to Order Bicycle Tires, Wheels and Rims

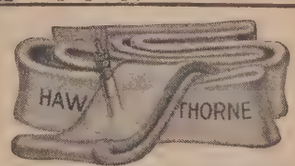
You can easily find the correct size tire for your bicycle by measuring the distance from the ground to the top of the tire, when the tire is on the wheel and fully inflated. Or you can measure the diameter in inches between outside edges of the rim and add three inches, which gives you the tire size. For example: The picture above shows a rim measuring 25 inches from edge to edge, which makes a 28-inch tire—the standard size on men's and women's bicycles. Juvenile bicycles with 23-inch rims take 26-inch tires, or with 21-inch rims take 24-inch tires. The 17-inch rims take 20-inch tires. For further directions on how to order, read General Ordering Instructions on Page 342.

18¢ Each

Bicycle Tire Valve

Used to replace torn out Valves on single tube tires. Saves buying new tires. Large bearing surface gives sure anti-leak grip. Shipping weight, 3 ounces.

60 G 3815—
Each... 18¢



75¢ Each

Gray Rubber

Hawthorne Runabout Tubes

Will give good service, and under usual treatment will last a long time. Although sold at a low price, they are of durable quality. Full bicycle size. Only new, live gray rubber is used. Thoroughly vulcanized to combine great elasticity with strength. Valves set in fabric and rubber base. For 28-inch clincher tires. Shipping weight, each, 12 ounces.

60 G 3306—Butt end. For changing leaky single tube tire into serviceable double tube tire. 75¢
60 G 3310—Endless. For all clincher tires.

84 G 5174 PIPE CUTOFF
84 G 5143 SHOES

Finest Quality Materials

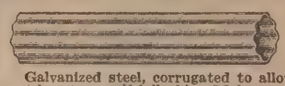
Our Eaves Trough, Down Spouting and Fittings are furnished in two thicknesses—heavy 28-gauge and extra heavy 26-gauge. The 26-gauge is fully 20 per cent thicker and heavier than the 28-gauge. We do not sell the light 29-gauge offered by some dealers.

Our eaves trough is easy to put up. Any man can do it. Slip-joint is part of trough. No soldering required. This construction is far superior to trough in which the joint is an extra piece. In our trough the joint forms a smooth surface for the water to flow over, leaving no crevices for the water causing rust and decay.

Read This Before Ordering Eaves Trough and Corners

The bead on the trough is always on the outside as you face the build The slip-joint should be on the end towards which the water flows. Th fore, if water flows to right as you are facing the building, order right hand trough and corners. If the water flows to the left, order left trough and corners.

If your building is difficult to order fittings for, and you are in doub what you require, write us, enclosing rough sketch of your house, gi accurate dimensions, and we will gladly tell you what fitting to or This Engineering and Estimating Service is free to Ward's customer



Duro Corrugated Down Spouting

Galvanized steel, corrugated to allow for expansion and contraction, will not burst, even if full of ice. Makes a stiff, strong pipe, easy to put together. Furnished only in 10-foot lengths. Made to fit the following eaves troughs:

Size of eaves troughs, inches	3½	4	5	6
Size of conductor, inches	2	2	3	4

Allow 2½ inches on each length for the joints. State size and number.

184 G 5132—Heavy 28-Gauge.

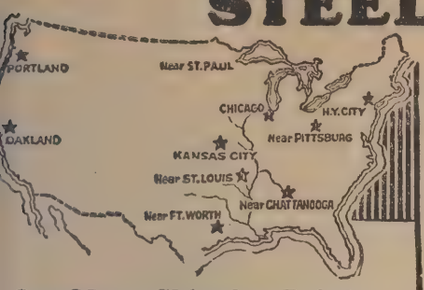
STEEL ROOFING and SIDING

"Outlasts the Building"



Our Many Shipping Points Save You Freight

ch star on this map shows the location of one of our houses where we stock steel roofing for immediate ship-t. If you order from our Baltimore store, roofing will ipped from New York City, Eastern Tenn., or warehouse Pittsburgh, Pa., whichever is nearest you. Thus your ht costs less and you are assured of prompt delivery.

low to Figure Freight Charges

e table below shows the shipping weight PER RUNNING T on both Corrugated and V-Crimped Metal Roofing. oose you live about 150 miles from our nearest distributing t and you want eight 6-foot lengths of 28-gauge galvanized ng. Eight sheets, each 6 feet long, make (6x8—48) 48 NNING FEET. The table below shows that the weight running foot on this gauge is 2 pounds, therefore, the total oing weight would be twice 48, or 96 pounds. The esti-d freight charge for 150 miles is 35 cents per 100 pounds.

Shipping Weight, Running Foot, Corrugated and V-Crimped

29-Gauge Galvanized Roofing....1 pound 12 ounces.
28-Gauge Painted Roofing.....1 pound 8 ounces
28-Gauge Galvanized Roofing.....2 pounds
26-Gauge Galvanized Roofing....2 pounds 4 ounces

Estimated Freight Charges per 100 Pounds:

150 Miles	300 Miles	500 Miles
35¢	45¢	75¢

Further Reductions in Roofing Prices

Buying for 8,000,000 customers and paying spot cash, we can make these unusually low prices on Duro Steel Roofing. Contains the finest materials and is of the best workmanship throughout. Furnished in two styles—corrugated and V-crimped, either galvanized or painted. Both are made of the best Open Hearth sheet steel. Galvanizing is done by cleaning the uncoated sheets in a chemical solution, and passing them through pure molten zinc. Painted roofing is the same fine quality sheet steel without galvanizing but painted on both sides with best quality red oxide paint. Furnished in either 26, 28 or 29 gauge. The 26-gauge is the heaviest and is strongly recommended for permanent buildings. Our low price for 26-gauge is less than usually asked for the lighter grades.

Whether you are building a new home, barn or shed or repairing old buildings, it will pay you to use Duro metal roofing and siding.

Free Estimating Service on Roofing

If you are in doubt as to the number of sheets you will need for your particular job, simply send us a complete sketch of your building giving exact dimensions and pitch of roof. We will advise you as to exact amount needed.

Compare Our Prices

Metal roofing is usually quoted by the "square" of 100 square feet. For your convenience we quote prices per sheet. A comparison will show you that our prices save you at least one-third.

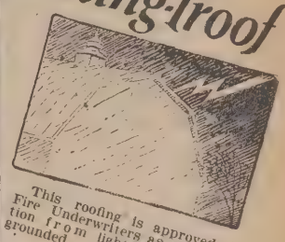
"The Metal Roofing I bought from Ward's is the easiest roofing I ever put on, and it makes a fine looking job. We grounded it, and believe that we have as near a lightning-proof building as could be made. I saved at least $40, and recommend it to others as a safe and economical roofing." W. Millhisler, Perry, Mich. Printed by Permission

It Pays to Buy Steel Roofing

Easy to Apply

Duro Steel Roofing can be applied easily over old shingles for making old buildings like new. No skilled labor is required. All you need is a hammer and a pair of tinners' snips.

Lightning-Proof

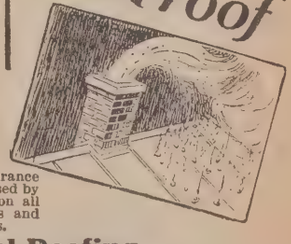


This roofing is approved by the Fire Underwriters as positive protection from lightning, if properly grounded.

Weather-Proof

Used everywhere on residences, barns and out buildings because of its fine appearance, low cost and long life.

Fire-Proof



Buildings with our steel roofing get low insurance rates because they are protected from fires caused by falling sparks. Install Duro roofing and siding on all your buildings for protection to your buildings and family, as well as lowering your insurance rates.

Duro Corrugated Steel Roofing

ch sheet of Duro Corrugated Steel ng is actually 26 inches wide, but when overs only 24 inches, or two feet, be-of the side lap. It is easy to order gated Roofing. Simply divide the er of feet in the width of the surface to ered by two (the width of each sheet). will give you the number of sheets across ow. It is a simple matter then to the total number of sheets needed. You can order the sheets in any length from 5 to 12 feet. Allow 4 to 6 inches for end lap, according to the pitch of the roof. We recommend the 1¼-inch corrugated for roofing and the 2½-inch corrugated for siding. The 26-gauge galvanized is heaviest and least expensive in the long run. Order one pound 1¾-inch roofing nails for 100 square feet of roofing and include ridge roll and lead washers with your order.

Duro V-Crimped Steel Roofing

Duro V-Crimped Roofing comes in sheets 24 inches from center to center of outside crimps, so no allowance need be made for side laps. This makes it easy to order. Allow 4 to 6 inches for end laps according to the pitch of the roof. We strongly recommend the galvanized, and it is advisable to order the 26-gauge for longest service. Order 1½ pounds of 1¾-inch roofing nails for each 100 square feet of 2-V-Crimped, and 3 pounds for each 100 square feet of 3-V-Crimped. Also include ridge roll and lead washers, if used. For an extra tight roofing job we recommend the use of wood V-strips. See 284 G 5005 on this page. These are inexpensive and make it easy to fasten the laps in a perfectly water-tight manner. It is not absolutely necessary to use these strips but the small expense is well justified by the results.

Shipped from Warehouse near Pittsburgh, Pa., Eastern Tennessee or New York City, whichever is nearest you. Send Orders to Baltimore

Tested for 25 Years — RADIO Superslate

Extra Heavy and

Use RADIO Superslate Shingles on Every Home for Beauty and Comfort

Choice of Red Green or Blue Black

NO SIMILAR investment you can make will add more to the comfort, protection and beauty of your home than a RADIO Superslate Asphalt Shingle Roof. The artistic soft colorings blend harmoniously with the surroundings and give your home a pleasing, attractive setting. Comfort under the hottest summer sun, or the coldest blasts of winter; protection from falling sparks or a burning flue are yours.

The Underwriters' Laboratories Inc. approve these Asphalt Shingles and we guarantee them for 17 years, although under ordinary conditions they outlast this period.

The quality is assured—these shingles are made of exactly the same materials as RADIO Superslate Roll Roofing. The same quality would probably cost one-third more a square if bought elsewhere. When you use RADIO Asphalt Shingles you save on the purchase price—and you can also save by putting them on without help.

RADIO Superslate Ridge or Valley Strips

This material is the same quality as our Radio Superslate Roofing. Length, 25 feet. Two widths; 8-inch for ridges; 16-inch for valleys. Order nails separately. See opposite page.

Four-in-One Strips

The most popular type of Asphalt Shingles—economical in cost and easy to lay. Each strip or slab contains four shingles, enabling you to lay four shingles as quickly as one. When laid on the roof they look like individual shingles. Will not curl or warp and require no painting or staining. Can be laid over old wood shingles.

Each strip is 10 inches wide containing four complete shingles. A square contains enough shingles to cover 100 square feet when laid 4 inches to the weather. Shipped in crates containing one-half square each—two crates furnished per square. Order nails separately. See opposite page. Actual and shipping weight, per square, 200 pounds.

Atlas Mica Surfaced Asphalt Roofing

16 YEAR GUARANTEE

Superior, Pound for Pound, to Any Smooth Surfaced Roofing Made

PUT ON ATLAS and forget about your roofs for we guarantee it TWELVE and SIXTEEN YEARS, depending on the weight you use. It is one of the best investments that you, as a home owner, can make—gives many years of protection to your buildings—its initial cost is low—makes your roof spark-proof, weather-proof and climate-proof. Remember, too, that you can lay it quickly yourself in your spare time. By ordering ATLAS and doing your own work you save both on the purchase and the installation. It is our best smooth surfaced roofing made of extra heavy felt, thoroughly saturated and coated with specially selected asphalt and covered on both sides with flaked mica. ATLAS Roofing has all the fire, acid, water, wear and weather-resisting qualities that every high-grade roofing must have. The smooth, pliable coating gives it a durable uniform wearing surface. A hammer and jack knife are the only tools needed. You can if you desire, lay it right over an old wornout shingle roof. Read how to order on the opposite page.

Guaranteed 12 and 16 Years

Heavy and Extra Heavy ATLAS Roofing is approved by the Underwriters' Laboratories Inc. Heavy is guaranteed for 12 years and extra heavy for 16 years. Order rolls of ATLAS with 1¾-inch nails and cement for use over old roofing. Each roll of 108 square feet covers 100 square feet of roof surface, allowing for 2-inch laps. Rolls contain large head galvanized roofing nails and Liquid Asphalt Cement, or the patented Lap-Kaps and nails (see opposite page), with directions for laying. Divide the total number of square feet to be roofed by 100 to find the number of rolls required.

Asphalt Roofing and Shingles

Guaranteed 17 years

GUARANTEE

WE guarantee RADIO Superslate Roofing for 17 years; This means that it is made from highest grade materials; that it is free from manufacturing defects; that it will not wear out or deteriorate under ordinary weather exposure for a period of seventeen years.

We guarantee that every roll of RADIO Superslate Roofing and every bundle of RADIO Superslate asphalt shingles bears the approved label of the Underwriters' Laboratories Inc., which is your assurance that it has the approval of the National Board of Fir Underwriters Inc., and is positive protection against all falling sparks.

We guarantee that our RADIO Superslate Roofing will not taint or discolor rainwater.

RADIO Superslate Asphalt Roll Roofing

$2.20 A Roll

Actually Weighs 85 to 90 Pounds Per Roll

NO MATTER where you buy your Roofing or what price you pay, you cannot get better Slate Surfaced Asphalt Roofing. Careful tests over a period of twenty-five years absolutely prove that Ward's Radio Superslate lasts just as long, looks just as well and is made from as good materials as any other slate surfaced roll roofing made—regardless of price.

This fine roofing is the same grade that is sold throughout the country for $3 to $3.50 a roll. You make a big saving by ordering from this catalogue.

"I wish to tell you that I am well pleased with my Radio Superslate Roofing. There is none to compare with it in weight and quality. When I need more roofing, I will order it from Ward's."

T. D. Acker, Ohatchee, Ala.
Printed by Permission

Extra Heavy—Water-Proof Fire-Resisting

This roofing is made extra heavy—exactly the same weight offered by others as 88 pounds and 90 pounds—and is guaranteed to give 17 years of satisfactory service. Has a 2-inch watertight lap joint and is made from the very best waterproof and fire resisting materials—extra heavy roofing felt thoroughly saturated and coated with the purest asphalts and surfaced with a heavy layer of the best crushed slate. Choice of three colors. The slate will not wash off and the roofing never needs painting. Lays perfectly over old shingles or composition roofs without the bother and expense of removing the old roof. The only tools needed to lay Radio Superslate Roofing are a hammer and jack knife.

Read These Points of Superiority

1. Guaranteed freedom from roofing troubles for seventeen years.
2. Protection from fire—approved by the Underwriters Laboratories Inc.
3. Economy—priced one-third less than asked elsewhere.
4. Fine appearance—adds to the value of your property.
5. A perfect roof—free from wrinkles, warping, shrinking or sagging. Each roll contains 108 square feet, enough to cover 100 square feet of surface, allowing for 2-inch laps. Ship. weight, per roll, 85 to 90 lbs.

RADIO Superslate Shingle Design Roofing

$3.10 A Roll

Actually Weighs 85 to 90 Lbs. Per Roll

LOOKS like stained shingles, but wears twice as long and only costs you half as much. Shows the Tile shingle design in clean black lines by a patented process. It is just as easy to lay as plain roofing yet much more attractive. It is preferred by thousands of home owners. The only difference between Shingle Design Roofing and Radio Superslate Plain Roll Roofing is in the design.

Recommended for Fine Appearance and Long Wearing Quality Water-Proof and Fire-Resisting

Approved by the Underwriters' Laboratories Inc. Guaranteed to last 17 years. Rolls are 32 inches wide, 40½ feet long and contain 108 square feet—enough to cover 100 square feet of roof with 2-inch laps allowed for. Large head galvanized roofing nails and liquid asphalt cement included free inside each roll. Ship. weight, per roll, 85 to 90 pounds.

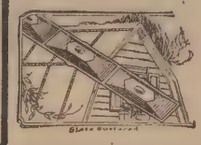
With Cement and Regular 1-Inch Nails

174 G 46—Red.
174 G 48—Green. Per roll $3.10

With Cement and 1¾-Inch Nails for Over Old Roofs

174 G 47—Red.
174 G 49—Green. Per roll $3.20

Shipped from our Baltimore Store or Warehouse in York, Pa., whichever is nearest you.

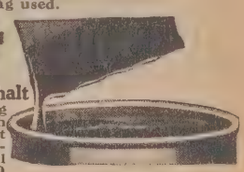


Special Lap-Kaps

We recommend these heavily galvanized metal strips where roofing is to be laid directly on boards. With Lap-Kaps, which are furnished with our Radio and Atlas Roofing, at a small additional cost, you can do a perfect job with no buckling or warping at laps. They bind each seam with even pressure and fasten roofing to sheathing boards with a vise-like grip. Make seams and laps watertight without liquid cement. Full instructions are included. Lap-Kaps are never shipped separately.

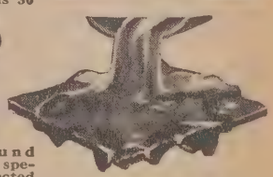
Cloth Felt

Made of rags—12 pounds to every roll of Radio. Selected for its long fibers. It passes a rigid test before being used.



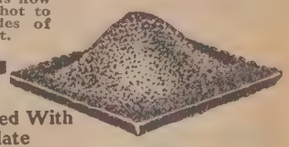
Dipped in Boiling Asphalt

Saturating the felt with boiling asphalt make it waterproof. Each roll now weighs 30 pounds.



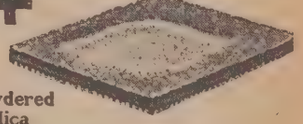
Coated With Heated Asphalt

A 23-pound coating of specially selected asphalt is now applied hot to both sides of the sheet.



Surfaced With Slate

The slate used is natural in color. Fade-proof and permanent. Never wears or comes off. One-third the weight of Radio is this wear-resisting, age-defying slate.



Powdered Mica

The bottom surface is now covered with mica to prevent sticking in the roll.

74 G 180—Tin Roofing Caps. Per pound ..... 10¢

How to Order Roofings and Shingles

To find the number of square feet of roof surface to be covered, multiply the length in feet of the roof by the length in feet of the rafter on one side. Then double this amount and you have the total number of square feet of surface on both side of the roof. Allow additional for small gables or porches. To find the number of rolls of roofing or squares of shingles required, divide the total amount of square feet by 100.

Where roofing is to be laid over an old roof or over old wood shingles, order the rolls packed with 1¾-inch nails and asphalt cement. If asphalt shingles are used, order separately extra long nails 74 G 196 shown to the left.

We will be glad to estimate amount of roofing or shingles needed if you will send us the dimensions of your roof.

Wallboard Means Economy in Building—

for Additions, Alterations or Repairs

52¢ A SHEET 16 SQUARE FEET

4-PLY Superb

No Decorating Necessary

A superior Wallboard finished on both sides—cream on one side and a salmon shade on the other. It is vastly better than the inferior, unfinished wallboards offered by others at slightly reduced prices. Our Superb is worth many times the small difference in price, because of the far better appearance and the greater satisfaction of the finished wallboard.

Either side may be exposed to view offering a harmonious color scheme for ceilings and sidewalls. No other decorating is necessary. With Superb you save $5 to $10 for the first coat of paint; and your room is ready for occupancy as soon as applied.

If you prefer you can have, for moderate cost, other color combinations by applying a coat or two of paint, Sand-Kote, the special Wallboard finish or Kalsomine (see Pages 654–655). The special painting at the factory serves as a primary coat; thus saving further decorating costs.

Superb Wallboard is 3/16 of an inch thick, made by securely cementing together four layers of thin, tough fiberboard of clean, strong, wiry wood fibers rolled under enormous pressure. Its hard, smooth finish can be washed with soap and water without injury. For $13.25 you can finish a room 10 by 12 feet with an 8-foot ceiling.

Another distinct advantage of Superb Wallboard is its permanence. Once up it never requires renewing. It does not crack, chip or fall off. There's not the same muss or litter that goes with plaster repair work. It is possible to obtain artistic panel effects by using our Superb panel strips (listed below at right) over joints. When applying wallboard use a fine lath nail such as our 84 G 8205 (listed on Page 663). Order 1 pound for every 150 square feet of board.

It's Easy to Apply

Anyone can apply Superb Wallboard direct to studding in new construction or over old plaster. The only tools required are hammer and saw. No additional headers or extra support required. Wide sheets extend over two or three studding, requiring fewer joints. You can select lengths which will reach from floor to ceiling. Easily sawed and nailed without danger of splitting. Sample sent free on request. Due to danger of damage in shipping, we cannot accept orders for less than three sheets.

Shipped from Stock in Baltimore or Factory at Buffalo, N. Y., whichever is nearest you.

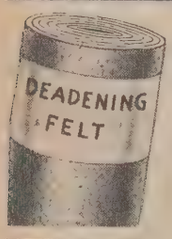
BUILDING PAPER and FELTS—It's Cheaper to Build a Warm House Than Heat a Cold On

Strict economy in building demands a generous use of insulating papers. The savings every season in fuel bills alone soon reimburse you for the outlay. Ward's Superior Sheathing Papers and Building Felts are guaranteed standard quality, manufactured from select materials—each the best for the purpose intended. Carefully tested for strength and durability in our modern laboratories. Prices on Building Papers and Felts are subject to market changes. Orders will be filled at the lowest prevailing prices.



Deadening Felt

Prevent annoying sounds and noises of footsteps from the floor above by using Standard Deadening Felt. Acts as an insulator in side walls—keeps cold and frost out and heat in. Adds greatly to the comfort and warmth of the home. May be used underneath linoleum, carpet or rugs. Our price is unusually low for this thick heavy quality felt. Each roll contains about 450 square feet. Width, 36 inches. Actual and shipping weight, per roll, 50 pounds.

474 G 237—Per roll.... $2.65

Tarred Roofing Felt

Highest quality, tough Felt saturated with distilled tar. Fine for roofing sheds and temporary structures and for general sheathing purposes. Suitable for use under stucco and brick veneers. Order tin caps and nails separately. Use 1½ pounds tin caps and 1 pound nails to each roll. Roll contains about 400 square feet and is 32 inches wide. Actual and shipping weight, per roll, 65 pounds.

174 G 249—Per roll.. $2.30

Red Rosin Sized Sheathing

Keep out wind, moisture or vermin by insulating between floors and under siding with this specially sized paper. Made of best pulp paper stock with a hard, smooth surface, thoroughly rosin sized. Furnished in three grades—all of exactly the same material. The added weight gives better insulation. Rolls contain 500 square feet and are 36 inches wide. Actual weight same as shipping weight.

474 G 218—Light. Shipping weight, 20 pounds. Per roll..... $ .60

474 G 220—Medium. Shipping weight, 30 pounds. Per roll..... .90

474 G 223—Heavy. Shipping weight, 40 pounds. Per roll..... 1.20

Blue Plaster Cardboard

A tough Cardboard of very strong texture, used for sheathing walls and ceilings of temporary buildings, attics, cellars, garages and summer cottages. Applied over boards or direct on studding with large head tacks and covered with wood panel strips at the seams. Width of rolls, 36 inches. Actual weight same as shipping weight.

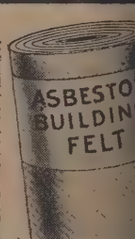
474 G 234—Rolls of 250 square feet. Ship. weight, 30 pounds. Per roll..... $ .95

174 G 235—Rolls of 500 square feet. Shipping weight, 60 pounds. Per roll..... 1.85

Asbestos Felt

An excellent insulator for lining buildings, refrigerator cars, ice houses. Deadens sound when used between floors and for general building purposes. The fire-resisting quality of this asbestos felt makes it especially desirable for many types of insulating. Extensively used for covering warm air furnace pipes. Ward's Quality Asbestos Sheathing will not burn if brought into direct contact with flames. Rolls contain 450 square feet, are 36 inches wide. Actual and shipping weight, per roll, 50 pounds.

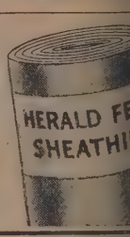
474 G 244—Per roll.. $2.85



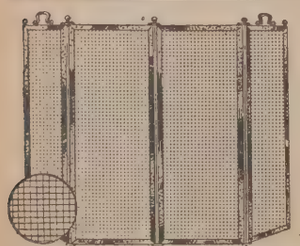
Herald Felt Sheathing

Tough Felt, thoroughly waterproofed with distilled tar. For use between sheathing and siding; also for lining floors. Its faint tar odor drives away vermin. Will unroll without sticking. Will not shrink or dry out. Unusually strong and durable. Rolls contain 500 square feet. Width 36 inches. Actual and shipping weight, per roll, 42 pounds.

474 G 226—Per roll...$1.95



Fireplace Fixtures



Fireplace Screen

The Quick Sure Way to Stop Leaks

Trowel Roof Cement

Heavy plastic compound of asbestos fibers and pure asphalts. Similar to Liquid Roof Cement listed at the right, except it has a putty-like consistency. Forms a thick matting that protects and preserves your roofs against weather. Used over the entire roof or for repairing flashings around chimneys, porches, flues, holes in the roof, skylights, or gutters. Will not get hard, brittle, soft or runny, taint or discolor rainwater, is non-poisonous and contains no Coal Tar to rust through metal roofing or soften and run off under the heat of the sun. Unless roof is in bad condition Trowel Roof Cement applied 1/16 to 1/8 of an inch is sufficient and 40 pounds will cover about 100 square feet of roof surface.

3½¢ A Pound In 550-Pound Barrels

See "Estimated Total Freight Charges" below at right.

The 50-pound pails and larger sizes shipped from Stock in Warehouses near Baltimore; 50-pound pails and smaller sizes from Stock in Baltimore, Md.; 5-pound cans from Stock in Baltimore.

Liquid Roof Cement

An Asphalt and Asbestos Product Contains No Coal Tar

Mrs. Thomas Hammond of Findlay, Ohio, writes: "The Liquid Roof Cement was as easy to put on as any paint; in fact I did the work myself. We have had some heavy rains since, but the roof does not leak. I saved $30, or the cost of a new roof."

It thoroughly water-proofs and protects all metal, slate, tile, felt, paper or composition roofs. The long fiber asbestos creates a matted coating insuring exceptional weather-resisting qualities, giving the necessary body to check running or bulging under a hot sun. Proper blending of the asphaltum prevents Liquid Roof Cement from becoming hard and brittle. Use it on any roof, flat or slanting. Non-poisonous; will not taint or discolor rainwater.

Spreads evenly and quickly with an ordinary paint brush. A single coating about 1/32 of an inch is usually enough to thoroughly seal cracks, leaks and holes in any kind of material. Where roofs are badly sunken, or large cracks or holes occur, use Trowel Roof Cement listed at the left for filling before spreading Liquid Roof Cement. Such repairs should last for 7 years or more. One gallon will cover 100 square feet of surface when applied on a tin or sheet metal roof, 65 square feet on paper, composition, felt or concrete roofs. For old shingle roofs, we recommend Ward's Heavy Roof and Fence Paint listed below.

Made According to Specifications of the American Society for Testing Materials, Which Are Endorsed by the U.S. Government

Excellent quality Creosote wood preservative and refined according to the strict standard of specifications prepared by the American Society for Testing Materials. The great preservative qualities of this protective oil prolong the life of fence posts, joists, sills or any wood. Also may be used effectively as a stain for shingled roofs, giving a dull, nut brown tone; and as a disinfectant and lice killer for hog pens and hen houses. Penetrates deeply, sealing the pores in the wood and protecting from ground moisture, decay and damage from boring insects and fungi. Adds years to the life of the wood thereby saving many times its cost in repairs and replacements. May be applied with a brush but deeper penetration may be obtained by heating the Creosote Wood Preservative and dipping the wood in the liquid. Five gallons is sufficient to treat 100 fence posts dipped to a depth of 2½ feet; one gallon will cover 100 square feet of surface, two coats.

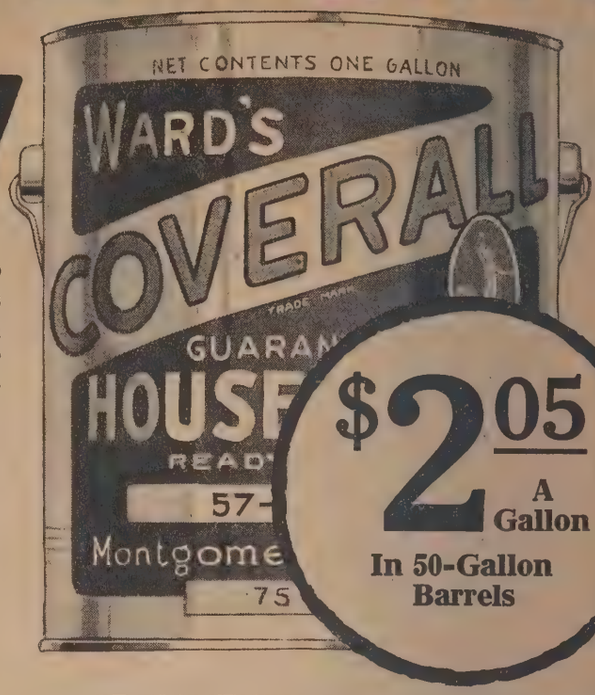
COVERALL Paint

TRADE MARK

Must Satisfy

HAVING been in the Paint business so many years—and having made millions of gallons of paint—we know that no one can consistently make and sell a paint of this quality for lower prices. Therefore, a price lower than we ask means cheaper quality.



$2.05 A Gallon In 50-Gallon Barrels

We Refuse to Lower COVERALL Quality to Make Lower Prices

IT would be mighty easy for us to sell Coverall House Paint at 15¢ a gallon less than we now charge; but to do it we would be forced to change our time-tried and tested formula. Taking out a little pure white lead, a little pure zinc oxide and a little pure linseed oil, would lower the cost of materials entering into the manufacture of Coverall to enable us to make such a reduction in price. But it would not give your home the protection you have a right to expect.

"Cheap" paint may cost you less at first, but when you consider that it covers less per gallon, that it will not last as long, and that it leaves the surface in bad condition for repainting, the cost in the long run is greater than if you had used Coverall. Remember that, although you pay a few cents more per gallon for Coverall, you save many dollars because it covers more surface and lasts much longer. Play safe when you paint—use Coverall—it must satisfy for quality is never changed to make a lower price.

We Make COVERALL Paint That's Why We Know It Will Satisfy You!

There is no secret about making good paint—if the proper materials are used and mixed in the right proportions. We know exactly what is in Coverall Paint because we make it ourselves—in our own factory, and we use only the best materials that money can buy. Nothing has been skimped to get the price down. More than 60 per cent of Coverall House Paint by volume is Pure Linseed Oil. The other 40 per cent is made up of the very best Pure White Lead, Pure Zinc Oxide, a small percentage of Japan Drier and other materials which insure uniform quality, long wear and great covering capacity. **There is not one drop of water or fish oil in Coverall House Paint.** Coverall is uniformly ground and true to color.

When You Pay Less Than Our Prices~ You Can't Be Sure of Getting COVERALL Quality

We have been in the paint business too long—we have made too much paint—to believe that at the present price of lead and oil, anyone can make and sell a paint of this high quality at lower prices, unless the portions of high-grade materials are also reduced. Coverall should never be compared with "cheaper" paints—a true comparison would be with paints selling from $1 to $2 a gallon more.

How to Find How Much Paint You Need

Find the number of square feet of surface to be painted. Divide this amount by 300 (the number of square feet one gallon will cover with two coats) and you have the amount of gallons required for the job. If the old paint is badly worn or if the building is new, it will require a priming coat of Coverall. This would require 50 per cent more paint and the necessary linseed oil to mix the priming coat.

Guarantee

We guarantee our COVERALL Paint to be made according to a reliable time-tested formula of Pure Linseed Oil and Pure White Lead, Zinc and other necessary ingredients.

We guarantee our COVERALL Paint to spread as well, look as well, and wear as well, as any paint made, regardless of price.

If for any reason you feel dissatisfied with COVERALL Paint while applying it, you may return the unused portion and we will refund the price you paid for the entire amount, including all transportation charges.

We will Furnish New Paint Free of Charge, and Pay for Putting It On Your Building, if COVERALL Paint fails to wear as well as any paint made, provided you have applied it in accordance with our printed instructions on the can or on the barrel.

This Guarantee Reflects Our Unbounded Confidence in COVERALL

We are so absolutely sure of Coverall Paint that we do not hesi to prove its quality. If it was not as good as we claim, we could afford to make this ironclad guarantee.

Go over your buildings now and order enough Coverall paint two coats. Besides giving them a beautiful, lasting, protective fi you will increase the value of your property far more than the of the paint.

The wide range of colors permits you to select exactly the sha you desire for color combinations. Coverall works easy under brush and dries without showing brush marks or laps.

Lacquer Your Car This Morning Drive It This Afternoon
Nu-Car Lacquer

$1.65 A Quart — **Nine Beautiful Colors and Black**

Anyone can brush on this quick drying lacquer—thus making it possible for you to refinish your car with a brilliant luster, in any color you wish, and drive it the same day—as this lacquer dries in less than two hours. The beautiful glossy finish is permanent—will stand storm and sun for years. You'll be more pleased with your car after you've dressed it up with Nu-Car and its selling value will be greatly increased. Excellent for touching up worn or rusted spots. A quart is all that is needed for a small car and a little more for a large car. Nu-Car Lacquer dries before dust has time to settle on it, leaving a smooth, clean surface.
Additional colors may be easily secured by mixing two or more shades of Nu-Car Lacquer.

Nu-Car Lacquer ordinarily requires no thinner. If thinning becomes necessary, use only Ward-Lac Thinner listed above. Include with your order for Nu-Car a can of Ward-Lac Thinner—necessary for cleaning the brush before and after lacquering.

Choose the Right Brush

Whether or not a lacquer finish is successful, depends largely on the kind of brush you use. Any of Ward's Rubberset, Vulcanized in Rubber, or Ward-set brushes will do the job well. Our special Ward-set Shasta Lacquer Brushes, listed on Page 657, are made for fine interior lacquering. Our Rubberset Brushes of the 686 series, also listed on Page 657, are especially recommended for auto refinishing.

At Last - an Outside Zinc-White Paint That Stays PERMANENTLY WHITE!

Ward's
ZINC-WHITE
TRADE MARK
HOUSE PAINT
Zinc-White Proved Satisfactory in Every Way
"One coat of Zinc-White House Paint has covered my buildings perfectly. It was easy to apply and spread on very well. Zinc-White Paint has retained its white beauty, not being affected in the least by coal smoke; and it does not show any signs of chipping or peeling. I saved $1.50 a gallon. Zinc-White Paint has proved very satisfactory in every way."
Isaac DeBack,
Delton, Mich.
Printed by Permission

$2.52 A Gallon
In 5-Gallon Cans

Covers Better
Stays White Longer
Spreads Easier

Zinc-White can be applied over the old paint and usually one coat is sufficient. Ordinary paint, if mixed heavy enough to cover in the same way, would not spread as easily or cover the same amount of surface. Special fine grinding machines give this paint its easy flowing qualities and its great spreading capacity. If used as a primer on new work, Zinc-White should be thinned with pure linseed oil the same as other paints. It comes ready to use over old painted or newly primed surfaces. The pigments used are the finest obtainable. Pure linseed oil and zinc add to the long life of this paint. We prepare it only in white but it may be tinted in the usual manner. Positively will not crack, peel or chip.

AS USUAL, Ward's leads in better Paint values. Thousands of le from enthusiastic customers prove the outstanding success of this manently white outside house paint. Zinc-White, as its name cates, has a zinc-oxide base instead of lead-oxide. Unlike ordinary paint, Ward's Zinc-White will not become brittle, nor scale and peel Our experts have developed this remarkable paint after years of cons study and experimentation to meet the demand for an outside white p that ***stays white*** during the lifetime of the paint.

We give the same guarantee to Zinc-White that we do to our Coverall House P Read it on Page 650. Zinc-White proves a most satisfactory paint on buildings ex to strong fumes or gases, which would discolor any other paint. It is also used exten in southern climates or localities where it is exposed to salt sea air. The excellent f lasting white beauty and rugged durability of Zinc-White has brought it into great with practical painters, who realize the advantages of this excellent product. gallon will cover about 450 square feet, one coat.

DECORATIVE BRONZE POWDER

Attractive Metal Colors

Finely ground Bronze powder of high quality for gilding or decorating radiators and pictures frames. The brilliant colors are suitable for effective polychrome work on lamps, candlesticks and mirrors, frames and statuary.

To prepare, mix a small quantity at a time to fairly heavy consistency; this will require about a pint of Banana or Bronzing Liquid to 6 ounces of bronze—except aluminum, which takes four ounces. The dry bronze may be sifted over freshly painted or varnished surfaces in order to secure the latest decorative finishes. Shipping weights: 2 ounces; 1 pound and 2 pounds.

White Cold Water Paint

For Interior Work

Low priced, sanitary and durable white interior finish. Mixed with water it makes a suitable finish for offices, factories, pantries, basements, garages, barns, chicken houses, and many other places where an inexpensive interior paint is desired. Dries hard and firm, will not chalk, peel or rub off. Can be easily and quickly applied with a regular paint brush or by spraying. (See Page 704 for sprayer.) Also has fire-resisting qualities. Approved by the Underwriters' Laboratories, Inc. Mix 1 gallon of water to every 5 pounds of paint powder. Five pounds will cover about 400 square feet. Not intended to take the place of an oil paint.

See "Estimated Freight Charges" on Page 650.

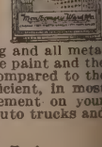
Wagon and Implement Paint



$2.53 A Gallon

Protect your wagons and implements from the weather and wear by "going over" them occasionally with this durable rust-resisting paint. Makes them look like new; keeps the wood from checking and warping and all metal parts from rust and decay. The cost of the paint and the effort spent in applying it are very little compared to the saving you will make. One gallon is sufficient, in most cases, to repaint every wagon and implement on your farm. This paint is also widely used for auto trucks and machinery of all kinds.

Inside ~ Floor Paint

Grinding, scuffling feet have little effect on this tough, elastic Floor Paint. Cover your kitchen or hall floors with Wardway Inside Floor Paint—a lustrous, granite-like finish which resists the roughest wear and constant scrubbings. We make this product in our own factory for this particular purpose. Our paint experts have added a durable floor varnish that gives it this rugged resistance seldom found in floor paints sold for anywhere near our low price. One gallon covers 250 to 300 sq. ft., two coats.

Six beautiful colors. Make your selection from the list below, or refer to Page 442 of the 106 Catalogue where the colors are shown, or write for free color chart.

Porch and Deck Paint

This wear and weather-resisting paint is made in our own factory so we know it is all that we claim for it. It will withstand the daily tread of scuffling feet and constant exposure to the weather. Forms a tough flint-like finish that resists the action of sun, rain, sleet or snow. Retains its beautiful, glossy finish for an unusually long time. We believe it to be one of the best paints on the market for this particular purpose. One gallon covers 250 to 300 square feet, two coats.

Shingle Stain Doubles the Life of SHINGLES

70¢ A Gallon In 50-Gal. Barrels

For Unpainted Shingled Sides or Sidings

Also Shingled Roofs New or Old

Make your shingled roofs or sidewalls charmingly beautiful and add many years to their life by coating or dipping them in Ward's Shingle Stain. Attractive color effects may be obtained by dipping the shingles in different colors and laying them alternately or haphazardly. Creosote Oil, the preserving element of this stain penetrates deeply into the pores of the wood producing the popular mottled effect and protects the wood against the weather. One gallon brushed on will cover 100 square feet, two coats; 2½ gallons will treat 1000 shingles dipped two-thirds their length. Make your selection from the colors below or refer to Page 442 of our No. 106 General Catalogue where the colors are shown, or write for free color chart. State color wanted. 512—Red; 514—Dark Green; 516—Grass Green; 500—Bungalow Brown.

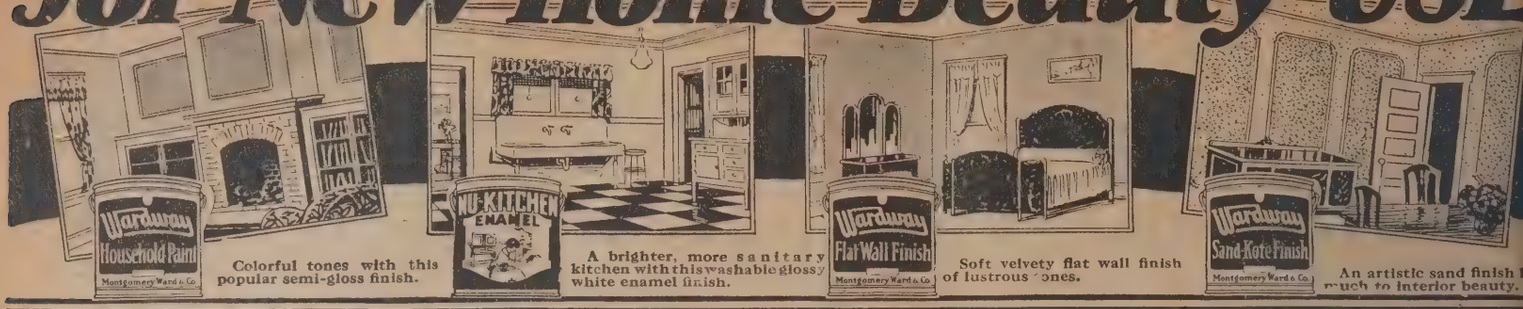
For New Home Beauty USE



Colorful tones with this popular semi-gloss finish.

A brighter, more sanitary kitchen with this washable glossy white enamel finish.

Soft velvety flat wall finish of lustrous tones.

An artistic sand finish for much to interior beauty.

$2.60 A Gallon Semi-Gloss *Always Washes Quickly*

Brighten the walls, woodwork and furniture in your home with this delightful finish. Wardway Household Paint dries hard and smooth, with a medium luster finish that may be washed repeatedly without injury. For this reason it is practical for bathroom and kitchen walls that need constant washing. You don't have to be an expert to use it. Anyone can apply with excellent results, as it flows on easily and smoothly and does not show brush marks or laps.

Made in Our Own Factory

Wardway Household Paint has been made for years in our own immense paint factory to meet the requirements of a lustrous, all-purpose paint—one that wears exceptionally well—washes easily—and still low in price. Ward's older customers need no introduction to this excellent interior finish as they have been using it for years with absolute satisfaction. Put a coat of it on your bathroom—see how easily it is applied, how nice it will look and how long it will hold its beautiful semi-gloss finish. It is also excellent for use on furniture, as it will not soften in warm weather and will stand constant wear. Wardway Household Paint does the work formerly required of several different kinds of paint, so you save both time and money by using this splendid all-purpose interior finish.

Make your selection from the list below, or refer to our General Catalogue No. 106 where colors are shown; or send for free color chart.

Wardway Kalsomine

4 Pound Package **35¢**

Sanitary Inexpensive Won't Rub Off

Think of it! Bright, freshly decorated walls for an average of 35 cents a room. And it's easy to kalsomine—in fact, anyone can do the job—easily, quickly and at a minimum redecorating expense. Just stir the kalsomine into water and spread it on with one of our special kalsomine brushes listed on Page 657. It covers well—only one coat is needed.

Wardway Kalsomine may be applied over painted, enameled, varnished or shellacked surfaces, if they are clean and dry; or over paper, wallboard, wood, stone, brick or plaster. A sponge and water will quickly remove old kalsomine and discolorations. Dries quickly—is non-poisonous—will not rub off, crack or peel. One four-pound package will decorate about 400 square feet of smooth boards or 150 square feet of rough surface.

$1.90 A Gallon Flat Wall Paint *Matchless for the Low Price*

"Saved $1 a Gallon"

J. K. Pease of Huron, S. Dak., a customer of Ward's for more than thirty years, says: 'I am glad to say that the Flat Wall Paint we purchased recently from Ward's was very satisfactory. We did the work ourselves—it spread on easily and smoothly. And besides, we saved about $1 a gallon by using your Flat Wall Finish.'

Beautifully tinted walls that are easy to clean and keep clean are an asset in any home. A damp cloth or sponge quickly removes smudges or finger marks. Amazingly durable—this flat, soft (no gloss) finish is decidedly popular with modern interior decorators. It dries with a mellow subdued tone that is sanitary and attractive. Anyone can "flow on" this beautiful finish without the sign of a brush mark or lap. Used on wallboard, metal, plaster and wood. Does not show up imperfections in the surface. Full directions on every can. Do the work yourself in your spare moments with any good paint or kalsomine brush, such as you'll find shown on Page 657.

Wardway Flat Wall Finish is used throughout the country in school rooms, theaters, and public halls largely because it provides a lasting finish at an economical cost. You can add to the beauty of a room by using our exclusive stencils shown above.

The variety of colors given, makes it possible to obtain contrasting and artistic combinations. One gallon of Wardway Flat Wall Finish covers 200 to 250 square feet, two coats.

Make your selection from the list below, or refer to our General Catalogue No. 106 where colors are shown; or send for free color chart.

Nu-Kitchen White Enamel

$3.75 A Gallon

New, fast drying, pure white enamel prepared especially for use on kitchen walls. You can easily, quickly make your kitchen the brightest, most sanitary room in your home, with this lustrous white enamel. Also used with excellent results on bathroom or bedroom walls where a glossy, washable surface is desired. Nu-Kitchen gives an exceedingly durable, satin-luster finish that will wash "pure white" and look as bright as the day it was applied.

Anyone can apply this special kitchen paint with entirely satisfactory results. It flows on smoothly and evenly without leaving brush marks or laps. Grease and dirt from the kitchen stove may be washed off easily with soap and water. One or two coats of our Towerlite White Undercoat listed below at right forms a perfect foundation for this beautiful finish. Nu-Kitchen may be tinted to beautiful colors with Tinting Colors listed on Page 653.

It is Easy to Apply This Enamel

Pure White Enamel That Stays White

In a few hours you can add new charm to your surroundings with this beautiful porcelain-like finish. It naturally reflects the light and makes any room brighter and more attractive. Towerlite Enamel is exceptionally fine for woodwork throughout the home, also for plain and paneled walls of kitchen, bathroom, bedroom, nursery, or laundry. Furniture requiring a durable and lasting pure white finish, can be made strikingly beautiful with Towerlite Enamel.

It flows freely, leaving no brush marks; dries quickly, dust-free and hard in twenty-four hours. Will not crack, chip or peel, and can be easily washed with soap and water. Retains its pure whiteness indefinitely.

One or more coats of Towerlite White Undercoat (listed below) forms a perfect foundation for Towerlite Enamel. Furnished in gloss or egg-shell (semi-gloss) finish. One gallon of Towerlite will cover 200 to 250 square feet with two coats.

3¢ A SINGLE ROLL and UP

BIG FREE BOOK —Write for It!

QUALITY PAPERS PRICED VERY LOW

ALL BORDERS and SAMPLES SHOWN IN ACTUAL COLORS —Just as They Look on YOUR WALL

BIGGER—and better than ever—full of the newest, most fashionable papers—each of them choice creations from one of twelve of the world's greatest wall paper mills. Naturally, this gives you a greater variety of designs and colors, and a wider price range than you could possibly get if the papers were the product of a single mill. Every sample is generous in size—actually one hundred square inches of wall paper, each with its own specially matched border reproduced across the top. This makes it easy for you to see just how it will look on the wall.

Your choice of wall paper is practically unlimited—you may choose papers for as little as 3¢ a single roll—enough sidewall, border and ceiling to do an entire room for less than a dollar. Or you may select papers of the same exclusive designs and colors found in the largest city shops. No matter what choice you make, a big saving is assured. Our prices are actually half what you would usually pay at retail.

Modern Decorative Schemes for Every Room in Your Home

And besides this display of beautiful papers, our big new book contains many other interesting features. It shows you pictures in full colors of actual rooms, charmingly arranged, to carry out the latest ideas in home decoration. Also simple, easy-to-understand talks on how to choose appropriate wall paper for every room in your home. All these helpful suggestions will make the selection of your wallpaper easier and more interesting than ever.

Don't fail to get your copy of this big new book. Just write your name and address on a post card and send it to us without delay. Your copy will be sent immediately.

35¢ A Pint — Towerlite White Undercoat

A good white foundation coat is of utmost importance before enameling with white or light tints. Towerlite White Undercoat makes a fine flat surface for the finishing coat of high class enamels such as our Towerlite Enamel or Nu-Kitchen listed on this page. It saves the cost of extra coats of enamel. Towerlite Undercoat is primarily a first coat, preparatory to enameling, but it may be used also as a flat wall finish.

Brighten Your Home

Just a Few Dollars Worth of Varnish MAKES A BIG DIFFERENCE — INSIDE!

EASILY APPLIED — INEXPENSIVE — DURABLE

For Outside and Inside Use

Wardspar Varnish

Dries Quickly

Used anywhere—inside or outside—this superior Varnish assures a perfect finish. Unexcelled as a fine interior finish for all floors, table tops, chairs or any surface that receives unusually hard wear. Tough, elastic and weather-resisting, Wardspar is also excellent for outside jobs, such as porch ceilings, boat decks, aeroplanes, vestibules or doors. It dries in six to eight hours with a lustrous finish that will stand the effects of rain, sleet, snow or the hot summer sun. Water-proof and will not crack, peel or blister.

Anyone can apply Wardspar and secure results equal to those of similar widely advertised varnishes selling at much higher prices. Kitchen, bathroom and other woodwork that requires frequent washing should be finished with Wardspar as it is not affected by hot or cold water, and constant washing will not turn it white. Under an actual test in our Laboratory, boiling hot water poured on a Wardspar surface had absolutely no effect on the finish.

Ward's Penetrating Wood Stain

A single coat gives new wood a soft stain effect on which you may use lacquer, wax or varnish, depending on whether you want a dull or glossy finish. Does not raise the grain but merely penetrates and stains, bringing out all the beauty of the wood. For old work after the varnish or paint has been removed with our Paint and Varnish Remover and new surfaces as the first step in refinishing them.

Various effects may be obtained according to the amount of stain applied and the time allowed for penetrating. To obtain a light effect, wipe off the stain quickly after applying. If a darker shade is desired, permit the stain to remain a few minutes before removing. All you need is a soft brush and some cheesecloth. Follow directions on the can. Then apply a coat of Shellac listed on Page 653 to prevent staining the varnish, wax or lacquer coat that follows.

Light Oak	Dark Oak	Mahogany

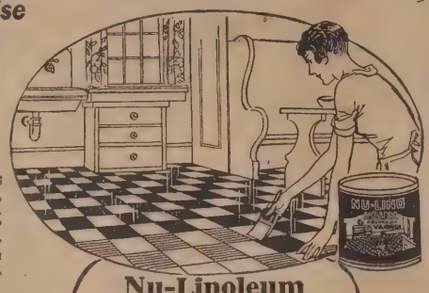
How to Refinish Your Floors

Where old finish on floors is smooth but dull, just clean the surface and apply our Marproof Varnish. If the old varnish is scratched, in bad condition or worn through, remove the old varnish entirely with our Paint and Varnish Remover listed at right. Dark worn spots may be bleached out with our Wood Bleacher listed on Page 653. Fill the cracks with Crack and Crevice Filler. If the floor is badly worn or discolored all the old finish must be removed. It should then be restained with Penetrating Wood Stain listed above to make it uniform after which apply Marproof Floor Varnish.



Nu-Linoleum

A Superior Varnish

A superior extra pale Varnish almost as clear as water, especially prepared for finishing Linoleum, Ward-o-leum and Congoleum. Nu-Linoleum forms a mirror-like film that will not darken light patterns but preserves and intensifies them. Will not crack, check, peel, or blister. Will not spot, stain or turn white when hot water, ammonia, alcohol, vinegar or hot grease are accidentally spilled. Nu-Linoleum dries with a tough, elastic finish that waterproofs and protects the linoleum from wear. Makes cleaning easy. Linoleum should last a lifetime if kept protected with Nu-Linoleum.

New Color Brilliancy Over Old Surfaces

FLOORS — FURNITURE — WOODWORK

Everything in your home—floors, stairs, banisters, trim, furniture, woodwork—respond to the blending beauty of Co-Var Finish—Ward's Color Varnish. One coat renews the original luster and colors the wood to resemble the natural finish even on soft wood surfaces. You have your choice of all the popular wood tones. You don't even have to remove the old finish, just apply it over the old paint, stain, enamel or varnish. Odd pieces of furniture may be finished to match perfectly —woodwork and floors may be made bright to harmonize with your furniture, under the magic stroke of Co-Var. It colors the varnishes with one stroke of the brush.

If a deeper shade is desired apply more coats. When putting a lighter color over a dark surface, apply a coat of Number 192—Ground Color first. Make your selection of wood colors from this list, or refer to our General Catalogue No. 106 where the colors are shown; or write for free color chart.

New Beauty for Floors

Ward-Lac Dries Hard in One Hour Does Not Scratch or Mar

65¢ A PINT

Years of unmarred, unscratched floor beauty make this superior quality, brilliant shining lacquer a worthwhile investment. Ward-Lac is the latest and most practical preparation for finishing new or old floors, furniture and woodwork. When dry it looks like a varnish, but it has a toughness and durability not found in ordinary varnishes. Floor may be walked on one hour after Ward-Lac is applied. Not affected by hot or cold water, nor will it discolor from wear.

May Be Applied Directly Over Old Finish

Second coat may be put on thirty minutes after the first is applied. One gallon covers 350 square feet, one coat. It can be used over varnished surfaces without removing old finish, except where varnish is badly worn and discolored; then use varnish remover before applying Ward-Lac. If Ward-Lac requires thinning, use only Ward-Lac Thinner. Include a can of Thinner with your order for Ward-Lac as it is also necessary for cleaning brushes. Full directions on can.

Liquid Paint and Varnish Remover

Ready to Use

When woodwork has become so badly marred or checked that painting or varnishing will not improve its appearance, it is best to remove the old finish before applying the new. To do this apply our Paint and Varnish Remover with a brush and in a few minutes the old finish is cut and softened sufficiently to be removed with a scraper or steel wool listed on Page 652. No other remover of this characte greater strength or works more rapidly than ours. Usual application is sufficient to clean a surface down to the wood. Paint and Varnish Remover will not injure the or discolor the wood to which it is applied, nor does it ta any filler or stain that is in the wood. Works fast. Is ea and convenient.

Runrite Super Test Motor Oils Cut Your Lubrication Costs ½

12¼¢ a Quart For Medium Oil

Saved 50c a Gallon

"Runrite Motor Oil performs every duty you claim for it and I saved 50c on every gallon. I will recommend this oil as the best I have ever used."

John Literak,
Monessen, Pa.
Printed by Permission

Notice

If you wish Runrite Zero-Test-Oil so specify on your order, and we will send a special oil for extremely cold weather at the same prices as our Regular Oil for Fords or Runrite Motor Oil.

And Remember: We Prepay the Freight on Every Order!

It is not necessary to pay exorbitant prices for oil when you can buy super quality lubricants at Ward's for practically half the money you are usually ask to pay. And, remember we pay the freight. Runrite Super-Test Motor bra is refined from excellent quality, paraffin base, mid-west crude oils. Our per cent Pure Pennsylvania is refined from the finest crude from the Penns vania oil fields. Every oil test known proves these oils equal, if not better, th many selling at much higher prices. No matter what oil may be your choi either the Runrite Super-Test Oils or our 100 per cent Pure Pennsylvania, will be assured of a fine quality product that will "hold up" under all tempe tures and constant, grinding friction. Try a barrel or 5-gallon can at our ri If you are not absolutely satisfied, we will return all of your money. Our pric always include freight.

100% PURE Pennsylvania OIL

Highest Quality Oil at Money Saving Prices

To meet the demand for a 100 per cent Pure Pennsylvania Oil, we are offering our customers, under our guarantee, an oil that actually comes from wells in the Pennsylvania oil fields. The extremely high flash and fire test makes it especially efficient and economical. It gives more mileage to the gallon. If, after you have given it a trial, and you are not satisfied, return the remaining oil and we will refund the purchase price. Pennsylvania Oil is known the country over for its superior lubricating qualities. These prices include freight charges.

TRADE MARK

Consult Chart Below for Proper Oil to Use in Your Car

Every oil test known—fire—flash—gravity—viscosity or the cold test proves Runrite Motor Oil equal, if not superior, to any on the market today, with the exception of Pennsylvania Oil listed at the left. However, the real test of any oil is the service that it gives. It has a full-bodied paraffin base, refined from select quality mid-west crude oil.

Runrite Motor Oil assures cleaner spark plugs, a marked freedom from carbon deposits, no sticky valves or other engine disorders, and in general a clean, sweet-running, full-powered engine. The tough film of Runrite Motor Oil holds the piston seal tight, assuring better compression, more power and greater mileage from gasoline and oil.

Fill your crankcase with new, clean Runrite—almost instantly you'll notice the added power, better hill climbing ability and smooth velvet action of the motor. Then, after a thorough trial, if you feel that Runrite is not the finest for the money you have ever used, return the remaining oil and we will refund your money. These prices include freight.

Runrite for FORDS

TRADE MARK

For many years a great favorite among Ward's customer It gives efficient, economical lubrication for Ford ca Every known test—flash—fire—gravity—viscosity—or t cold test proves Runrite equal, or superior, to widely adv tised oils on the market.

Full bodied, thoroughly refined from a high quality mi continent crude oil, it is assurance of thorough, continuo lubrication at all temperatures. The high speed Fo motor, cooled by the thermosiphon system, generates mo heat than most motors. For this reason a Ford needs special oil that will not break down under high speed intense heat. Ward's Special Runrite for Fords is exact such an oil. Its use means cleaner spark plugs, a mark freedom from carbon deposits, absence of sticky valves a a clean, sweet-running, full-powered motor.

If after a thorough trial you are not satisfied with Ru rite, return the remaining oil and we will refund your mone These prices include freight charges.

"Non-Chatter" Oil for Fords

The Ford "chatter" disappears almost instantly by i use, unless the bands are practically worn out. It al lubricates your motor perfectly, assuring greater pow from gasoline, a faster pickup, and a smoother runni engine. Runrite Special Non-Chatter Oil for Fords kee the brake bands soft and pliable, making them last long and giving equal leverage on the transmission. This assu a smooth quiet "get away" and steady, stutterless stoppin

Contains no ingredients harmful in any way to the effe tiveness of the motor. It has the necessary body to mainta a thorough piston ring seal at high temperatures, whi means more power, less gasoline per mile, no valve stickin or fouled spark plugs.

Full bodied with a high fire and flash test, you will fi Runrite Special "Non-Chatter Oil" for Fords equal to oth oils, selling at much higher prices. If, after a thorough tr you find it is not equal to any you have ever used, retu the remaining oil and we will refund your money. The prices include freight charges.

Runrite Tractor Oil

TRADE MARK

60¢ A Gallon

For Medium

In 50-Gallon Wood Barrels

A tractor requires a heavier oil than an automobile, because the strain of continuous heavy work develops excessive heat which doubles the work of the oil. Ward's Runrite Tractor Oil is of extra good quality that has been refined to meet all heavy operating conditions. This special oil stands up under the hardest kind of tractor work. Medium Oil is especially recommended for Fordsons, but it may be used with entire satisfaction in any make of tractor. Use medium grade in freezing weather. Order the grade of oil specified for your tractor, or be sure to state on your order the make of tractor. Try this oil and satisfy yourself as to its quality. We prepay freight charges.

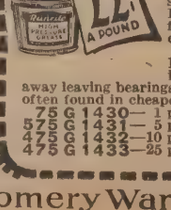
Avoid Repair Bills

by Stopping Cost of WEAR With Runrite High Pressure GREASE



If your car is equipped with an Alemite, Rex or any other high pressure lubricating system, you will save about one half by using our especially refined High Pressure Grease. Pure mineral oil in solidified form that maintains a uniform lubricating consistency under severe heat or coldest temperature.

Due to its spongy, elastic body, Runrite High Pressure Grease gives constant lubrication to bearings. Heat will not cause it to gum, coke or drip away leaving bearings dry. Contains no grit, soap, acid or other impurities often found in cheaper lubricants.

"We Saved at Least $1,000"

Wardway Ready Cut Homes

Says Rev. C.W. Cartwright
OTSEGO, OHIO

Means

Easier to Build
Quicker to Build
No Extras to Buy
No Waste Materials
1/3 Labor Cost Saved

IT WAS SO SIMPLE to build, so easy to pay for—and we saved fully $1000." That is what hundreds of customers say after building a Wardway Home. These amazing savings are made possible because Wardway Homes are a triumph of modern methods applied to home building. Why should you pay several profits on the lumber that goes into your home, pay for special plans, and hire men at high wages to measure and cut your lumber, when you can now buy your home Ready-Cut at mill-to-you prices from Montgomery Ward & Co.?

We buy the best lumber in huge quantities and have it cut to fit, and ready to build, by modern machinery in the mill. All waste is eliminated—middlemen's profits are avoided. You save on the cost of materials, and you save one-third the labor cost—your total savings on a Wardway Home, erected and ready to move in, amount to 25 to 40 per cent of the cost of the same home, built under the old fashioned plan of retail buying and hand cutting. Building a Wardway Home means building at *guaranteed cost*. You pay for no "extras" when you build the Wardway.

The Wardway Ready-Cut Home comes to you with all parts cut to fit. Every piece is marked plainly to show just where it fits. Anyone with even a slight knowledge of building construction can safely erect a Wardway Home. It can be built easily and quickly—all the difficult work is done at the mills.

Build a Wardway Home now and pay for it like rent. Send for your copy of our New Book of Homes and let us explain our Five Plans of Easy Payment.

Pay Like Rent!

Guarantee

We Guarantee to furnish you—at the price quoted on each building pictured in our Wardway Homes Catalogue—all the lumber, lath, shingles, doors, windows, frames, flooring, interior woodwork, nails, tinwork, door and window hardware, paints and varnishes and built-in fixtures necessary to build it according to the picture, floor plans, shown and specifications.

We guarantee that there will be no "extras"; and should there be any shortage or unsatisfactory materials, we guarantee to make the same good.

We fully guarantee all materials to be equal to or better than grades specified. You take absolutely no risk in sending us your order for a Wardway Home, as we unconditionally guarantee satisfaction in every detail.

You are fully protected under this guarantee—as we make you the judge.

End Matched Yellow Pine Flooring

Side and end matched flooring makes all the end joints perfect and insures you a saving in time and materials. It enables you to lay flooring just as rapidly as you can drive the pieces in place and nail them down. This new idea in pine flooring has eliminated end nailing and makes split and raised joints impossible. Furnished in random lengths so joints can be broken and a better floor laid. Made in one size only, 13/16 by 2⅜ inch face measurement, figured as 1 by 3 board measurement. Shipping weight, 21 pounds to 100 board feet. When ordering add 30 per cent to the total number of square feet to be laid for loss in machining and the difference in width. Shipped from Factory in Missouri or Iowa.

274 G 978—1000 board feet..... $60.00

Cabinet Ironing Board

$7.50 Complete

A full-sized Ironing Board concealed behind a beautiful cabinet door, yet it may be set up ready for use in an instant. Made of the finest quality clear, old growth Douglas Fir. Case is 14 inches wide, 81 inches high and 3 inches deep. Ironing board is 11¼ inches wide and 52 inches long.

Notice how solidly the board is supported by the lower panel making a firm, rigid ironing surface. Shipped set up with complete hardware. Furnished in two styles—one that may be fastened direct to the wall, the other to be built into the wall between the studding. When built into the wall, fir trim is furnished for finishing around wall opening. The illustration at the left shows the board ready for use with the case built into the wall, while the illustration at the right shows board closed with case set against the wall. Anyone can easily install it. Shipping weight, each, 50 pounds.

Oak Flooring

$6.20 100 Board Feet — 100 Board Feet **$8.75**

The finest quality obtainable, and we sell it at low one profit factory prices, which enables you to have modern oak floors at less than the cost of carpeting. Orders are shipped from mill nearest you the day they are received.

When estimating the amount of flooring required, figure the number of square feet of surface to be covered and add one-third to get the number of board feet of flooring to order. This extra one-third is to take care of waste and the loss in covering capacity due to the tongue and groove.

Thick Oak Flooring

Shipping weight, thick flooring 200 pounds per 100 square feet; thin flooring, 90 pounds 100 square feet.

Quality French Doors

Add that touch of refinement so noticeable in the finest houses. There are many different places where they may be used. The single French Door, or terrace door, is often used to fill the opening onto a sleeping porch, or for a side opening onto a terrace. Another favorite place is between the living and dining room.

All French Doors are made full 1⅜ inches thick. They are supplied in either clear white pine or in plain veneered Red Oak, and glazed with double strength glass.

Double doors are made with side and top rails, 2½ inches wide; bottom rail, 8¾ inches and a T astragal is furnished. Average shipping weights: French doors, per pair, 125 pounds; frames, each, 65 pounds.

Well Made Exterior Doors

Sacramento | Whittier | Lowell | Edwards | York

In this wide selection of popular Front Doors we have combined the finest quality materials, high-grade workmanship and good appearance. The Whittier, Lowell and Edwards doors are furnished in clear white pine; the Sacramento with white pine stiles and rails and fir panels and the York in all fir. All doors are "A" grade, except the York, which is graded "B" due to some slight imperfection. The Whittier door is 1¾ inches thick. All other doors are quoted 1⅜ inches thick.

All except the York can be furnished in the 1¾-inch thickness for $2.45 extra. Shipped carefully smoothed and sanded, but unpainted and unvarnished. All doors will take stain, varnish, paint or enamel finish perfectly. Glazed with either high quality bevel plate or clear glass, except the York, which is furnished in clear glass only. We carry in stock only such sizes of the different designs as quoted.

State size wanted.

White Pine Stiles and Rails and Birch Panels

Finest Quality Interior Doors

All Doors Shipped Direct from Mill in Eastern Iowa

These doors may be made especially attractive by enameling the stiles and rails and staining or varnishing the handsome, curly grained birch veneer panels. Another popular method is to enamel or paint the entire door.

The one-panel door has an insert frame and molding, giving it the richness of a molded door. Both doors are 1⅜ inches thick. State size.

Safety Night Latch

$1.38

The usual retail price of a Latch of this kind and quality is $2.50.

Rim type; easy to install. Each lock keyed differently. Three keys. Cylinder, bolt and knob solid brass. Japanned case, 3⅝ by 2 inches. For doors, ⅞ to 2¾ inches; locking in or out. Screws included. A safety assurance for every house. Shipping weight, 1 pound 14 ounces.

G 3210..... $1.38

Segal Jimmy-Proof Night Lock

Gives you sure protection. The front of the case interlocks with the strike or keeper so they are inseparable when the door is closed. This makes it impossible to force the door away from the jamb when the latch is locked. Of malleable iron, which makes it practically unbreakable. Black rust-resisting finish. Size, 3⅞ by 2½ in. For doors 1¼ to 3 inches thick. Ship. wt., 2 lbs.

84 G 3208..... $2.49

Segal Jimmy-Proof Lock

Recommended and specified by burglary insurance companies on account of its protective features. The interlocking bolt keeps your door from being pried open with a jimmy. Can be used on swinging or sliding doors. Of solid bronze metal; practically unbreakable and rust-proof. Each lock is keyed differently. Polished bronze finish. Size, 4⅜ by 2¾ in. For doors 1¼ to 3 in. thick. Ship. weight, 2 pounds 4 ounces.

84 G 3209..... $4.49

Storm and Screen Door Latches

Mortise latch plated steel. Lock size, 1¾, by 1⅜ by ½ inches thick. Has two escutcheons, size 4½ by 1½. Has 1¾-inch knob and lever handle. Screws included. Shipping weight, 12 ounces.

Storm-Proof Sliding Garage or Barn Door Set

$2.98 Complete

Cut Shows End View of Track

Easy to Install

Equal in quality, strength, and service to many storm-proof sets sold at higher prices elsewhere. Recommended for light and heavy garage, barn, inside stable, and shed doors. Made for us by the best manufacturer specializing in garage and barn door hardware. Weather-proof and birdproof. Hanger is of steel construction throughout, roller bearing, lubricated wheels 2⅛ inches in diameter, up and down adjustment provided by slotted bolt holes. Specially formed, one-piece, water-shed track. Wheels run in groove and cannot jump the track. Required space, 4½ inches above top of door. Set consists of two hangers with wheels, 16 feet of track in two 8-foot lengths, with screws, brackets, bolts, and ends. Easy to install; complete instructions included with each set. For doors up to 8 feet wide. Entire outfit black japanned finish. Shipping weight, per set, 30 pounds.

184 G 3917—Complete set **$2.98**

84 G 3899—Hangers only with bolts. Ship. wt., 3 lbs. 8 oz. Per set **1.10**

184 G 3898—Extra Rail. With brackets, screws, bolts, and ends in 8 and 10-foot lengths only. Shipping weight, 8-foot length, 12 pounds, 10-foot length, 15 pounds. State lengths wanted. Per foot ..... **17¢**

Swinging Garage Door Set

Save at least two dollars on this Garage Door Set. Can be used on either light or heavy weight doors and is suitable for garage, barn, stable and shed doors. Consists of three pairs of 10-inch reverse pad "T" hinges—we do not put this set up with light 8-inch hinges as they are not practical; a 6-inch chain bolt; a 12-inch foot bolt, both of which fasten the doors on the inside. Door pull and thumb latch with padlocking device also included. The eyes for padlocking latch are separate so doors may be locked from either side. All hardware is black japanned finish. This outfit is simple and easy to install. All necessary screws and bolts included. Shipping weight, 16 pounds.

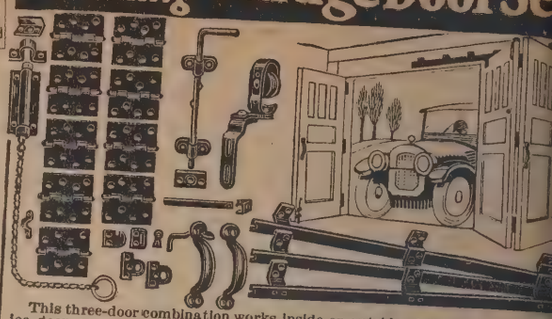
84 G 3918—Complete outfit **$2.60**

Garage Door Holder

Swing your doors out, and when they reach the proper angle, the small lug automatically drops into place and holds them rigid and steady. A light compression on the spring releases the lug and the doors swing back freely. Length, 31 inches. Sold in pairs, one for each door. Shipping weight, per pair, 5 pounds.

584 G 3897—Per pair **$1.95**

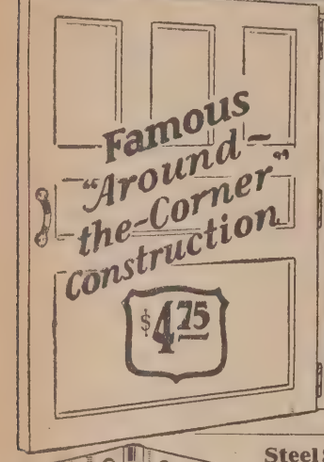
Folding and Sliding Garage Door Se



This three-door combination works inside or outside of the garage. Service door operates independent of other doors; can be fastened to either right or left hand jambs. Another combination can be made so that all three doors fold to one side. Can be operated either to the right or left. One set gives you full equipment for one car garage. Two sets for two car garage. For three doors not over 1¾ inches thick, and not over 100 pounds per door.

Consists of one roller bearing hanger, 4½ pairs of 4 by 4-inch butts; 2 door pulls; thumb latch; bottom bolt; chain bolt; three 28-inch sections carbon steel rail; 4 brackets and all screws and bolts, with complete, simple, easily read instructions for installing. Ship. wt., per set, 20 lbs.

484 G 3916—Complete outfit **$3.75**



Famous "Around-the-Corner" Construction

$4.75

Most Practical and Handy Garage Door Set Made Snow Can't Stop These Doors—They Slide INSIDE

When building a new garage or repairing an old one, you must bear in mind that your doors are the most important part of the building. You will want doors that will roll easily and allow the widest possible opening, thereby avoiding broken and marred fenders on your car. In offering you this Around-the-Corner Door Set, we give you all of these advantages. We include with each set easily read instructions for installing. This set can be used also on barn doors.

Will Fit Any Garage—Everything Included

This 3-door garage equipment operates on the inside of the building, out of the weather. Permits two doors to slide around the corner either to the right or left hand side of the building, using one as a convenient passage door. This arrangement gives you practically an opening the full width of the building. Recommended for openings up to 9 feet in width, using three doors not weighing over 100 pounds each. Low cost, ease of application and long satisfactory service make this equipment the most desirable you can buy. Space required above top of door, 5½ inches.

Set includes the following: Three swivel, reversible type hangers with vertical adjustment. The wheels of cast iron, 3½-inch diameter, have hardened steel axles with lubricated roller bearings. Oil holes in hanger housing permit further easy lubrication. Sixteen feet of track in three straight sections which bends easily to make curve; six 4 by 4-inch hinges; one hinge hasp; one thumb latch; two door pulls; one guide and one stop. Entire outfit black japanned finish. All necessary bolts and screws included. Shipping weight, 31 pounds.

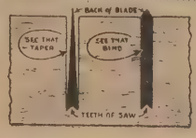
SUPERIOR QUALITY

New Lakeside Improved

TRADE MARK



Taper Ground Will Not Bind or Buckle

Regular Retail Price $3.50 to $4.50

Regular or Ship Pattern

$1.98 26-Inch

New and improved. The biggest value in hand saws that we have ever seen. Nowhere else can you buy a saw of this high quality for less than $3.50 or $4.00. You will be proud to own one, and to show it to your neighbors. Our sales on the new Lakeside improved saw are so large that the manufacturer can afford to make them at a very small profit, and this saving we pass on to you. Only the most skilled workmen are employed for smithing, filing and setting, which are all done by hand. They are easy to file and free from hard and soft spots. Uniform thickness at cutting edge. One gauge thinner at the butt on the back, and four gauges thinner on the back at the point, positively assuring clearance and preventing binding, see illustration above at left. Saws are fitted with our perfect pattern mahogany finished hardwood handles which give a perfect balance. Big improvement over the old pattern handles. All blades have mirror finish.

Regular Pattern—Straight or Skew Back

Two standard patterns, skew and straight back. State size, point and style wanted.

Lakeside Solid Center Auger Bits

Made of the Finest Quality Fast Cutting Tool Steel

Packed in Sets for Your Convenience

Set of 6 **$2.95**

Represent the highest quality manufactured. Full polished; no finer Auger Bits made at any price. Of extra quality tool steel, carefully forged to produce absolute uniformity and every precaution taken to secure strength at the points of greatest strain. The tempering is done by the most accurate, modern method. Lips, spurs and throat are filed to such form that they will retain their cutting edges for a long time and give the greatest amount of service. Patented square shanks that center accurately. Eclipse Brand are the same quality as our Lakeside except that they do not have the high polished finish.

t Pays to Buy Ward's Quality Tools

Genuine Millers Falls

Breast Drill No. 2100

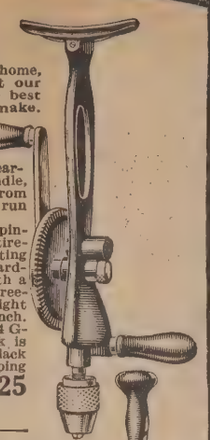
Two Speeds

An excellent value—the highest quality Breast Drill ever offered at such a low price. For all ordinary drilling this tool answers every purpose. It is simple in design and easy to handle, fast and accurate.

Two-speed, easily changed by turning one small knurled ring. Thrust bearings make this tool run easy on heavy work. Machine cut drive and spindle gears entirely protected. Gear ratios are even and 3 to 1. Has hand hold for steadying tool. Breast plate adjustable. Three-jaw chuck holds 0 to ½-inch straight shank drills. (For drills see No. 84 G 1060 at right.) Length, 17½ inches. Ship. wt., 6 lbs.

84 G 1269.... **$3.85**

Precision Breast Drill



Should be in every home, shop or garage and at our price it is one of the best investments you can make. Length, about 17½ inches. Has two speeds easily changed for fast or slow cutting. Ball bearings at the end of spindle, entirely protected from dust, makes this tool run easily.

Has cut drive and spindle gears which are entirely protected, preventing injury to hands. Hardwood handle fitted with a nickeled ferrule. Three-jawed chuck holds straight shank drills up to ½ inch. (For drills see No. 84 G-1060 at right.) Chuck is full polished. Has black japanned frame. Shipping wt., 7 lbs.

84 G 1264.. **$2.25**

$1.00 Ward's Special Hand Drill

Great for Radio Builders

Has a solid steel frame; very useful for radio, electrical and other work around the house, farm or shop. Meets a demand for a small hand drill. Has three-jaw chuck that holds straight shank drills up to ¼ inch. Chuck has protected springs. Cut gears and steel pinions. Chuck and frame nickeled; large gear painted red. Hardwood stained handle. Entire length, 11¼ inches. Shipping weight, 2 pounds.

84 G 1286.. **$1.00**

Genuine Millers Falls

Combination Breast and Hand Drill No. 980

Because of its size and chuck capacity this Drill with ball thrust bearings will serve almost every drilling purpose. Cut gears, two speeds. A half turn on the knurled barrel changes the speed without removing the drill from the work. Has a three-jaw chuck which holds straight shank drills up to ⅜ inch. Length, 15¾ inches. Shipping weight, 3 pounds 12 oz.

84 G 1297.. **$3.75**

"I Bore Holes Eight Different Sizes," says Mr. Punch

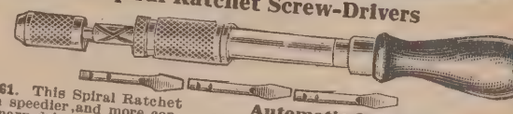
Millers Falls Spiral Ratchet Screw-Drivers

Three Bits With Each Tool



Millers Falls No. 61. This Spiral Ratchet Screw-Driver is much speedier and more convenient than the ordinary driver. Has an improved spiral action for driving or withdrawing screws; right and left hand movements; and a device for making it rigid. Tempered steel, perfect cut spiral groove, with one groove deeper than the other to prevent wear. Polished hardwood handle. Three bits of different sizes are furnished with each tool. Length, extended (with bit inserted), 19½ inches. Shipping weight, 2 pounds.

84 G 1403—Each.. **$2.48**

84 G 1404—Millers Falls No. 67. Same high quality as above except 12⅜ inches long, extended (with bit inserted). Shipping weight, 1 pound 12 ounces. Each.. **$1.89**

Automatic Quick Return

Millers Falls No. 610. The same design as our 84 G 1403 with the addition of a spring in the handle. With this spring the tool works on the principle of an automatic drill in which the handle is pushed and quickly returns for the next stroke. Length, extended (with bit inserted), 20¼ inches. Shipping weight, 2 pounds.

84 G 1405—Each.. **$2.75**

Millers Falls Drill Attachment

Converts the above screw-drivers into automatic drills for boring small holes. Complete with eight drills, sizes, 1/16 to 11/64 inch. For No. 84 G 1403 and 84 G 1405 Drills only. Shipping weight, 6 ounces.

84 G 1413—Per set.. **75¢**

BIG SAVINGS on Finest Quality Pipe Tools

65¢ Genuine Little Giant Pipe Wrench

Only Three Sturdy Parts

The genuine Greenfield Tap & Die Co.'s little Giant Pipe Wrench at our usual low mail order prices which are about half of ordinary retail prices. Only the finest steel is used—drop-forged and heat treated throughout. The jaws are carefully hardened and tempered, and the teeth are cut to the correct angle to get a secure, non-slipping grip. The jaws slip on like a pair of pliers, bite quickly and positively. The simplest, strongest pipe wrench we know of—no springs or pins to break, only three sturdy parts. Removable jaw can be reversed which gives additional service.

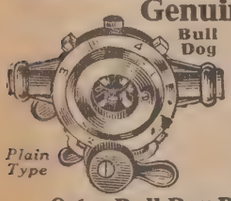
Genuine Oster Pipe Stock and Dies



No backing off the finished thread with an Oster Bull Dog. Just throw a lever, the dies open up and you can lift the tool right off the pipe. Tools can be set to cut oversize or undersize as well as standard threads, quickly and easily. Each set of dies threads two sizes of pipe. Bull Dog Die Stocks are made with a self-centering guide suitable for all sizes the tool will thread. This does away with changing pipe bushings and there are no set screws to lose or break off.

Our Low Prices Save You One-Half

Weston Pattern Differential Chain Hoist

$10.98 Half Ton Size

High-grade Hoist at exceptionally low prices—$5.00 to $12.00 less than usually asked elsewhere.

A Hoist is indispensable on the farm, in repair shop or garage. One man may raise very heavy loads quickly and safely. Use it for changing wagon and truck bodies; lifting heavy machinery, for wrecking and towing trucks, for removing motors of automobiles and tractors to be repaired. Automatically locks at any point. Made with extra heavy load sheaves, malleable iron yokes and heat treated drop-forged hooks. Enough chain to lift heights as given in table. Carefully and thoroughly tested. Made by one of the largest hoist manufacturers in the country they are fully guaranteed to be of the finest quality materials and workmanship.

Estimated Freight Charges per 100 pounds: For 150 miles, 60¢; 300 miles, 75¢; 500 miles, $1.18.

Wire Rope for Strength!

Save at Least One-Third and Get Highest Quality Tested and Guaranteed

Compare our prices on Steel Wire Rope with those quoted by most other stores, and you will find you save about one-third by ordering from Ward's. Strictly high quality, thoroughly tested, and guaranteed to be equal to any wire rope on the market.

Genuine Hemp Center

Used generally for dredging, hoisting, stump pulling, derricks, steam shovels, and around oil fields. Six strands of nineteen wires each, twisted around a genuine hemp center. Each wire is carefully tested for tensile strength, proper twist, and against stretching.

We positively guarantee this rope will stand up under the weights shown in the table at right. We do not recommend taxing rope to breaking strain limit, but for long life should be used according to the safe working load figures.

Be sure to state size and length wanted

America's Leading Forge Value

Easy Running, Noiseless Gears Strong, High Pressure Blast

Has 8-inch cast iron fan case. Machine-cut gears, run smoothly and noiselessly in a dust-proof oiltight, cast-iron gear case. Ratio 42 to 1 making a steady high pressure blast sufficient to heat a 3-inch iron bar in ten minutes. Crank turns easily, either direction.

Hearth is heavy steel and stands 30 inches above floor. We use steel hearths in these portable forges as they will not break, will last a long time and are much lighter, saving you freight. Legs are strongly braced and bolted to hearth with heavy steel leg-sockets.

184 G 6518—With sheet steel hood and 18-inch hearth. Entire height, 51 inches. Shipping weight, 55 pounds..... **$6.75**

184 G 6517—With 12-inch sheet steel shield and 18-inch hearth. Entire height, 40 inches. Shipping weight, 50 pounds..... **$6.25**

Larger, Heavier Forge

184 G 6507—With sheet steel hood and 24-inch hearth. Entire height, 54 inches. Shipping weight, 70 pounds..... **$9.95**

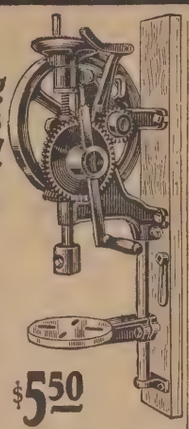
Post Drills at a Big Saving!

Self Feed Ball-Bearing Post Drills Unusual Bargain



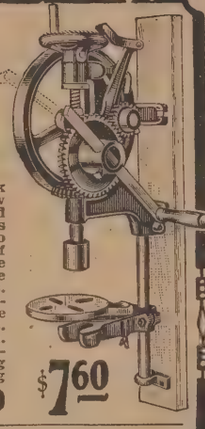
We are selling more Post Drills than ever before—due to the splendid bargains we offer. This cast iron Drill is excellent for use around farm, garage, or shop. Study its construction, and you will be convinced it is an unusual value.

Easy to Operate

So geared, that each turn of the crank produces two revolutions of the flywheel, developing great momentum. Chuck holds ½-inch, round shank drills. (See Drill Sets listed below). Will bore up to ¾-inch hole to center of a 12-inch circle. Greatest distance between table and spindle, 9 inches. Has 12 by 1¼-inch flat face flywheel which may be used with belt if desired. Spindle, ⅞ inch in diameter with up and down run of 3 inches. One-piece slotted table is adjustable both up and down and to either side. Adjustable crank. Height over all, 31½ inches. Mounted on hardwood plank. Lag screws included. Shipping weight, 60 lbs. **$5.50**

184 G 6618..... **$5.50**

Two Speed Self-Feed Ball-Bearing Post Drills



Made of cast iron. Crank fits hub in flywheel for slow speed. Holds ½-inch round shank drills. (See Drill Sets listed below). Will bore up to ⅞-inch hole to center of 12-inch circle. Adjustable lathe turned table may be raised or lowered, 9 inches. Flywheel, 12 inches in diameter with 1¼-inch flat face that may be used with belt. Two-piece, forked table arm. Height, 31½ inches. Mounted on hardwood plank. Lag screws included. Shipping weight, 65 pounds.

184 G 6617... **$7.60**

$7.60

Heavy Duty Post Drill

Ball bearing, self-feed with two speeds. Similar to the one above, but has larger capacity and is more powerful. Made of cast iron. Takes larger work and does it quickly and easily. Bores up to 1¼-inch hole to center of 15-inch circle. Distance from spindle to table, 12 inches, with up and down run of 4 inches. Lathe-turned, adjustable slotted table that may be swung to one side so fork can handle larger work, such as wagon wheels. Height, 42 inches. Flywheel, 14-inch diameter, 1½-inch flat face. Can be used with belt. Mounted on hardwood plank. Furnished with lag screws. Shipping weight, 95 pounds.

184 G 6616..... **$9.89**

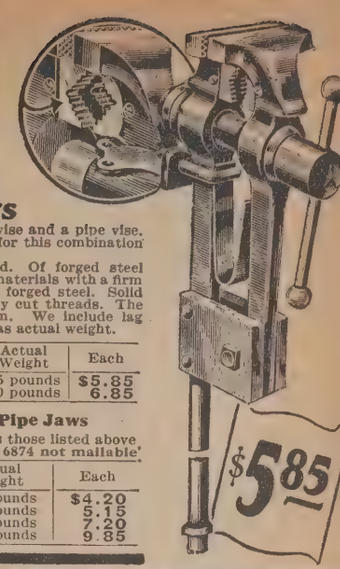
Blacksmiths' Solid Box Vises
Two-Vises-in-One
With Removable Pipe Jaws



$5.85

Does the work of two Vises—a blacksmith's regular vise and a pipe vise. You'd pay about as much for either one as we now ask for this combination vise complete.

Strongly constructed throughout; perfectly balanced. Of forged steel with specially hardened tempered steel jaws; hold all materials with a firm positive grip; will not chip or crack. Pipe jaws are of forged steel. Solid thread box and strong steel screw have deep, accurately cut threads. The long sturdy leg fastens to the floor making the vise firm. We include lag screws for fastening to a bench. Shipping weight same as actual weight.

Article Number	Width Jaws	Jaws Open	Takes Pipe Inches	Actual Weight	Each
484 G 6871	4 inches	3¾ inches	⅛ to 2	35 pounds	$5.85
484 G 6875	4½ inches	4½ inches	⅛ to 2½	50 pounds	6.85

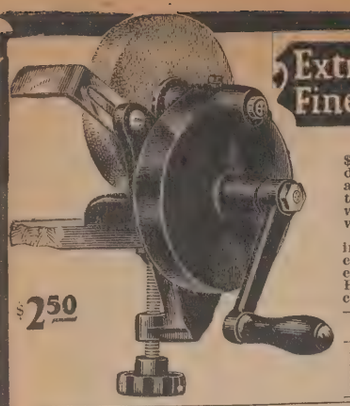
Extra Quality Tool Grinders
Finest True Running Wheels



$2.50

We could not offer you better quality. Save at least $2.50 to $5 on these high speed Tool Grinders by ordering from Ward's. The wheels are pure corundum, an abrasive specially suited for the high speed at which these grinders run. Wheels cut clean and fast, under very little pressure and without creating excess heat which so often ruins tools.

Equipped with extra long bearings that keep gears in perfect alignment. This assures quiet, smooth operation without vibration. Gears are machine cut and extra wide. Run in oil-proof and dust-proof case. Baked enamel finish. Malleable iron crank and sturdy clamp for fastening to bench, table or sink.

Article Number	Size of Wheels	Shipping Weight	Each
84 G 6670	⅞ by 4 inches	5 pounds	$2.50

Save 1/3 on Black or Red Stitched Canvas Belting

Uniform Quality ~ Strong ~ Reliable ~ Water-Resisting

FOR over forty years Ward's Stitched Canvas Belting has been a leader in quality, long life and service. Only long fiber full 32-ounce belting duck of the very best quality is used in all of our canvas belts, and manufactured under the most improved methods.

We now offer you a choice of either *Red* or *Black Canvas belts and belting.* The Red is the same popular belt we have sold for many years, carefully treated with linseed oil and coated with a preservative of red oxide paint. *Our black canvas belts and belting* are impregnated with a special compound that thoroughly saturates every fiber. They will never get hard, and are water-resisting, heat-proof and mold-proof. We highly recommend our black belts as they will last longer and give better service than any canvas belts we ever offered.

4-Ply

Free Belt Lacing Service

If requested on your order we will lace without charge at our store any belts—rubber, leather or canvas—with Clipper Belt Lacing. Simply state in your order that you want belt laced with Clipper Lace and give exact length wanted. Should you need a special size or kind of End-less Belt in canvas, rubber, solid woven or leather that we do not list, simply write us stating your requirements and purpose for which belt is to be used. We will gladly quote prices on any size or kind you may need. These special belts are made endless, with a lap, at factory—and shipped direct to you in fifteen to twenty days after your order is received. Belts specially made to order are not returnable, except for defects in material or workmanship.

Be Sure to Order Correct Size of Endless Belts

The length of any Endless belt carried in stock means the entire measurement around the outside, less about 3 feet required for the lap. Therefore endless belts when furnished will be about 3 feet shorter than the size stated in the table below.

Estimated Freight Charges Per 100 Pounds on Belting

For 100 Miles	$ .63
For 300 Miles	.99
For 500 Miles	1.48

When making special endless canvas or rubber belts, an extra charge is made for six feet of lacing, used in making the lap.

4-Ply Black or Red Stitched Canvas Endless Belts

Below are listed Endless Belts for most all requirements. The 50, 75 and 100-foot 6 and 7-inch belts, are specially suited for tractors, such as Fordsons, Case, International, etc., but can be used for many other purposes. The other sizes listed are used on threshers, tractors, ensilage cutters, corn shellers, cement mixers, saw tables, cream separators, pumps and machinery of all kinds. Be sure to state length and width of belt wanted.

Finest Quality Friction Surface Red Rubber Belting

Constructed of Heavy 32-Ounce Duck

The very best heavy duty Red Rubber Belting manufactured. Higher prices asked by others do not mean better belting. Suitable for any purpose. Of 32-ounce duck of uniform quality and great strength. The duck is thoroughly impregnated with a tough rubber "friction" which holds the plies together, yet allows them more flexibility as the belt passes over the pulleys. No "breaking-in" is necessary. The friction surface prevents slipping and loss of power. All undesirable "stretch" has been taken out. The belt can be run surprisingly loose, with a consequent saving on the bearings.

Lakeside Endless Red Rubber Farm Belts

The Best Farm Belts Made. Of full 32-ounce selected duck. Will give you better service and last longer than other belts of equal weight. Engineers have spent years in developing Lakeside belts and you will find them far superior to any other farm belts made.

A tough red rubber friction surface makes them positively slip-proof. They are thoroughly seasoned, flexible and will not stretch. Require no breaking in. Can be used under all weather conditions. The length of any endless belt means the entire measurement around it. On account of the lap these belts will be three feet shorter than stated below. Be sure to allow for this when ordering.

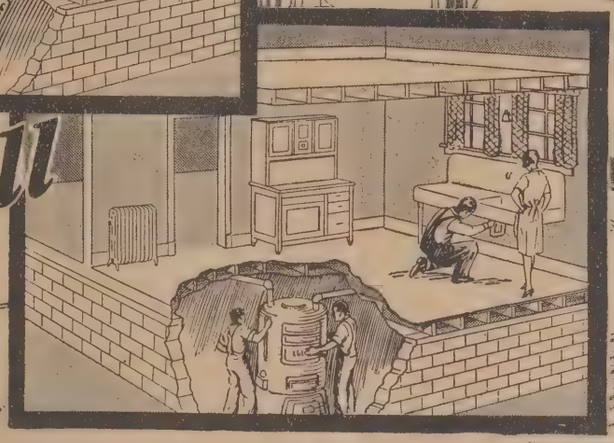
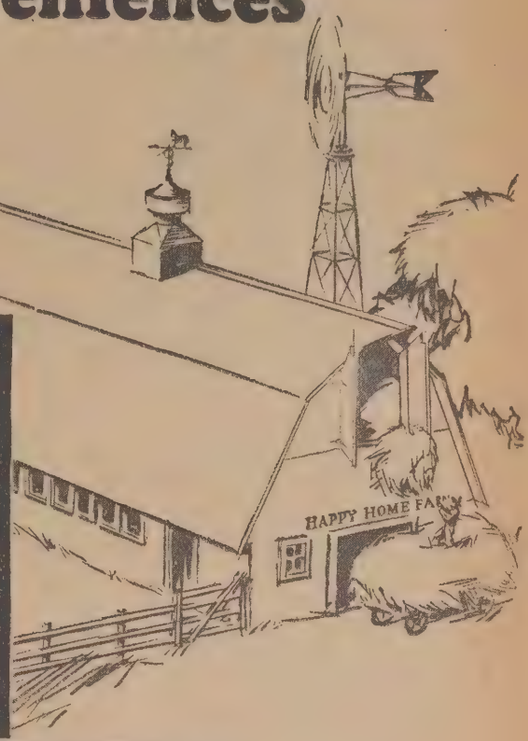
Modern Comforts and Conveniences

Our Engineers Will Show You How to Measure

How to Install





So You Can Enjoy

Running Water

OMEN whose age one can't guess—those women who stay young king and vivacious, who keep their health and joy in living! You d them everywhere—in the country and in the city. But always they the women whom modern conveniences have freed from drudgery. ese young women and these women who stay so young live in homes ere Running Water, Power and Heat make unnecessary the weari- s and fag of constant daily household tasks. Carrying cumbersome s and splashing pails; building fires with their ceaseless attention not for them.

And the men who have leisure to do interesting things, time for reation as well as work—aren't they the men who have modernized ir homes and farms so that the daily chores of hours have become rely a matter of minutes?

Mechanical and electrically operated appliances are intended for avy work indoors and outside in this age. Modern sanitary plumbing nishes the inconveniences, and means greater safety to the health of ppy, growing childhood.

Every modern convenience you install becomes a lasting investment in health, ger youth and the time to enjoy life—leisure that is rightfully yours. Once you erience the joys of a modernized home, an offer of many times the cost of these essities would not take them from you or from your family.

Now with the aid of Ward's free service your farm home, at very small cost, can be made exactly as modern, convenient and comfortable as an expensive city home. And you know the increased value of up-to-date and splendidly equipped property. We are placing our expert engineers completely at your service. They will show you how to measure and plan for any kind of installation, answer any questions—and this service will not cost you a cent.

Light

unning Water in your bath-room, kitchen, dry and for your livestock, lawn and fire ection. Just turn the faucet and it leaps —fresh and sparkling, invigorating and h-giving, either hot or cold.

ght—a flood of even, mellow light in every room by just pressing itch on the wall, if you install a Farm ric Lighting Outfit. Electric light saves eyesight—reading by dull, flickering s soon injures the eyes. And there'll be noky lamp chimneys to clean each day, nnoying renewal of wicks and filling.

Power

Power from a Farm Lighting Outfit will bring an amazing number of conveniences to your home—electric washing machines, vacuum cleaners, sewing machines, fans, irons, toasters, waffle irons, percolators, heating pads—dozens of delightful labor saving appliances. Or let a Gasoline Engine run the cream separator and pump, saw wood, shell corn, grind feed or do many other farm chores.

Heat

Heat from Furnaces—steam, hot air or hot water mean warmer, cleaner and more attractive homes. Send us the plan and size of your house and we will advise and design the easiest and best method by which you can install your own heating system.

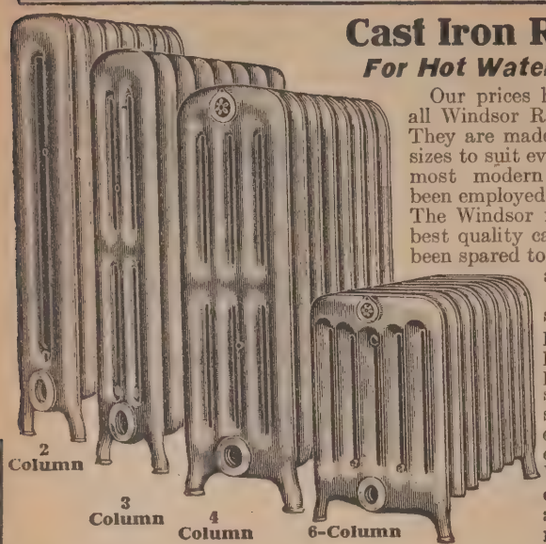
Startling Values for Home Owners

Cast Iron Radiators
For Hot Water or Steam



Our prices have been reduced on all Windsor Radiators for this fall. They are made in a wide variety of sizes to suit every requirement. The most modern heating ideas have been employed in their manufacture. The Windsor radiators are made of best quality cast iron; no detail has been spared to make them as perfect as possible.

The surfaces are smooth, and the simplicity of the design presents a pleasing appearance. Large air spaces between the sections insure a higher degree of heating efficiency. All our Windsor Radiators are completely assembled and tested before shipment.

How to Figure Radiation

To figure the heating surface of a radiator multiply the square feet given for each section by the number of sections. To find price, multiply the price per square foot by the total number of square feet in the radiator. To determine length of radiator, multiply the thickness of each section by the number of sections and add one inch. Allow several inches for radiator valve and elbow. If you are in doubt as to what size or amount of radiation you need, simply write our Engineering Department and they will gladly help you free of charge.

How to Order

Specify height, number of columns and the number of sections wanted. Also whether for steam or hot water, and size of opening for valve and return tappings. Unless otherwise ordered radiator will be furnished with standard size tappings as shown at right.

Tappings for Steam

All radiators containing 25 square feet or under are tapped for 1-inch pipe; those above 25 square feet, but not exceeding 60 square feet, are tapped for 1¼-inch pipe; radiators containing 61 square feet to 100 square feet are tapped for 1½-inch pipe; above 100 square feet are tapped special for 2-inch pipe.

Tappings for Hot Water

All radiators containing 40 square feet or less are tapped for ¾-inch pipe; from 41 to 72 square feet are tapped for 1-inch pipe; over 72 square feet are tapped for 1¼-inch pipe. Shipping weight, 7 pounds per square foot.

Two-Column Radiators

Our Free Engineering Service (see Page 679) makes it easy for you to do e work yourself; and our Easy Payment Plan allows you to enjoy this home mfort while paying for it.

General Specifications of Windsor Boilers

All Windsor Boilers have deep firepots with no corners to waste fuel or ld ashes. Firedoors are of generous size. Cleanout is easily accessible. l joints between sections are of the latest push nipple type requiring no kets. All sections are drawn together by four heavy steel tie rods and e guaranteed leak-proof. Grates are of the rocker, clinker breaking type, ck, heavy and perfectly balanced. The ashpits are extra large. Firepot s opening for coil to heat water for domestic use. Each section is proled with a handy cleanout door.

$10 DOWN! BALANCE IN ELEVEN MONTHS

Easy Terms on Boilers and Complete Plants

You don't have to wait until you have the full purchase price. A small first payment of $10 down and the balance in eleven equal monthly payments, will buy any size boiler. For those who wish to buy a complete installation consisting of boiler, radiators and all pipe and fittings, on our Easy Payment Plan, write our Engineering Department, sending a sketch of your building (see Page 679) and you will receive an estimate of the total cost. Regardless of the size you require, our price will save you money. This service is free and by asking for our prices, you are in no way obligated to buy. **For Easy Payments Use Order Blank on Page 725.**

Order Correct Size

Order a Size Large Enough

If you use soft coal we recommend a furnace one size larger, and two sizes larger if you intend to burn wood or cobs.

If your house is hard to heat or the winters are very severe, it pays to order a larger size furnace as it will not need to be fired so hard, consequently will give longer service. If in doubt as to the correct size or if any other information is needed, write us. Take advantage of our Free Engineering service. See Page 679.

The heating capacities shown in the price table on opposite page are conservative, being based on a slow burning fire using hard coal, in zero weather.

The best way to determine how large the furnace should be to heat your house is to multiply the outside width by the outside length of your house and multiply this figure by the height of ceilings. For example, a house 24 feet wide by 45 feet long, with 9-foot ceilings figures 9720 cubic feet and will require a furnace with heating capacity of 14,000 cubic feet.

Anyone Can Install a Windsor TRADE MARK

With each Windsor Furnace we send a complete set of easily understood instructions with which any handy man can easily set it up. The small pictures above show four simple steps in setting up the Windsor furnace. The first step is to decide upon the location for the furnace and cut a hole for the register directly above it. Then, build up the furnace as plainly described in the instruction book. The upper part of the furnace casing can be cut off to make the furnace fit any cellar from 6 to 8 feet from floor to ceiling. We include all necessary cement to make perfectly gastight joints as castings are set in place. Notice the largest picture above—how perfectly the Windsor furnace joints fit. The heavy galvanized sheet steel outer casing is cut to fit and provided with all necessary bolts and rings to draw it into place.

Rooms With ONE Fire Conveniently!

Ward's Sells More Furnaces han Any Other Store in the World

he Reason: Because we build all our Furnaces up to a standard—not down to a price. After ten years of stant experiment, test and improvement, the Windsor stands peers and perfected—the most modern furnace on the market today. many exclusive features, heavy substantial material, excellent rkmanship and scientific heating principles make a furnace which, firmly believe, is superior to any—regardless of price.

You Cannot Afford to Buy a Cheaper Furnace

cheaper furnace cannot be satisfactory. The light weight, old le furnace is expensive at any price—it will not give you that ndsor service—which owners praise and enjoy.

ee on the opposite page how the improved construction of the triple ings, with air space between them, acts as insulation—permits no ste of heat. This construction is far superior to the rusty tin and mbly asbestos-lined casings used in many ordinary furnaces ay. Look at the *Extra Heavy Castings—the one-piece radiator—one-piece firepot—the improved smoke consumer.* In fact, every ture guarantees you unparalleled quality. Also our many shipping nts cut down freight charges. Consider all these facts carefully and will agree that the Windsor offers the Greatest Furnace value the World today.

Your Greatest Saving Is in Less Fuel

he Windsor uses much less coal than ired by the number of stoves it will ace. It will heat more satisfactorily use it CIRCULATES warm air ind of merely RADIATING heat. y users claim that the Windsor ally uses no more coal than an nary stove. You can regulate the ghts so that you can have a hot fire, w fire, or a banked fire; or you can t on damp chilly days in early spring te fall just to take off the chill. he Windsor has openings for a hot r coil which permits you to connect it to a hot water tank and thus enjoy the comfort of hot water for baths and dish washing, without extra expense.

With a Windsor Pipeless Furnace installed in your home, there will be no more stoves to set up and take down twice a year; no coal and ashes to carry through the house; no more getting up in the cold.

Each Windsor is equipped with chains, pulleys and regulator dial so you can control the drafts from the living rooms. A clean healthy heat that automatically moistens the warm air.

Pay for Your Windsor on These Easy Terms

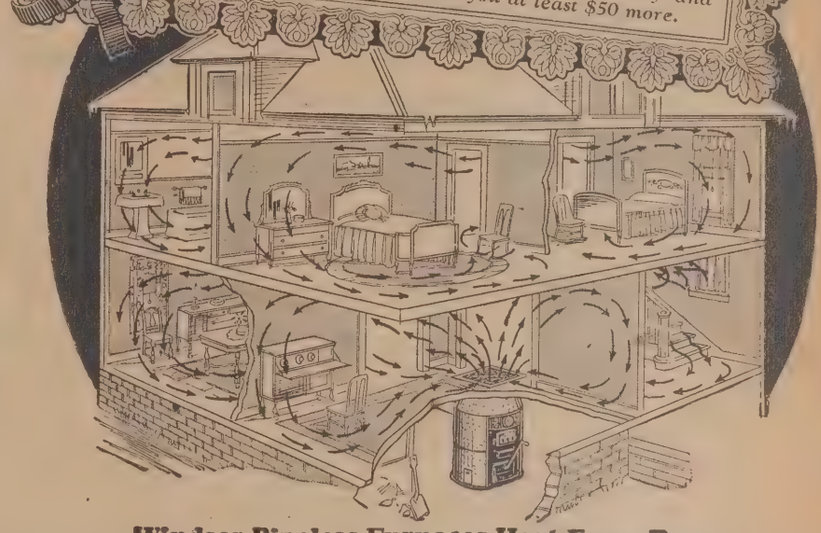
you do not wish to pay all cash, we offer an Easy Monthly Payment Plan at prices slightly higher than our cash prices. Our terms of only $7.50 down and $7.50 a th make your investment only 25¢ a day. You can enjoy the comfort of this ern heating plant while you are paying for it. No interest to pay.

For Easy Payments Use Order Blank on Page 725.

Ward's Furnace Guarantee

We unreservedly guarantee to you that every Furnace (pipe or pipeless) sold by us to be:

1. **Equal in quality** to the highest priced furnace you can buy anywhere.
2. **Highly Efficient.** Will heat properly with as little fuel as any other furnace.
3. **Built of highest quality** materials throughout; of excellent workmanship.
4. **More Economical.** Any furnace bought elsewhere, with the same improved features, high quality and careful construction will cost you at least $50 more.



Windsor Pipeless Furnaces Heat Every Room

Diagram above shows how the Air Circulating principle of the Windsor Pipeless Furnace sends over the entire house, upstairs and down, a comfortable warmth. The arrows indicate the course of the air currents. The circulation is so gentle that no draught is felt. No pipes or conductors required. Heats upstairs as well as down.

Windsor a Wonder

"Your Windsor Furnace sure is a wonder. It has rendered the best service that could be had. Any man can install it. It adds to the value of any property about $500. I can recommend your furnace to anyone."

Henry Hubertz,
3532 North 74th Ave.,
Chicago, Ill.

Printed by Permission

Read This One

"We heated the entire house and used less coal than with stoves. Furnace was installed by my neighbor and myself in about five hours. A similar furnace here would cost $230."

Burton Ackerman,
Mapleton, Minn.

Printed by Permission

Ward's Customer for 40 Years

"The Windsor Pipeless Furnace I bought from you is a fine one. I installed it myself with the aid of a carpenter who cut the floor for the register. I saved money by buying from you. Have dealt with Montgomery Ward & Co. for forty years."

Byron Doyle,
Redwood Falls, Minn.

10 Special Windsor Features

TRADE MARK

1 One Piece Fire Pot

heating surface is greatly increased by the ribs and corrugations which also add gth and life. Being corrugated inside as s outside, assures a constant circulation of o the burning fuel around the outer edge.

2 One Piece Radiator

de of high quality cast iron. Prevents e and gas leaks. Three to five inches larger meter than most furnaces of the same size. horseshoe shape and extends around and the fire dome. Extra heavy, and holds heat. eat and flame must pass entirely through adiator, before passing out into the chimhus utilizing every atom of heat.

3 Improved Grates

tra heavy, and of the triangular type. e last longer than the ordinary flat grates, se two sides of each bar are exposed to the d only one side to the fire. This prevents ng and burning out.

4 High Ash Pot

de of extra heavy cast iron, providing a oomy pit and firm foundation for the heavy r sections. A big feature with large ashpit vents burning out of grates.

5 Water Pan

rge, easily accessible: of cast iron and sets e front casting just under the fuel door. By ng this filled with water you are sure of , wholesome, moist air in every room.

6 Outer Casing

Of heavy gauge galvanized sheet steel fitted with our improved draw bands that simplify installation. The inner casings are also of heavy gauge sheet steel thoroughly galvanized and spaced one inch apart. This provides insulation between the hot air chamber and the cold air space. This construction is much superior to the old style tin, asbestos-lined casings used in ordinary furnaces.

7 Upright Shaker

Note the long handle which gives greater leverage and does away with stooping. This is a modern improvement found only on the higher grade furnaces.

8 Fire Dome

Made high and dome shaped to take advantage of the Hot Blast Smoke Consumer which causes smoke and gases to burn. Deep corrugations inside and outside provide an extra large, radiating surface. All joints positively gastight.

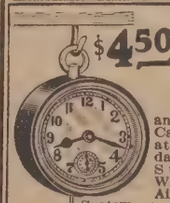
9 Furnace Doors

The Windsor has an extra large firedoor to take large chunks of coal or wood. Ashdoor is especially large to permit easy removal of ashes. Water pan and clean-out doors are at the front and easily accessible.

10 Smoke Consumer

Sprays hot oxygen-charged air directly over the burning coals. Ignites the gases that ordinarily pass off as smoke. Fuel that formerly went up the chimney is thus consumed giving you a **double** fire, greater heat, and lower fuel cost.

Furnace Accessories



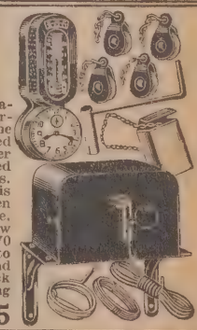
$4.50 Big Value Damper Regulator

Operates like an alarm clock. Can be easily attached to the dampers of any Steam, Hot Water or Warm Air Heating System, or to Pipeless Furnace.

Bank the fire for the night and it will open the draft at any time desired, to have the rooms comfortable in the morning. Outfit includes clock, pulleys and 25 feet of chain ready to install, with full instructions. Shipping weight, 6 pounds. **$4.50**

81 G 7890 .....

Windsor Automatic Heat Regulator



Will keep your home at an even temperature day and night. The thermostatic thermometer is mounted at any desired place. The batteries and clock work motor are mounted in the basement and connected to the damper and check draft by chains. Wiring is provided for connecting thermostat with the batteries. As the temperature rises or falls, the motor is set in motion and the dampers close or open as needed to maintain an even temperature. The clock attachment enables you to keep a low temperature during the night and have 70 degrees in the morning without getting up to open the furnace. Thermometer case and clock finished in brushed-brass. With clock attachment. Instructions included. Shipping weight, 30 pounds. Mailable. **$30.45**

481 G 7899 .....

Only $49.85 Cash Price

For 18-Inch Fire Pot Size

Also Sold on Easy Payments

$7.50 DOWN **$7.50 A MONTH**

The high prices usually asked for installing pipe furnaces h kept many from enjoying the comforts of this fine system of heat Now you can own the Windsor Pipe Furnace, guaranteed equa quality and heating capacity to any pipe furnace made. Our price, u our new plan of quantity production and nation-wide distribut makes it possible for us to save you from $85 to $170 on the comp installation.

Health and Comfort Assured

The Windsor Pipe Furnace delivers warm moist circulating directly to any part of your house. It has all the improved feat embodied in the Windsor Pipeless Furnace, the only difference is t it has a register in each room in place of a single large register in place. This gives you the advantage of regulating the temperatur each room as you may desire.

To the women and children who are confined in the house all it means health and comfort to have an even temperature in ev room, and there will be no stoves to tend; no coal, wood nor ashes be carried through the house; no stoves to set up and take down.

Has Latest New Features—Burns Little Co

Compare the Windsor, Part for Part

Radiator. Made of cast iron all in one piece. No seams or joints to open up and leak smoke or gas; is 3 to 5 inches larger in diameter than on most furnaces of same size.

Fire Dome. High, dome shaped so gases will burn before entering radiator. Deep corrugations inside and out provide larger surface to take up heat, also to radiate the heat.

Hot Blast **Smoke Consumer.** A built-in feature found only in the best furnaces. Illustrated and described on opposite page.

Firepot. Extra heavy 1-piece casting deeply corrugated to increase radiating surface and add strength and life. Corrugations provide free circulation of air to fuel around outer edge of firepot. All joints are gastight.

Grates. Extra heavy triangular type; last longer than ordinary flat grates because two sides of each bar are exposed to air, one side to fire to prevent warping.

Upright Shaker. Note the long shaker handle which gives greater leverage and does away with stooping.

Ashpit. Extra deep and large—will hold a large amount of ashes w out interfering with draft. Full w ashdoor which permits easy rem of ashes.

Draft Door. Extra large to ad plenty of air for heavy firing in tremely cold weather.

Feed Door. These furnaces h large feed doors. Easy to feed take large chunks of coal or wood.

Water Pan. Insures moist healthful air. Made large to req the least amount of filling. Place front where it is easily accessible.

Leak-Proof. All joints are posit ly gastight. Doors are ground sm and fit closely insuring positive trol of draft. The Windsor Furn will hold fire longer and use less because of this improved construc and better design.

Casing. Made of heavy gal ized steel with inner casing also of vanized steel. Between the two ings is an air space which acts a insulator and prevents heat loss the basement.

For further detailed specificati on this furnace, see Page 683.

Low Prices and Specifications of Windsor Pipe Furnace

Prices below include furnace complete with regulating dial, damper chain, pulleys, check damper, poker and shaker handle. Smoke pipe and dampers are not included. These are shown on Page 685. Position of Grates When Burning Wood

Same Grate Burns Either

Coal or Wood

One Turn of the Crank and the Grates Are Ready for Burning Wood or Coal

Position of Grates When Burning Coal

These **Windsor Furnaces** are specially built for burning wood, but will also burn coal. The need of a furnace for burning wood or coal with equal success has long been felt in the communities where there is a plentiful supply of firewood. In extremely cold weather when the home owner wishes a continuous fire overnight, this furnace will burn coal on the same grate with equal efficiency, and keep every room in the house warm and comfortable. Any handy man can install it. We have these furnaces made specially for us in huge quantities—as a result you make a big saving by ordering from Ward's.

Improved Features of the Windsor Furnaces

Radiator is extra heavy. Made of cast iron, will not warp.

Fire Dome is high so all gases will burn before entering radiator.

Firepot has heavy deep corrugations, inside and outside. This adds strength and life to the firepot. Note the oblong shape of the firepot which allows burning of large logs of wood.

Grates are of the heavy triangular type which lasts longer than the ordinary flat grate because two sides are exposed to the air and one to the fire; this prevents warping.

Ashpit is extra deep and large.

Firedoor is extremely high and wide to allow burning of good size chunks of wood.

Water Pan placed in the front where furnace is the hottest which insures moist healthful air.

Draft Door is extra large.

Casings: Outer casings are made of heavily galvanized steel sheets. Inner casing is also of galvanized steel, the inner casing provides an air space. The air space is a perfect insulator and prevents wasting heat. Compare these furnaces with those others offer and you will be convinced these are the finest wood-burning furnaces on the market.

handy Wire Brush for cleaning furnace adi- s. Increases the heating efficiency of your ace. Has 4-foot flexible handle and brush le of fine spring steel wire. Shipping weight, unds 8 ounces.

G 7892 ..... 45¢

Read This Important Information

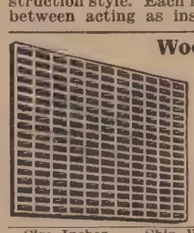
Whether you are installing a new furnace or buying fittings for your old heating plant, it will pay you to order Ward's Furnace Fittings, as they are of the highest quality and will save you about one-third.

All our fittings that are used above base of first floor are of the improved double construction style. Each fitting has an air space between acting as insulation.

This means protection against fire and a greater saving in fuel consumption. Space will not permit us to show all furnace fittings that we can furnish. If you are in need of a certain size or style of fitting, simply write us and we will give you prices on same or ship with your order.

Fittings shipped from Warehouse in Columbus, Ohio

Wood Cold Air Face



$2.45

Used in floor for cold air return pipe to furnace. Made of solid oak.

281 G 8200—State size wanted.

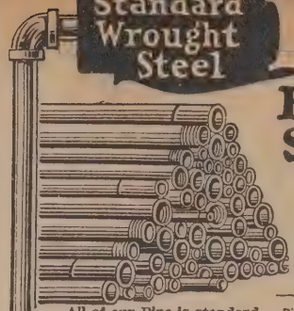
Standard Wrought Steel Pipe Black and Galvanized

For Water Steam and Gas



4½¢ A Foot
½-Inch Size

All of our Pipe is standard weight first quality wrought steel. Unless you tell us otherwise, pipe is shipped in random lengths of from 18 to 21 feet (each random length threaded on both ends and with one coupling) to make the total length of pipe you order. If you specify special lengths of pipe we will cut it, if you desire, making a small charge for cutting and threading (see table at right). Couplings are not included with specially cut lengths of pipe. Pipe over 6½ feet can be shipped by freight or express only.

How to Order Pipe and Fittings

To find the correct size of a piece of pipe place the end of the pipe on the scale below with the center of the pipe on the white line, which will show the standard size of the pipe. (Scale is not in inches.) To find the correct size of a fitting for any pipe, find the inside diameter of the fitting on the scale below. For example, if the threaded end of a pipe measures ¾ on this scale, it is known in the trade as a standard ¾-inch pipe. If the inside diameter of the fitting measures ¾ on this scale it is called a standard ¾-inch fitting. Fittings are always called by the same size, as the pipe they fit. For example, a ½-inch pipe takes a ½-inch fitting. Order the same size fitting and pipe. When finding the pipe sizes use the pipe scale below. Do not use a foot rule.

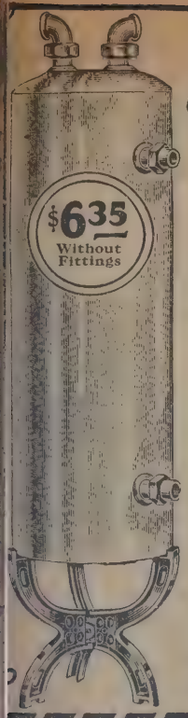
Our Low Prices Defy Competition
Guaranteed Pressure-Tested Range Boilers

Electric Welded Galvanized Range Boilers



A strong durable Boiler of heavily galvanized steel, electrically welded. Height, 60 inches without stand. Tapped according to government specifications. A 30-gallon boiler is large enough for the average household. Boilers complete with fittings include stand, cold water tube and 4 union couplings with ¾-inch standard iron pipe thread.

See "Estimated Freight Charges" below at right.

Standard Weight Range Boilers

If pressure is over 85 pounds, we recommend our extra heavy boiler.

Tested at 200 pounds pressure. For 85 pounds water pressure.

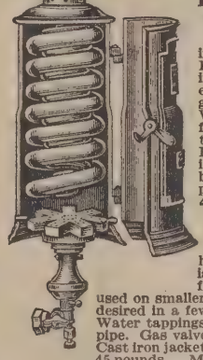
Double Copper Coil Gas Water Heater



For quick heating of water in galvanized range boilers. Heats sufficient water for bath in twenty minutes. Burns either natural or manufactured gas. Has double copper coil. Water tappings are threaded for ¾-inch iron pipe. Gas valve tapped for ½-inch iron pipe. Height, 18 inches. Diameter, 7 inches. Cast iron jacket and burner. Shipping weight, 31 pounds. Mailable. $6.10

481 G 7822.....

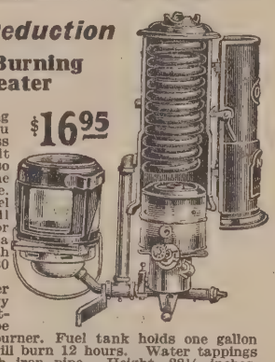
Heavy Duty Water Heater

Same as above but larger and has longer copper coils. Specially suited for range boilers, from 40 gallons up. Can also be used on smaller boilers, where warm water is desired in a few minutes. Height, 22 inches. Water tappings are threaded for ¾-inch iron pipe. Gas valve tapped for ½-inch iron pipe. Cast iron jacket and burner. Shipping weight, 45 pounds. Mailable. $7.80

481 G 7819.....

Big Price Reduction

Kerosene Burning Water Heater



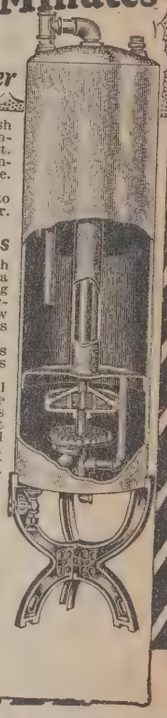
We have been trying for years to offer you this Heater for less than $20. Here it is! Now at a price so low that no home should be without one. Very economical in fuel consumption. Will heat enough water for toilet and shaving in a few minutes; for dish washing, 20 to 30 minutes.

Has heavy copper coils enclosed in heavy cast iron jacket. Fitted with latest type blue flame kerosene burner. Fuel tank holds one gallon of kerosene which will burn 12 hours. Water tappings threaded for ¾-inch iron pipe. Height, 28¼ inches. Shipping weight, 45 pounds. Not mailable. $16.95

181 G 7815.....

Hot Water in Five Minutes

Genuine Peerless Combination Tank and Heater



This efficient, improved outfit will furnish hot water quickly at any time and is a convenience no modern home should be without. Entire boiler is made of extra heavy galvanized steel and tested to 150 pounds pressure. All fittings galvanized to prevent rusting.

Tapped openings provided for connection to range or furnace, which save gas in winter. Burns natural or manufactured gas.

Saves Time, Space, Labor, Gas

Sufficient hot water for shaving or dish washing is ready in five minutes; enough for a bath in less than fifteen minutes. Inflowing cold water is thinly spread over the hot surface of the super-heating unit shown below in illustration. This heats instantly and rises to top of boiler through an inside tube.

Quickly and easily installed. Boiler comes completely assembled. Only three connections to make.

The design of this tank and burner uses all the heat from the gas to heat water. The super-heating unit directly over the gas burner gets full benefit of the flame. No heat wasted; heat passes upward through central flue pipe entirely surrounded by water. Shipped from Stock in Baltimore, Md., or Warehouse in Portsmouth, O., whichever is nearest you. See "Estimated Total Freight Charges" below.

Our Beautiful "Deerfield" Outfit

IF ALL the best makes of enamelware on the market were placed before you—if you could compare the materials, workmanship and appearance—you would not only agree that Ward's is the equal of any in quality, but that our lower prices make our outfits superior values. The heavy, long-wearing porcelain enamel is baked on a smooth gray iron casting, producing a glossy enduring finish. Every piece is strictly "A" grade—first quality, free from flaws, blemishes or chips.

Read What This Customer Has to Say

"We are indeed pleased with the Deerfield Bathroom Outfit, and found it very easy to install, as everything was complete. I did the work myself. I couldn't get an outfit like that in this town and have it installed for $250, as I have a number of friends who have paid that amount and do not have as nice a bathroom as I have."

Willis F. Bingham, Marseilles, Ill.

Printed by Permission

The Bath Tub Is 5 feet long and 30 inches wide, over 3-inch roll rim, 17½ inches deep inside, and 23 inches high from the floor to the top of rim. Solid base prevents accumulation of dust beneath. One piece cast iron white porcelain enamel inside, one coat of white paint outside. Quick opening nickel-plated brass faucet with china handles, marked "Hot" and "Cold." Supply pipes for ½-inch iron or lead pipe and 1½-inch waste connection for lead pipe.

The Lavatory Is the popular square front style with 4-inch apron. Size 18 by 24 inches, with 10-inch back. Cast iron white porcelain enameled. Nickel-plated quick-opening brass faucets with china handles marked "Hot" and "Cold." Supply pipes for ½-inch iron or lead pipe connections and 1¼-inch nickel-plated trap, with chain and plug, for lead pipe connection.

The Closet Combination Is washdown type, with white vitreous china bowl fitted with white sanitary celluloid covered seat; nickel-plated brass hinge. White vitreous china tank with white china handle. Nickel-plated brass supply pipe to floor for connection to ⅜-inch iron or lead pipe. Tank connected to bowl with 2-inch nickel-plated elbow flush pipe.

NOTE: If waste pipes on bath tub and lavatory are wanted for iron pipe connection, order 81 G 5114 for lavatory and 81 G 5116 for bath tub and add $1 extra. Bath stool is not included with complete outfit.

Complete Plumbing Outfit on Easy Payments

No longer is it necessary to delay installing modern plumbing in your home on account of the expense. You can buy your complete plumbing system—consisting of any bathroom outfit, kitchen sink, range boiler, heater, and all necessary pipe and fittings—on Ward's Easy Payment Plan of one-twelfth cash and the balance in eleven equal monthly payments. Prices for any such complete installation will gladly be furnished on request.

In addition to the complete bathroom outfit shown here, and offered on easy payments of $7.50 down and $10 a month, we shall be glad to make up a complete bathroom outfit of any other equipment we show, to conform to your wishes. Easy payment terms are offered only on complete outfits—not on single pieces of plumbing equipment.

Install It Yourself

Any handy man can easily install Ward's plumbing equipment, with the help of the instructions we furnish with all plumbing. In addition to this service, we maintain a complete Engineering Department which will be glad to work with you in planning your plumbing installation. If you are in doubt as to the best arrangement of bathroom outfit, kitchen sink, and so forth, send us a rough sketch of your floor plan, and we will lay out the whole plumbing system without cost to you.

For Easy Payments Use Order Blank on Page 725

EVERYTHING necessary for a beautiful modern bathroom is included in this Glenn Ellyn Outfit. Every piece guaranteed first quality—the finest we can buy. Heavy white porcelain enamel over cast iron. This bathroom outfit should increase the value of your home by at least $300, to say nothing of the added comfort it will give your family.

The Bath Tub Is 5 feet long, 30 inches wide, over 3-inch roll rim. Inside depth is 17½ inches; floor to top of rim 23 inches. Of cast iron with shining white porcelain enamel inside and one coat of white paint outside. Nickel-plated brass fittings include quick compression faucet with china handles marked "Hot" and "Cold," supply pipes for ½-inch iron or lead pipe connection, and 1½-inch waste and overflow for lead pipe connection.

The Lavatory Is attractive rounded front apron style, 18 by 21 inches, with 8-inch back and 4-inch apron. Cast iron with white porcelain enamel. Nickel-plated brass fittings include quick compression faucets marked "Hot" and "Cold," supply pipes for ½-inch lead or iron pipe connection, and 1¼-inch waste trap for lead pipe connection.

The Closet Combination Is the washdown type with white vitreous china bowl and high quality mahogany finish solid birch seat. Special white composition tank with beautiful celluloid finish. Nickel-plated brass supply pipe to floor for connection to ⅜-inch iron or lead pipe. Tank is connected to bowl with 2-inch nickel-plated elbow flush pipe.

The Glenn Ellyn outfit can be arranged to fit into a bathroom 6 by 6 feet. Easy-to-follow instructions for installing included with every outfit.

For Easy Payments Use Order Blank on Page 725. Shipping weight, 550 pounds.

NOTE: If waste pipes on bath tub and lavatory are wanted for iron pipe connection, order 81 G 5114 and 81 G 5116 and add $1 extra to prices below.

Our Finest Bathroom Outfit The Handsome "Lake Forest" — $129.95 Cash Price

Choose the best when you plan your bathroom. There is satisfaction in knowing that every article of equipment is of the very latest design and the finest finish. Every piece guaranteed first quality—the finest we can buy.

No matter how fine your home is—how elegant and tasteful the furnishings in the rest of your house—the Lake Forest Outfit in your bathroom will be in perfect harmony. The gleaming corner tub—the smart pedestal lavatory—the snow white china closet with its white celluloid covered seat—will make your bathroom immaculately clean and inviting. Sold for cash or on easy payments of $10 down and $15 a month.

You Save at Least One-Half by Ordering from Ward's

The Bath Tub Is one piece of heavy cast iron, finished inside and out with white porcelain enamel. Solid China supply and waste handles marked "Hot", "Cold" and "Waste." Concealed fittings include 1½-inch brass waste and overflow; ½-inch supply valves; nickel-plated discharge spout. Size of tub, 5 feet long, 30 inches wide, 3¾-inch over rim, 17 inches deep, 18 inches high from floor to top of rim. State whether for right or left corner. Illustration shows right hand corner tub.

The Lavatory Is heavy cast iron, made in two pieces, enameled with finest white porcelain. Top, 20 by 24 inches; oval bowl, 12 by 15 inches; china handled faucets marked "Hot" and "Cold," nickel-plated brass supply pipes and trap. The trap is for 1¼-inch lead pipe connection.

The Closet Is latest syphon jet style, almost noiseless; white vitreous china tank and bowl; white celluloid covered seat. Solid brass fittings, nickel-plated, with bar hinge, slip-joint elbow flush pipe, and supply pipe to floor for ⅜-inch iron or lead pipe connection.

NOTE: If lavatory waste connection is for use with iron pipe, order 81 G 5114 and add 50¢ extra. **For Easy Payments Use Order Blank on Page 725.** Shipping weight, 900 pounds. See "Estimated Total Freight Charges" at left.

$39.95 Cash Price — For The Homes Without Running Water

IN the dead of winter, with a blizzard raging outside and snow piling against the window, you'll have many occasions to be glad that you installed this convenient, low-priced Bathroom Outfit. It is designed to meet every need of the home without running water.

Every town has in its outskirts many homes which are without running water. For such homes, and for farm homes, this Bathroom Outfit is indeed a big convenience. Owners of summer cottages find in this a most satisfactory solution of their toilet and bath problems. And the outfit may be had on small monthly payments, easy and convenient—only $5 down and $5 a month.

Chemical Closet Heavy steel, gray enameled outer case with 6-gallon galvanized removable container, height 16 inches, diameter 16 inches. Polished mahogany finished seat with hinged lid. Six 12-inch lengths of 3-inch vent pipe; two 3-inch vent elbows; wall collar and chimney reducer for vent pipe, all enameled gray. Outfit includes toilet paper holder and one roll of toilet paper; also one gallon of chemical—enough to last four to six months.

Portable Steel Tub Is heavy gauge, galvanized, sprayed with white enamel inside and painted gray outside. All joints double seamed and soldered; supported by heavy cast iron legs. The 2½-inch white enameled hardwood rim around top will last as long as a steel rim and has no sharp edges. Has drain and overflow with stopper. For ¾-in. iron pipe or hose connection. Can be drained with pipe or rubber hose through wall or floor. Length of tub 5 and 5½ feet.

Tank and Heater Are two separate units. One-gallon kerosene burner has improved circular wick; well braced stand is heavy cast iron; water tank of heavy gauge galvanized steel, enameled gray. Holds about nine gallons. When tank is removed, heater can be used as stove.

Wash Stand and Basin Lightweight strong steel, white enameled. Basin, soap dish, three-quart pitcher, mirror, towel rack and shelf to hold combs and brushes. Height, 30½ inches; basin diameter, 13 inches.

For Easy Payments Use Order Blank on Page 725. Shipping weights: 220 and 230 pounds. See "Estimated Total Freight Charges" at left of page.

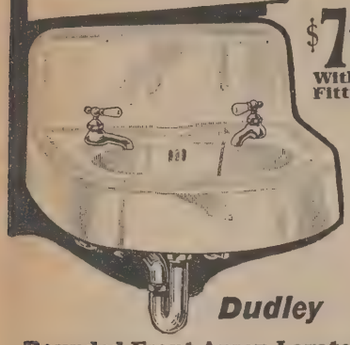
Easy to Install — 55th Anniversary Specials — Easy Payments

Easy to Install

Do it yourself! Any handy man can install Ward's Closets and Lavatories. We furnish easily understood instructions for doing this work. This will save you plumbers' bills.

You Can Have Up-to-Date Convenience For a Surprisingly Small Investment

Every piece of enamelware sold by Montgomery Ward & Co. is guaranteed first grade or "A" quality, the finest possible to manufacture. Do not confuse it with the "seconds" or "culls" offered by some at low prices. The heavy, long wearing porcelain enamel is baked on a smooth gray iron casting and produces a glossy, enduring finish. Experience has proved this to be the best possible method; and it is used by all manufacturers of high-grade enamelware.



$7.45 Without Fittings

Practical, Sanitary and Modern
Best Quality at One-Half the Usual Retail Price

WARD'S high-grade, modern, sanitary Plumbing Equipment offers you an opportunity to provide your family with conveniences and comforts that no home should be without —at much lower prices than you ever before thought possible. A small investment of about $125 will give you a complete modern bathroom outfit consisting of tub, lavatory and toilet, a fine porcelain lined kitchen sink, and all necessary fittings and piping. An outfit of this kind, if purchased locally, would cost you about $200, and the plumber would charge you about $75 for installing it. If you buy from us, we show you how to do the work yourself, so your total saving is about $150. We will sell you a complete outfit on easy payments if you desire. See Page 688.

Ward's Big Value Closet Outfit

The "Madison"
All White Closet Outfit

This Syphon Jet Closet Outfit in a beautiful white combination of sanitary white vitreous china and white celluloid is the same as is used in the very best homes. It flushes quickly and thoroughly and is almost noiseless in operation. Our price is about half what others usually ask for the same outfit.

The Tank is pure white vitreous china. With the latest flushing mechanism, fitted with white china handle. Has nickel-plated brass offset flush pipe with slip joint couplings and supply pipe to floor with flange, threaded for ⅜-inch iron pipe connection.

The Bowl is also white vitreous china of the syphon jet type which is almost noiseless in its flushing action with nickel-plated brass floor screws and washers.

The Seat is covered with white celluloid, or beautiful mahogany finished; has solid brass, nickel-plated bar hinge.

Shipping weight, 140 pounds. See "Estimated Total Freight Charges" at right.

181 G 830—With white celluloid covered seat..... $28.75
181 G 837—With mahogany finished seat..... 26.85

With White Porcelain Enameled Cast Iron Tank

Same as above except the tank. Ship. wt., 140 lbs.

181 G 838—With white celluloid covered seat..... $30.95
181 G 839—With mahogany finished seat..... 28.95

This popular Washdown Style Closet Outfit is not quite as silent in operation as the Syphon Jet, but more commonly used because of the lower cost. Just as well made and as handsome in appearance as similar outfits costing one-third more.

The Tank is of finest quality white vitreous china with the latest flushing mechanism, fitted with white china handle, nickel-plated slip joint elbow flush pipe from tank to bowl, and ¾-inch supply pipe to floor with flange, threaded for ⅜-inch iron pipe connection.

The Bowl is of the latest washdown type made of the finest quality white vitreous china, with nickel-plated brass floor screws and washers.

The Seat is covered with white celluloid, or mahogany finished; fitted with heavy brass, nickel-plated bar hinge.

Shipping weight, complete, 125 pounds. See "Estimated Total Freight Charges" at right.

Don't Be Without It
A Convenience for Every Home Without Running Water

Windsor Indoor Chemical Closet
Odorless-Sanitary-Easy to Install

FOR country homes, summer cottages, resorts, camps, churches, schools or wherever running water and sewerage are not available. Can be used in any home. Easy to install in a curtained corner of bedroom, clothes closet, or any convenient place where ventilator pipe can be connected.

$5.98 Complete With Pipes Paper Rack and Chemical

Well Made—Will Last for Years

Why endure the inconvenience and discomfort of an unsanitary outhouse? The Windsor Chemical Closet brings to your home one of the most necessary modern conveniences. Easily installed, requires neither plumbing nor running water. Every member of the household will appreciate it, especially the children and those of the family who, because of ill health or advancing years, should be spared unnecessary exposure. In time of sickness, in winter months, or on cold rainy days you will appreciate the great advantage of the Windsor Indoor Chemical Closet. Chemical is quick in action.

Heavy steel outer case is beautifully gray enameled. Height, 16 inches; diameter, 16 inches. Inner removable container, six-gallon capacity, of heavy gauge galvanized steel. Polished mahogany finished seat with hinged lid. Seven 12-inch lengths of 3-inch vent pipe; two 3-inch vent elbows; wall collar and chimney reducer for vent pipe; all enameled to match case. Toilet paper holder, one roll of toilet paper and one gallon of chemical, enough for four to six months included. Also complete directions. Shipping weight, 35 pounds.

San-O-Let
The Improved Chemical Closet
Self-Draining
No Hand Emptying
Lasts for Years
Easily Installed

$35.95
Complete

Protect your family's health. Do away with the unsanitary outhouse; install this modern chemical closet, approved by leading health authorities.

Especially designed for farm, suburban homes, summer cottages, or any place where running water is unavailable. Can be installed in any home, in almost any spare closet, or room. Requires no skilled labor to install, simply saw a hole in the floor for the tank, cut a small hole for the ventilating pipe, and then run a pipe from the bottom of the steel tank into an old barrel buried in the ground outside of the building.

Self-Emptying—an Important Feature

The San-O-Let is thoroughly sanitary and self-draining—there is no emptying by hand as in other types of chemical closets. The principle of sewage disposal is very simple and effective. Enough chemical is included with outfit to last six months, in a home where there are four to six persons. As the seat cover is lifted, it operates an agitator at the bottom of the tank which assures quick and thorough chemical treatment. Every four or five weeks open the drain valve in the bottom of the tank and the entire contents flow out through the pipe, into the buried barrel outside, where they are absorbed by the soil. Thoroughly sterilized and deodorized by the chemical solution, no foul odors or unsanitary conditions are created either inside or outside the house.

Outfit consists of 25-gallon steel tank and enameled bowl fitted with oak finished seat and cover. Furnished with one valve wrench; one galvanized steel adjustable roof safe; one galvanized steel ventilator cap; one two-foot galvanized steel skirt pipe; eight feet of 4-inch gray enameled vent piping; one 3-inch iron elbow; one roll of toilet paper and holder; complete with half gallon can of chemical fluid. Tank is 14 inches in diameter and 34 inches long from floor line. Shipping weight, 120 pounds.

181 G 6460—Complete..... $35.95

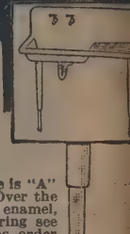
The "Roanoke" Roll Rim Sink



Many women prefer a Sink with a drainboard as it gives much more room. The Roanoke is "A" quality in every respect. One-piece cast iron with a smooth porcelain enameled surface. Over the iron base is first applied a coat of primer, then several coats of pure white porcelain enamel, baked on under intense heat, giving the finest surface it is possible to secure. Before ordering see below what is included with our sinks. If waste trap is wanted for iron pipe connections, order 81 G 5117, at 50¢ extra. Large picture shows left-hand drainboard, small picture shows drainboard at right end. Shipping weights: 280 and 290 pounds. Shipped from Chicago, Ill., Baltimore, Md., or Warehouse in Central Ohio, whichever is nearest you. See "Estimated Freight Charges" on Page 690.

The New Combination Sink and Laundry Tub With Removable Drainboard

$57.95
Without Fittings

Gives you the benefits of a gleaming white porcelain enameled sink that is easily kept clean, and also a laundry tub of the same high quality white porcelain enamel.

Can be adjusted to just the height you prefer to prevent back strain.

When the laundry tub is not in use an oak grooved drainboard covers it. Every home that has no basement will find this a real space and time saver. Both sink and laundry tub are made of one-piece heavy cast iron porcelain enameled. Has deep 6-inch apron and 12-inch back. Legs are painted. Length, 51 inches. Width, 24 inches. Depth, inside of sink, 6 inches. Depth inside of tray, 14 inches. Fittings include one 1½-inch nickel-plated combination waste trap to wall, with iron pipe connections; two sink strainers; compression mixing faucet with swinging spout. Shipping weight with fittings, 375 pounds. Shipped from Chicago, Ill., Baltimore, Md., or Warehouse in Central Ohio, whichever is nearest you. See "Estimated Freight Charges" on Page 690.

PORCELAIN Enameled for Long Life! Cast Iron Sinks of High Quality

This high-grade Porcelain Enameled Flat Rim Sink is much superior to the ordinary painted cast iron sinks often sold at about these prices. This is a first grade A-1 quality—fine for those who want a serviceable, good looking, inexpensive sink. Particularly good for use with pitcher spout pump or can be installed with built-in drainboard and back. Also excellent for use in garage or shop.

Made with flat rim. Smoothly finished casting, glistening white porcelain enameled inside, painted outside. Round sanitary corners, both top and bottom. Complete with nickel-plated strainer, bolts and trap collar for either 1¼-inch or 1½-inch lead trap. If wanted for 1¼ or 1½-inch iron pipe, order combination coupling 81 G 6687 and add 25¢ extra. Traps 481 G 6868 and 481 G 6869 shown on Page 693, may be used with these sinks.

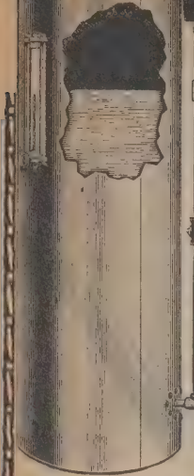
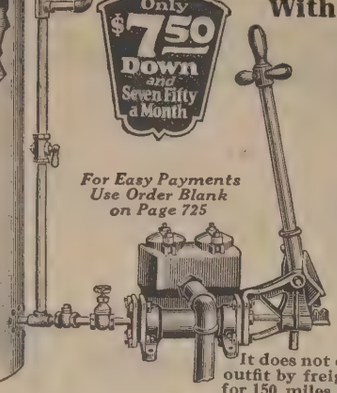
Running Water Upstairs and Down! Lakeside Pneumatic Water Supply Systems



Only $7.50 Down and Seven Fifty a Month



For Easy Payments Use Order Blank on Page 725

With Vertical Steel Tank

Provides a dependable Water Supply System for the average home. Takes up little room; a few minutes' pumping in the morning will supply necessary water for the day. Tank is strong, air-tight, and carefully tested under 125 pounds of air pressure.

The hand force pump is our own improved double acting combination—pumps air and water at the same time. Has 3-inch brass lined cylinder. Geared drive makes it easy to operate.

Outfit complete consists of tank, pump, water gauge for tank; pressure gauge, brass compression drain cock and all necessary valves and fittings to connect the pump to the tank.

Order 1½-inch pipe to connect pump with well and ¾-inch pipe to make connections between tank and plumbing fixtures.

It does not cost much to ship this complete outfit by freight. For example: 100 pounds for 150 miles, 60¢; 300 miles, 75¢; 500 miles, $1.18.

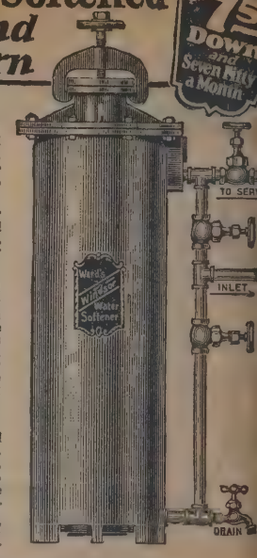
Hard Water Instantly Softened

Cheaper, Cleaner and Better Than a Cistern

Only $7.50 Down and Seven Fifty a Month



Windsor Water Softeners

AT LAST! A Water Softener with a cast iron tank that will last at least four times longer than a steel tank. We absolutely guarantee Ward's Windsor will deliver more soft water for dollars invested than any other softener on the market, regardles of price.

We say to you without reservation that we believe the Windsor Softener to be the equal of any on the market, and you would have to pay $150 and more for a similar outfit anywhere else. Only because we have contracted for a tremendous quantity to meet the anticipated demand is our low price possible.

Less Expensive and Better Than a Cistern

Every home needs soft water, but few have an adequate supply at all seasons. The old fashioned cisterns are far from being an ideal source. They are unhandy, and undependable as they are apt to be dry when water is needed most. The Windsor gives you a plentiful and reliable supply of soft water at all times. Simply connect the incoming hard water to the Windsor Softener and as this passes through the hardness is absorbed in the mineral bed, and only soft water comes through your plumbing fixtures.

Makes Washing Easier

Your laundry work will be much easier and your clothes will last longer, because no harsh washing compounds are needed. Splendid for the bath and shampoo as it eliminates the dry, irritable feeling of the skin so common with hard water; no soap scum is formed to clog the pores, or remain in the hair. Use Windsor softened water for cooking and dishwashing; also excellent for drinking.

You will certainly be delighted with the quality and service of this softener and more than surprised by the extremely low price.

No Chemicals Used

The "Doucil" mineral used in our softener is the best water softener mineral known and used in only the highest priced outfits sold. It is insoluble and enough is furnished to give a 22,500 grain capacity. Complete instructions included. The Windsor Water Softneer prevents the accumulation of lime in hot water pipes, coils and heaters, insuring onger life to your plumbing.

General Specifications

Strongly built of ⅜-inch cast iron 48 inches high, 12-inch diameter and fitted for ½-inch iron pipe. Equipped with high quality valves. Has the highest capacity white synthetic "Doucil" mineral. Large size openings on top for flushing. Guaranteed for 100 pounds working pressure. Complete instructions for installing included. Shipping weight, 350 pounds. Shipped from Rockford, Ill.

Estimated Total Freight Charges for 500 miles, $4.13; 750 miles, $5.50; 1000 miles, $6.95.

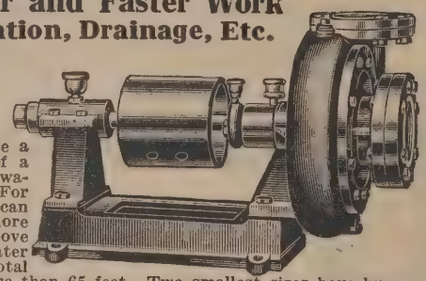
Windsor Centrifugal Pumps

Do Better and Faster Work For Irrigation, Drainage, Etc.

$12.50



For use where a moderate lift of a large volume of water is desired. For use where pump can be placed not more than 20 feet above surface of water and where total head is not more than 65 feet. Two smallest sizes have bronze bearings with grease cups. Others have ring oiler pedestal bearings. Sturdy, well built pumps for long service. Extra long packing gland with grease cup reduces friction in the stuffing box to a minimum. Pumps with 2½-inch discharge and larger have flanged discharge and suction openings, furnished with companion flanges. This enables easy access to inside of pump without disturbing pipe connections. The smaller sizes have discharge and suction tapped for pipe connection. Shipped from Michigan City, Ind. See "Estimated Freight Charges" at Left.

Year Round Bathing Comfort for Homes Without Running Water!

No Plumbing Needed

$28.85 Buys the Complete Outfit

FOR comfort, health and sanitation, this Outfit is ideal for homes with or without plumbing. Bathtub is big and roomy—designed same as all high-grade enameled tubs. Do not confuse with tubs which are short at bottom and tip easily. Tub may be purchased without heater. Extra heavy gauge galvanized steel tub, glistening white enamel paint inside and gray outside. Has 2½-inch white enameled hardwood rim which will last as long as any steel rim and has no sharp edges. Easy to drain with ordinary piping or garden hose. Overflow pipe and stopper included. Two holes in back of tub for supply pipe connections if running water is used. The heavy gauge galvanized steel water tank is gray enameled to match tub, and holds nine gallons. Nickel-plated faucet and handles on two sides. Kerosene burner produces a blue flame. Fuel tank holds one gallon. Absolutely safe—no soot, smoke or odor.

Stand is heavy cast iron enameled black; well braced. This outfit is easily moved from place to place, or can be stood in some out of the way corner or closet.

Uncontrolled Sewage is Dangerous

Windsor Septic Tanks Protect Health

HEALTH authorities universally approve the Septic Tank for use on the farm or in the small town where a city sewer is not available. Safeguard your health against typhoid, malaria and other disease germs that often find their way into your well or water supply system from the outhouse or other old methods of sewage disposal.

By installing a Windsor Septic Tank you can modernize your home. It is specially designed for sanitary, safe sewage disposal from any building with running water. It enables you to enjoy the comfort and convenience of all modern plumbing fixtures.

Illustration below gives you a good idea of installation. Easily understood instructions included.

Costs Nothing to Operate—Requires No Care

The Windsor Septic Tank is built to give long service. Made of heavy, 14-gauge copper-bearing steel, painted inside and outside with a special rust-resisting preservative. Action of bacteria in tank liquefies sewage. No chemicals or minerals necessary.

Shipped from Stock in Baltimore, Md. Estimated Freight Charges per 100 pounds: For 150 miles, 70¢; 300 miles, 89¢; 500 miles, $1.38.

Fresh Running Water *Where* You Want It! *When* You Want It!

Electric Pressure Systems - - Guaranteed Fully Automatic - -

1. Entirely eliminates hand pumping.
2. All the conveniences of city water—for the kitchen, laundry and bath. Plenty of water for live stock.
3. Sufficient pressure for fire protection and lawn sprinkling.
4. Low original Cost. Operating costs as low as 2¢ a day.
5. Have both hot and cold water by installing a range boiler. See Page 687.
6. Entirely automatic. Only attention required is monthly oiling of motor.
7. Built to last a lifetime. Reliable non-slipping belt drive—slow speed—less wear than direct drive—silent operating.

"Little Giant" Shallow Well Outfit

FOR WELLS AS DEEP AS 28 FEET

THE "LITTLE GIANT" is the most reliable shallow well water system your money can buy. It is entirely automatic and requires no attention except occasional oiling of the motor. The pump is equipped with graphite bearings requiring no oil.

This system keeps a fresh supply in the water pipes at all times—pumps hard, soft, salt and fresh water. The small tank shown in the illustration is not a storage tank. Its only function is to maintain a steady even pressure in your water pipes at all times. When the water pressure falls to twenty pounds, the system automatically starts to pump; when the pressure reaches forty pounds, the pump automatically stops.

The "Little Giant" Takes Little Space

The "Little Giant" is complete. We furnish in addition to the improved strainer and check valve, which are attached, a foot valve. The entire pumping and pressure equipment is concentrated in this one compact, intensely efficient outfit that requires only two pipe connections and the attaching of the electric wires, to start it in operation. Tapped for ¾-inch suction and ¾-inch discharge pipes. Size, 11¾ inches wide, 29 inches long and 23½ inches high. Can be placed under the kitchen sink.

Improved and Lasting Construction

The pump is of the rotary type, much more efficient than any direct connected gear pump and will last much longer. Traveling at slow speed and utilizing the reliable belt drive, there is less wear and vibration is entirely eliminated. Its improved construction has many superior mechanical advantages. There are no valves, cross heads, leather suction washers or brass gears to wear or get out of order. It lifts water from a depth of 28 feet—from six to eight feet more than any other similar pump on the market. The pump shaft is supported on graphite insert bronze bearings which are renewable and require no oil. The pump forces water to the third or fourth story of a house as well as into the barn and other buildings. You can have as many taps or hydrants as you wish wherever you want them. Capacity, 200 gallons per hour.

Features of "Little Giant" Shallow Well Outfit

1. Rotary Type — Most Efficient. It lifts water 28 feet—6 to 8 feet more than others.
2. Belt Drive — Safety Starting—no motor burn-outs—noiseless operation.
3. No Oiling — Graphite Pump Bearings require no oil. Oil motor only.
4. Long Life — Slow Speed of belt drive means less wear and tear than direct drive and no vibration whatever.

Reliable Non-Slipping Belt Drive

We have found the belt drive to have many advantages over direct motor connections. It is much quieter in operation and because its gives slightly, it protects the motor against burn-outs.

At certain seasons of the year water tanks sweat and drip water. Placing the motor above the pressure tank avoids rusting from water dripping on motor and makes all working parts easily accessible. The outfit may be placed at any distance within about 100 feet of well or cistern where the pump is not more than 28 feet above the water. This system may also be used as a booster to increase city water pressure and is well suited for pumping oil or other liquids.

Sturdy Repulsion-Induction Motor

The quarter horse-power motor used is the finest repulsion-induction type especially adapted to pumping water because of its ability to start under full load. The pump cannot stick and burn out motor—a very important feature. Motor is made for use on either 105 to 120-volt or 210 to 230-volt single phase, 60-cycle alternating (A.C.) current. Also supplied for 32-volt farm plant current. State kind of current, voltage and cycles wanted. This information may be found on your meter.

We furnish a book of simple, easy-to-understand instructions showing how to install and operate this system. Anyone can do it—no experience needed.

See Estimated Freight Charges with pump described below.

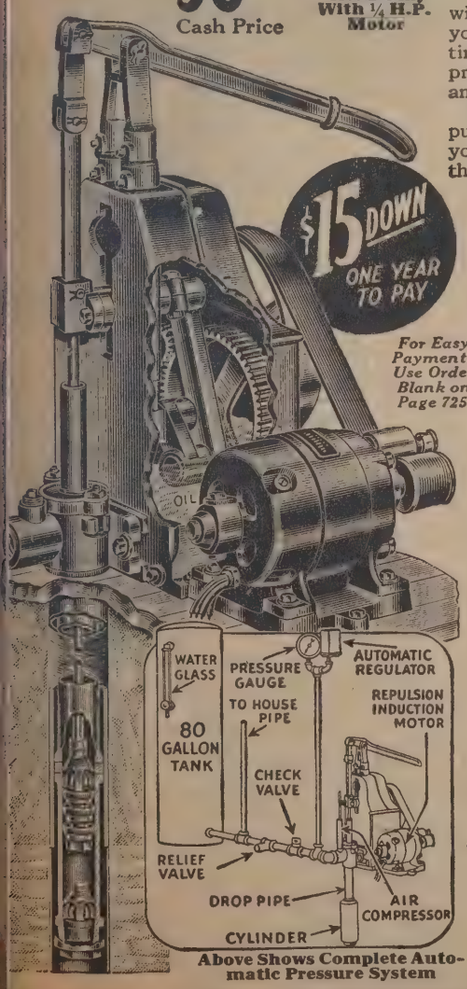
FOR WELLS 25 TO 300 FEET DEEP "Old Reliable" Deep Well Outfit

$98.00 Cash Price

Working Head Only With ¼ H.P. Motor



For Easy Payments Use Order Blank on Page 725

Above Shows Complete Automatic Pressure System

IF there is water in the well, "Old Reliable" will bring it up. The working head was designed and built for us by leading engineers. Quality materials combined with the best principles of construction give you a pump you can absolutely depend upon for many years of continuous, satisfactory service. It may be used on your present well; will pump water from depths of 300 feet and under certain conditions as deep as 600 feet.

Why draw water by hand or use an old-fashioned pump jack when "Old Reliable" will do all this work for you? Think of the time and labor it will save you, and the cost of operation is surprisingly small.

The handiest, most compact, sturdiest pump on the market. In it have been incorporated the best ideas of many of the nationally-known makes and the prices at which we are offering these pumps and complete systems give you a big saving.

We are offering four fully automatic electrically driven systems in the most generally used depths and capacities. These systems will deliver a steady flow of water under 30 pounds pressure. This means ample fresh, pure water for all household needs, for live stock, as well as lawn sprinkling and fire protection. The fire protection feature alone is well worth the cost of the outfit.

Description of Parts of Complete Automatic Electric Water Pressure System

Working Head. Very compact. Silent operating. Gears made of semi-steel operate in oil bath keeping all movable parts well lubricated. Unlike most pumps, the cross head operates on two vertical studs insuring perfect alignment. Compensated against back lash on down stroke. Bronze bushings of removable type. Equipped with compressor for maintaining pressure in storage tanks. Overall dimensions 27 by 22 by 26 inches high. Stroke 6 inches. Pulley 12 by 2½ inches, and when operated at 310 R.P.M., delivers 44 strokes per minute. Pump tapped for 1¼-inch discharge pipe. Equipped with reducing coupling so that you can use either 2 or 2½-inch drop pipe.

Electric Motor. Sizes ¼, ½ and ¾ H.P. as stated in table. Repulsion-Induction type specially adapted to pump work because of ability to start under full load. Motor is finest we can buy and of nationally known make. Interchangeable for 105-120 or 210-230-volt, 60-cycle alternating current.

Cylinder or Working Barrel. Of brass with a plunger having three removable cup leathers. Because the service you will get from a deep well pump depends to a large extent on the quality of the working barrel, we have furnished the best money can buy. Cylinder of correct size supplied as stated in table.

Plunger Can Be Removed. To replace cup leathers or for any other reason, without lifting drop pipe or removing pumping head. The importance of this will be appreciated by anyone who has had the experience of lifting the drop pipe of a deep well to get at the working barrel.

Extra Handle. Part of equipment, with handle for emergencies.

Eighty-Gallon Tank. Vertical type, black iron. Welded seams. Tested for 125 pounds pressure. Fitted with one-inch inlet and one-inch drain tap. Complete with water glass and cocks.

Automatic Regulator. Double-pole type. Positive action. Breaks both side circuit. Set so that pump starts at 20 pounds pressure and stops at 40 pounds pressure.

Fittings. Include pressure gauge; check valve; relief valve; drain valve; and all necessary small pipe fittings for complete connections between pump and tank.

Prices and Specifications of Outfits as Described Above

The following prices do not include drop pipe or pump rod which are listed below. See "Estimated Freight Charges" below.

Order a Pump Large Enough for Your Requirements

To figure capacity in gallons you require, estimate 30 gallons per day for each member of the family; 10 gallons per day for each head of stock; 100 gallons per day for each sprinkling outlet.

Estimated Freight Charges per 100 lbs. on Pumps and Pumping Materials: For 150 miles, 70¢; 300 miles, 89¢; 500 miles, $1.38.

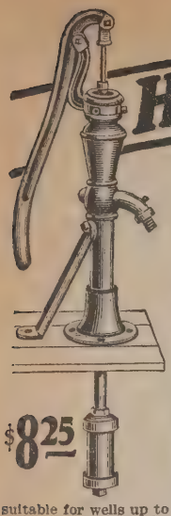
For Gasoline Engine Drive

If electricity is not available, a gasoline engine may be used to drive the working head for elevated tank or pressure systems. Not automatic. Select 163 G 5050 working head, working barrel, pipe and fittings. See Page 698 for gasoline engines—1½ horse-power is recommended.

Free Pump Engineering Service

If you are in need of special advice about our water systems, or wish to know if they can be adapted to your well, write us. State depth of well; rise of water; diameter of drop pipe and well casing; amount of water required daily; kind of system you desire (automatic pressure, open tank or elevated tank); kind of electric power available (direct or alternating); and voltage and cycles. It will help us if you will give this information in a very complete form and also if you will send us a rough sketch showing location of well and building where you want tank placed, also different levels between various parts of the system. Our Pump Engineering Service will give you accurate and complete information on your water supply problem.

Headquarters for Low Prices on Good Pumps



Extra Heavy
Anti-Freezing
Hand Force Pumps
Complete With Set Length and Cylinder

$8.25

These Pumps have an extra heavy cast iron standard with air chamber, steel piston rod, iron cylinder, with 6-inch stroke and ¾-inch hose connection for spout. Back of spout is tapped for 1¼-inch iron pipe for pumping into overhead tanks; has drip hole above cylinder to prevent freezing. Used for filling watering troughs, tanks, sprinkling tanks at distant points; also for washing automobiles and wagons. Dependable and will give long satisfactory service.

The pumps listed below are suitable for wells up to 30 feet deep. The set length and cylinder extend down four feet below base of pump.

Order extra additional pipe of correct size to extend down within 18 inches from bottom of well. Pipe is listed on Page 686. If your well is over thirty feet deep, write us for special prices on deep well outfits.

Extra heavy Pump Standard only without set length or cylinder. Suitable for wells from 30 to 100 feet. Tapped for 1¼-1½ or 2-inch pipe. Shipping weight, 60 pounds. State size tapping wanted.
181 G 5862—Pump Standard only. Each **$6.35**

Extra Heavy
Anti-Freezing
Force Pumps
With Windmill Top Complete With Set Length and Cylinder

Extra heavy Pumps, same as listed above, but fitted with windmill top and cock spout; has drip hole above cylinder to prevent freezing. Can be operated by hand, windmill, or pump jack. With 6-inch stroke. Back of spout is tapped for 1¼-iron pipe for pumping into overhead tanks at distant points.

The pumps listed below are suitable for wells up to thirty feet deep. The set length and cylinder extend down four feet below base of pump.

Order extra additional pipe of correct size to extend down within eighteen inches from bottom of well. Pipe is listed on Page 686. If your well is over thirty feet deep, write for special prices on deep well outfits.

OUR pumps have won a reputation for their mechanical perfection. It is to be remembered, however, that each is designed to meet certain requirements. Careful consideration given the selection of a pump that will fill your particular need will repay you many times.

A FORCE PUMP is necessary when water is to be forced to an elevated tank or pressure tank.

LIFT PUMPS are used to draw water to spout only.

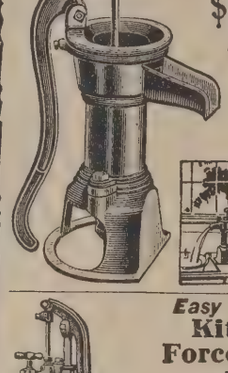
WHEN ORDERING first determine where the water level is during dry season. Then measure depth from pump platform to dry season water level. Order pipe 5 feet longer than this measurement so cylinder will extend below water line.

For Wells 25 Feet Deep or Less. Order a 4-foot set length pump. It has cylinder placed 4 feet below pump. It is necessary to order enough extra pipe to go about 3 feet below water.

For Wells More Than 25 Feet Deep. These pumps have cylinder placed at bottom of extension pipe and pump rod is extended down. When ordering outfit it is necessary to order enough extra pipe and pump rod to bring cylinder below water level.

We invite requests for any additional information you may need regarding pumps and equipment.

A Pitcher Spout Pump at Your Sink
Saves the Drudgery of Carrying the Water



$1.50 **A Big Value**

Ward's Big Value Pitcher Spout Pumps

This pump is handy for inside or outside use. Is made of the highest quality material throughout and constructed to give years of service. For cisterns and wells where suction lift is not over twenty feet. Smoothly ground cylinder has selected oak tanned plunger and valve leathers. Handle can be placed in any position desired. Nicely painted. To prevent freezing, raise handle to its extreme height. Tapped for 1¼-inch iron pipe. Shipping weight, 25 pounds. Mailable.

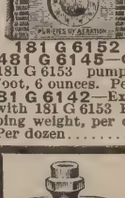
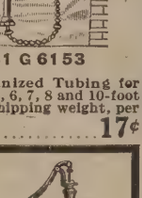
Windsor Composition Stone Filter Cleanses the Dirtiest Water



The Filler is placed in bottom of cistern, at the end of suction pipe from your pump so no water can be pumped out without first passing through filter. Eliminates impurities such as roof crawlers, worms, bird wastage, bugs, leaves and chimney soot from water. Saves straining water on washday. Protects pump from damage caused by dirty water. Can also be used in a lake, dam or stream. The water flows freely through the fine pores causing no "drag" on the pump. Width, 15 inches. Height, 12 inches. Capacity, 300 gallons per hour. Ship. wt., 100 pounds.
181 G 5930—Filter Only..... $7.95



Drop-Forged Steel One-Piece Well Points

Do not compare this One-Piece Drop-Forged Well Point with the old style well points that have drive points riveted on.

Perforated, and galvanized, covered with durable perforated brass jacket. No. 60 gauze is generally used. Very fine No. 100 gauze is used for quicksand. Nos. 60 and 100 refer to number of wire meshes per square inch. Shipping weights: 6 to 17 pounds. State size wanted.

Fresh Water With the Slightest Breeze

Ward's Dependable Windmills

Easy to Erect

$41.85 Cash Price

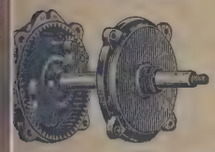
$5 DOWN TEN MONTHS TO PAY

$25.75 Cash Price

Save $25 to $45

Very powerful—runs easily—the slightest breeze will start it. Two handy men can easily erect the tower and put on the mill in a day. Working head completely assembled in one unit. It is only necessary to bolt the six arms and six fan sections in place, bolt vane in position and hook up governor spring. Only 38 bolts used in assembling. Mill regulated by spring only. Instruction book included.

Compare our prices with those asked locally for self-oiling mills. You will find we save you $10 to $20 on the price of the mill, and because you can easily erect it yourself you save an additional $15 to $25—a total saving of $25 to $45. We will promptly return your money and all transportation charges if you don't agree it is the best windmill value you have ever seen.



lled through plug hole in side heavy oil. Guaranteed to perfectly if oiled yearly. Even dy pull on both sides of kshaft. Geared 3 to 1.

"Easy" Self-Oiling Windmills

Besides the wheel, working head and vane, prices below include tower cap for wood or steel tower and truing spider for attaching to four-post tower. Tower, pump rod, and platform not included. For Easy Payments Use Order Blank on Page 725. Shipped from Columbus, Ohio.

Dependable Power-Easy Starting-ALWAYS

1½ H-P SATTLEY TRADE MARK Develops Full 2¼ H-P

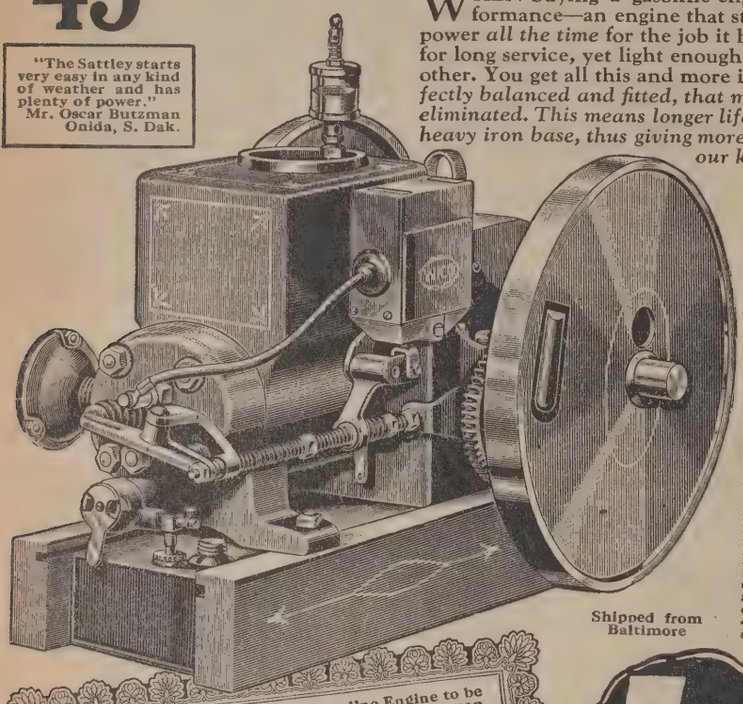
Choice of Thousands for Farm and Household Chores

$45.85 Cash Price

"The Sattley starts very easy in any kind of weather and has plenty of power." Mr. Oscar Butzman Onida, S. Dak.

10 IMPORTANT PARTS CAN BE INTERCHANGED *With* FORDS

WHEN buying a gasoline engine you should demand, first of all, dependable performance—an engine that starts easily in all kinds of weather, that gives ample power *all the time* for the job it has to do. You want an engine that is heavy enough for long service, yet light enough to be quickly and easily moved from one job to another. You get all this and more in a SATTLEY Gasoline Engine. *All parts are so perfectly balanced and fitted, that much of the vibration of engines of this type has been eliminated. This means longer life and permits us to save the weight and expense of a heavy iron base, thus giving more horse power per pound than any farm engine within our knowledge.*



Shipped from Baltimore

Use it for running your washing machine, concrete mixer, cream separator or churn; for pumping water or performing any one of a hundred small jobs. The disc fly wheels and ample oil guard protect the working parts and provide a compact, self-enclosed unit. No waste of fuel. Convenient size and weight. Most of your small jobs require less than one horse power. This little engine meets the demand for light, economical power although capable of pulling a 2¼ horse-power load.

These Parts Interchangeable With Ford Motor

Piston, piston rings, piston pin, spark plug, valve spring seats, spring seat plug pin, exhaust and intake valves, connecting rod cap bolts and connecting rod clamp screw. The regular pistons and valves for Fords require slight alterations.

Sturdily Constructed in Every Part

Flywheels are safety disc type, 15¾ inches diameter, carefully balanced; weight, 30 pounds each. Built-in crank. Drop-forged crankshaft of low carbon steel, 1¼ inches in diameter, accurately turned and ground. Long main bearings, babbitted. Connecting rods of best grade malleable iron. Cylinder of close grained gray iron. High tension magneto ignition. Simple carburetor gives proper mixture for greatest power at all speeds. Rustproof fuel tank protected in engine base, holds one gallon, enough for six hours running under full load. Cast iron pulley, 4 by 3¾ inches. Splashproof water hopper, rigidly cast in one piece with base and cylinder. Hit and miss type governor. Sight-feed cylinder oiler and grease cup lubrication. Speed, 550 revolutions per minute; can be regulated from 300 to 575 r. p. m. Bore, 3¾ inches; stroke, 4½ inches. Water circulates around cylinder and valves. Will not overheat under any conditions.

7 Big Features

1. **Easy Starting** — Starts easy in any weather. A woman or boy can start and run it easily.
2. **Dependable Power** — Always on the job—no delays. Pumps water, runs the separator, churn or washer.
3. **Safety Flywheel** — Disc flywheel carefully balanced with rim surface machined to carry 1¾-inch belt.
4. **Interchangeable Parts** — Should you need repairs, the most important parts are sold by Ford dealers.
5. **Hardwood Skids** — No awkward, heavy base to drag around from one job to another.
6. **Easy Payments** — Pay for it as you use it. Use Easy Payment Order Blank on Page 725.
7. **Fully Guaranteed** — Read our guarantee on the left—the strongest you could ask on a gasoline engine. We take all the risk ourselves.

We guarantee the SATTLEY Gasoline Engine to be as satisfactory and dependable as any engine you can buy. We guarantee it to develop consistently its full rated horse-power, and to be capable of developing surplus power in emergencies. We guarantee it to be free from defects, and will replace free of charge at any time during the life of the engine, any part which proves defective, or any crankshaft which crystallizes, bends or breaks. "Satisfaction Guaranteed or Money Back."

Direct Connected Pumping Outfit

Our standard SATTLEY 1½ horse-power Engine, described at top of page, direct geared to a substantial deep well pumping jack for use on wells up to 600 feet in depth. Heavy cut gears used for transmitting power. Jack clamps firmly to pump base and center of drive is directly in line with pump rod. No side strain. Engine can be quickly disconnected for use on other work. With a 2-inch cylinder, will pump 145 gallons per hour against a 690-foot head, or with a 6-inch cylinder, 800 gallons against a 70-foot head. Clutch drive enables operator to start and stop at will. Cost to operate, only about 3¢ per 1000 gallons. Pump not included. Shipped from Factory near Jackson, Mich. Shipping weight, 370 pounds. Estimated Total Freight Charges for 300 miles, $2.78; 500 miles, $4.37; 750 miles, $5.81.

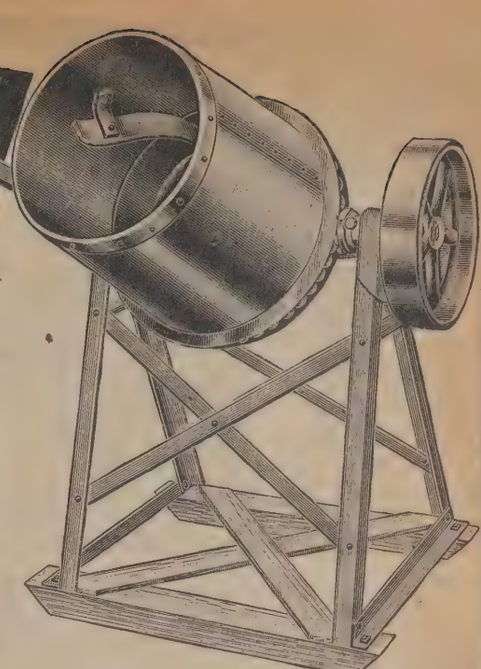
Save on Every Concrete Job!
Own Your Own Equipment
Others Ask from $15 to $20 More for This Mixer



"My Concrete Mixer paid for itself on the first job, and I would not take twice what it cost me if I could not get another"—says Mr. Elroy Smith of Kerhonkson, New York.

$5 DOWN Five Dollars a Month

Not only a necessity for modern buildings, but a real money-making investment. Do your own concrete work at less than half the usual cost—then just a few small jobs—and this handy Concrete Mixer will have paid for itself. You can then assure yourself of a steady, extra income by contracting for jobs in your vicinity.

$26.50 Cash Price

Concrete Buildings Are Permanent

A good Concrete Mixer means more than just a piece of farm equipment. With it you can make fence and anchor posts, drain tiles, foundations, floors for stables, garages and other buildings, silos, fire-proof chicken houses, granaries and many other valuable additions to your farm.

Increases Farm Values

You can do work during slack times at a cost of perhaps a few hundred dollars that will increase the value of your farm several thousand dollars. Think of the satisfaction and comfort you and your family will get out of these improvements. This mixer will provide concrete in any quantity required by a farm owner or average contractor.

Built to Serve You a Lifetime

Concrete mixers require good heavy castings in the driving gears and drum supports. Drum is of 16-gauge sheet steel (about the thickness of a 25¢ piece); 22 inches deep, 22 inches in diameter at the base and with 18-inch openings for filling. Three mixing blades agitate the batch, giving quicker mixing and preventing concrete from sticking to drum. Will thoroughly mix a wheelbarrow load (two cubic feet) every minute, or about a cubic yard every 15 minutes. Drum tilts either way. Can be loaded or unloaded while drum is in motion. Gear dumping arrangement holds drum in any position and makes dumping easy. Positive locking. When filling, the opening is only 38 inches from the ground making shoveling easy. Frame is of heavy angle iron, well braced. Drive pulley is 16 inches in diameter with a 3-inch face and should be run about 125 to 250 revolutions per minute. Any 1½ horse-power engine such as Ward's SATTLEY will run it easily. Small quantities for odd jobs can be mixed by hand by using the handle, included. Fine for mixing feed also.

AN AMAZING demonstration! We have just completed the most severe test to which Cream Separator can be subjected—a non-stop run of 4400 hours over six mon continuous running. After the test was completed, a careful inspection was m of all moving parts and it was not found necessary to replace a single one. We are w ing to back up this test by shipping you any separator you select for a thirty days t on your own farm. Send us the small down payment of only $5 and try out the SATTL The increase in your cream profits alone will usually meet the small monthly payme

The Best Cream Separator We Have Ever Sold

Self-Balancing Bowl. Weight carefully distributed. Bowl will retain perfect balance through years of daily use. Fits loosely on spindle. After momentary wobble at starting, it spins like a top without vibration. Few bowl parts make it easier to handle when cleaning and increases skimming efficiency. We use only seventeen discs in the No 35 machine, twenty-two in the No. 37 and thirty in the No. 39.

Easy Turning. Light-weight bowl, accurately balanced, carefully machined gears and automatic oiling system makes turning easy.

Supply Can. Anti-splash type, heavily tinned, formed with recess in bottom to insure draining all the milk.

Float. Controls amount of milk entering bowl and prevents splashing.

Bowl Nut. Cannot be started on threads until bowl shell is properly assembled.

Neck Bearing and Spring. Self-aligning. A st spring, easily removed.

Spindle. Special steel, very carefully mach for smooth running.

Cream Screw. Located for quick adjustment. ulates density of cream from any kind of milk.

Gear Guard. Prevents fingers or clothing catc in gears, making it safe to operate.

Discs. No small holes or seams. Smooth surf easy to clean. Sanitary.

Speedometer Weight. Positive action. Indic when proper speed of crank is reached.

Worm Wheel. Special composition of bronze long wear.

Base. Strong, sturdy and sanitary. Open at bot for easy cleaning.

Long Life. Designed and built to stand long, service. Complete with cleaning brushes, rings and full instructions.

SATTLEY Bench Cream Separator

$4 DOWN FOUR DOLLARS A MONTH

No other Cream Separator will do better work than our long life, bench type machine—made for families, restaurants and small dairies. Compare it with higher priced separators. Although smaller in size, it operates on the same principle and just as efficiently as our famous large separators. Equipment includes cleaning brushes and book of instructions.

$19.95 Cash Price 150-Pound Size

SATTLEY Quality

The same high quality materials and general design as our larger sizes. Bowl is self centering and self balancing—no vibration. Automatic lubrication. Because of the perfectly designed discs it skims efficiently at low speed which means easier turning and less wear. Seamless supply tank of non-splash design. Our prices are lower than others ask for the same quality and capacity—and you get a guarantee that insures complete satisfaction. Send the small down payment of $5 and we will send the machine you desire. If you wish to take advantage of the cash price, send full amount with your order.

Shortens Feeding Period

The result of scientific tests and the practical experience of stockmen. When fed minerals, your hogs eat less corn and other grains, have a shorter feeding period, earn the higher prices of early markets, and are far less subject to disease. Supplies hogs with mineral elements lacking in other feed. Priced lower than it would cost you to buy the chemicals and mix them yourself. Shipped from Factory near Chicago, Ill.

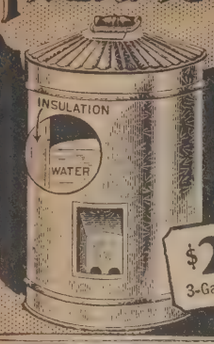
THERMO-DRINK Poultry Fountain



$2.15 3-Gallon Size

MAINTAINS FRESH CLEAR WATER AT JUST THE RIGHT TEMPERATURE THE YEAR ROUND

One of the essentials for increased egg production in winter, when prices are high, is an abundance of warm water for your poultry. Our Thermo-drink Fountains make this possible in the coldest weather. They are non-freezing in winter and keep water cool in summer. Well made of heavy galvanized steel. The span between outer and inner walls is packed with heavy insulating material which keeps water from freezing 12 hours or more. Water feeds automatically—no lamp necessary. Reinforced cone-shaped top prevents roosting. Mailable.

487 G 3808—3-gallon size. Shipping weight, about 20 pounds..... $2.15

487 G 3809—5-gallon size. Shipping weight, about 24 pounds..... 2.55

$2.98

More Eggs!

WARM WATER IN COLD WEATHER

Means More Eggs When Prices Are High

Performs two duties—drinking water is maintained at the proper temperature and lamp takes the chill from the atmosphere of your poultry house.

Galvanized steel. Drinking trough extends around fountain permitting more hens to drink at a time than on most other heated fountains. Lamp equipped with "Sun Burst" chimneyless burner. Door in bottom for removing lamp. With lamp removed it makes an ideal fountain for summer use. Capacity, 5 gallons. Size, 16½ inches high, 13 inches in diameter. Ship. wt., 16 lbs. Mailable.

487 G 3751... $2.98

Sanitary Thermo-Drink

Two handy drinking cups at sides. Removable bottom. Easy to clean and fill. Will keep water warm for twelve hours or more. Of galvanized steel with heavily insulated walls. Water feeds automatically. Mailable.

Big Money in Little Chicks Buy A DEPENDABLE Incubator NOW!

The **DEPENDABLE**

Now is the time to purchase your Incubator, as big profits come from the early hatches. Broilers during the winter bring fancy prices. The DEPENDABLE is made entirely of Western redwood or red cedar; legs hardwood; finished with a rich mahogany color. Outer layer of top and walls are 1-inch thick; inner layer ½-inch with best quality of insulation between.

The 150 and 250-egg machines have doors only at the front; the 400-600-800 and 1200 egg machines have doors on both sides. Larger capacity egg trays than found in most low-priced incubators. Large kerosene lamp placed in fire-proof shielded bracket. The superior heating system is of heavy copper, the central heating tube provides more perfect regulation, keeping a uniform temperature throughout incubator. High-grade thermometer, egg tester and complete instruction book for operation included. For more complete description of the DEPENDABLE refer to our No. 106 spring and summer catalogue.

Poultry Supplies

Genuine Glass Cloth 30¢ A Yard

Glass cloth is a strong fabric made translucent, weatherproof and water-proof by a patented process which should not be confused with coated cloth materials not made in this way. It passes a very high per cent of the healthful ultra-violet rays of the sun. Glass cloth is suitable for scratch sheds, hotbeds and temporary greenhouse work—should be kept on hand at all times for such work. We recommend the use of Cel-O-Glass for permanent uses—and long durable service. Width, about 35½ inches. Sold only in 5, 10 and 15-yard rolls.

587 G 3975— 5-yard rolls. Shipping weight, 3 pounds..... **$1.75**

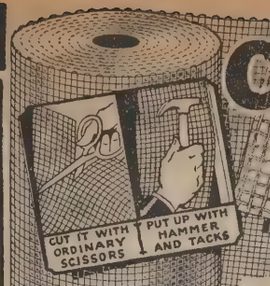
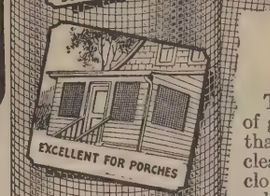
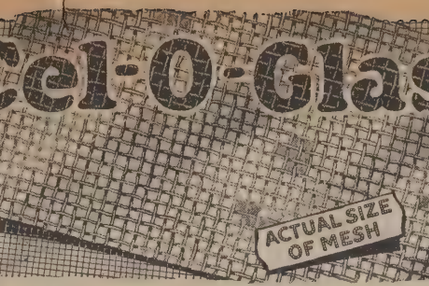
87 G 3872—Extra Fillers for 12 dozen eggs. Ship. wt., 2 pounds..... **13¢**

Cel-O-Glass







Replaces Glass for Many Uses

The most practical glass substitute on the market. It has all the advantages of glass and none of the disadvantages. We believe that it will give longer service than any other substitute and is therefore the least expensive. Cel-O-Glass is a clear, tough and flexible chemical deposited on the finest quality bright wire screen cloth. It is proof against hail, rain, wind and rust; is a non-conductor of heat and cold, light in weight, and easy to apply.

Light, Flexible, Transparent, Unbreakable, Inexpensive

Use it anywhere you use glass for light, protection and as a means for bringing the ultra-violet rays of the sun indoors. It is especially useful for storm doors, poultry house windows or for sleeping porch, garage, basement or barn windows. It is excellent for the construction of play houses for children or for summer camps and bungalows. It is very efficient for partitions and windows in offices and factories.

The ultra-violet ray is essential to all life—thus Cel-O-Glass is especially beneficial to poultry, producing healthier chicks and increasing the egg production.

Cel-O-Glass serves excellently for scratch sheds, hotbed sashes and cold frames, as it is only about one-fifth the weight of glass and will give long service provided ordinary care is taken and the frames stored away under shelter when not in use. The ultra-violet ray is very beneficial to plant life, producing strong vigorous plants—plants cannot burn under it as they do under glass. Cel-O-Glass is often used in making electric signs, being painted with transparent oil paint.

Not Recommended for Permanent Roofing

Neither is it recommended for roofs of greenhouses. Cel-O-Glass is more economical than glass, as it costs less and requires no replacement on account of breakage. You can cut it out with an ordinary pair of scissors, and being flexible is easy to handle. Furnished 36 inches wide. Shipping weight, per running foot, 4 ounces.

587 G 3980—Running foot..... $ .45
587 G 3983— 25-foot roll..... 11.25

Two Amazing Fencing Guarantees

10 Years on Extra Heavy AJAX TRADE MARK – 5 Years on Heavy AJAX TRADE MARK

GUARANTEED fencing means longer life, money saved in the end, a good investment. AJAX Fencing of 14-gauge wire or heavier is guaranteed to give ten years satisfactory service; AJAX of lighter than 14-gauge wire is guaranteed to give five years satisfactory service. But the service you get from AJAX does not stop with the number of years we guarantee it. We could show you hundreds upon hundreds of farms where AJAX Fencing has continued to give good service long after the guaranteed time.

Other concerns sell fencing of many kinds—good, bad and indifferent. Some of it is guaranteed. But in buying from Ward's you are dealing with a house that has been selling good, dependable merchandise for 55 years—a house whose guarantee is your protection.

AJAX Hinge Joint Poultry Fencing 31¢ A Rod

NO. 15½ GAUGE ● ● NO. 17 GAUGE

The steadily increasing demand is positive proof that poultry raisers are finding bigger, better values in Poultry Fencing here. Our prices are actually lower than usually asked for ordinary square mesh poultry netting which is only half as heavy. Compare quality, weight, gauge, spacing, height—you will be convinced that this is one of the greatest bargains you have ever seen. All wires guaranteed full weight, full gauge, and heavily galvanized. Top and bottom wires No. 15½ full gauge; all others No. 17 full gauge. Line wires spaced 1 inch apart at bottom, gradually widening to 4 inches at top. The close spaces at the bottom are close enough to prevent even the smallest chicks from going through. Upright stay wires are spaced 6 inches apart—close enough for all poultry fence purposes. Stretches tight and stays tight—will not bulge or buckle. May be used over rough, uneven ground. Sold only in full bales of 10 and 20 rods. We do not cut bales. Shipped from Factory in Baltimore, Md., or Southeastern Tennessee. State point from which you want shipment made, and allow that price. See "Estimated Freight Charges" at right.

No Matter Where You Live

Ward's Quality Fencing Shipped Direct from Warehouse NEAR YOUR HOME

You Save Freight—You Save Time—You Save Money!

When we ship AJAX Fencing to our eighteen Warehouses, we have the advantage of the low carload freight rate. You get the benefit of this saving. All you have to pay is the short-haul rate from the warehouse nearest you. This means that the total cost of your AJAX Fencing will be but slightly more per rod than the rock-bottom prices quoted in this catalogue. Send your order to Baltimore. When your AJAX Fencing arrives, compare the total cost with prices you would have paid anywhere else, and see what you save. Remember, your complete satisfaction is guaranteed on every order.

AJAX Barbed Bottom Hinge Joint Hog Fencing

Heavily Galvanized Full Gauge and Full Weight Wire

NO. 11 GAUGE ● Actual Size ● NO. 14 GAUGE

This new type Fence was first offered in our last catalogue—it met with instant approval. Sales were beyond our expectations. The barbed bottom wire discourages hogs from trying to lift or root under the fence. Made in two grades, standard and special. Standard Grade: Top wire is No. 10 full gauge; bottom has two strands of No. 14 gauge wire with barbs 3 inches apart. All others are No. 13 full gauge. Special Grade: Top wire is No. 11 full gauge; bottom wire has two strands of No. 14 full gauge wire with barbs 3 inches apart. All others are No. 14 full gauge. All stay wires spaced 6 inches apart. Line wires are 3 inches apart at bottom and widen to six inches at top. Sold only in full bales of 20 and 30 rods. We do not cut bales. Shipped from Factory in Baltimore, Md. See "Estimated Freight Charges" above.

17¢ A Rod AJAX Ring Knot Stock Fencing

Strong, stiff stay wires of one continuous strand extend from top to bottom and are spaced 6 or 12 inches apart, making the best fence of this type manufactured. The continuous stay wires are tied to the line wires at each intersection with the famous Ajax ring knot. Ajax Ring Knot Fencing is also fabricated with a special wave, or tension curve, to allow expansion or contraction, due to heat or cold.

This fence will save you money, as it requires fewer fence posts. Always stands firm and erect—does not sag or bulge.

We manufacture and sell this fencing in two weights or grades, medium and heavy.

All fencing listed below is shipped from Factory in Baltimore, Md. Sold only in full bales of 20, 30 and 40 rods.

Medium Weight Stock Fencing

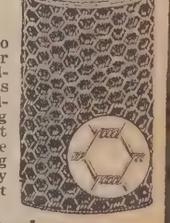
Diamond Mesh Poultry Netting



Our Ajax Netting is furnished in two styles: heavily galvanized before or after weaving. We recommend the netting galvanized after weaving, because the twists are firmly soldered together by the galvanizing. The galvanized before weaving style is serviceable grade, and will meet your requirements where an inexpensive netting is desired. Ajax Poultry Netting is woven straight and smooth, every mesh uniform in size. State height wanted.

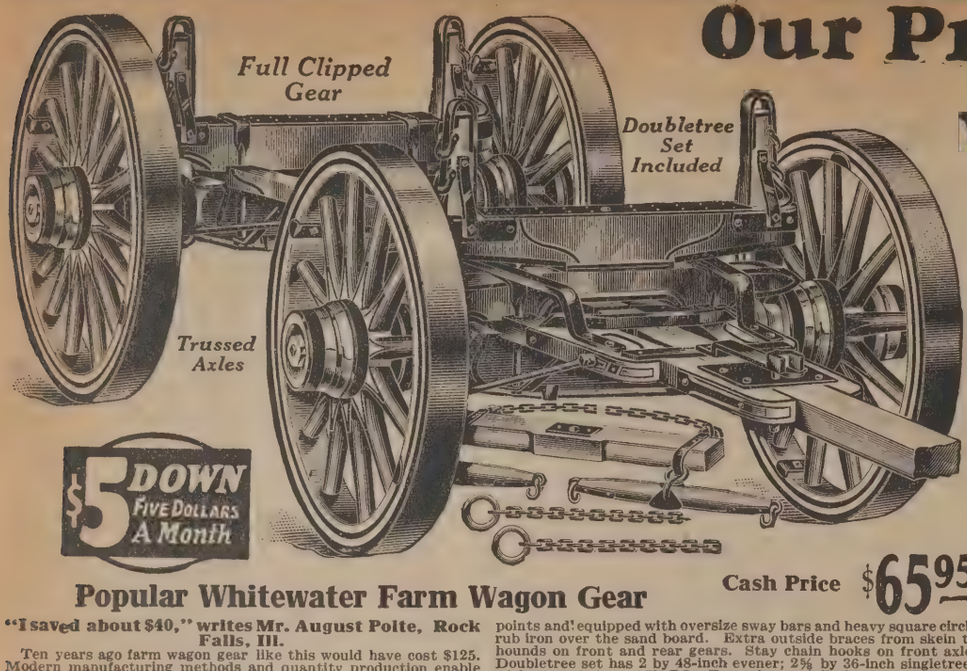
Wood Wheel Trucks



Popular Whitewater Farm Wagon Gear

Cash Price $65.95

"I saved about $40," writes Mr. August Polte, Rock Falls, Ill.

Ten years ago farm wagon gear like this would have cost $125. Modern manufacturing methods and quantity production enable us to offer this first quality gear at almost half that price, a money saving value not possible since the war. Built according to standard wagon gear specifications except that the wheels have wide tires for use on hard roads. Designed to meet all the requirements of general farm and road use. By using one of the wagon boxes shown below you can make a farm wagon of the finest type that will outlast several farm trucks. Read the specifications carefully, keeping in mind the many special features not to be found in the ordinary farm truck. Only best quality thoroughly seasoned hardwood is used in these gears. If you could see the 5 by 6-inch billets of selected hewed hickory from which the axles are made, the straight, oak timbers of the tongues and other parts, you would agree that this gear at our price is certainly an outstanding bargain. Sold on easy payments if you prefer.

GEAR: Full clipped, ironed at every point of wear or strain. Heavy round angle steel front hound reinforced with heavy oak points and equipped with oversize sway bars and heavy square circle rub iron over the sand board. Extra outside braces from skein to hounds on front and rear gears. Stay chain hooks on front axle. Doubletree set has 2 by 48-inch evener; 2⅝ by 36-inch singletrees with stay chains. AXLES: Extra heavy full size butt-cut, shell bark hickory, strong and heavily trussed which insures long life and satisfactory service. SKEINS: Extra long bell 3¼ by 10-inch set to axles with red lead by hydraulic pressure. BOLSTERS: Hardwood covered with heavy steel plates, steel bands on ends. Two ringed bolster stakes fully ironed. WHEELS: 36 and 42 inches or 40 and 44-inches as desired with 3 by ½-inch tires. Hubs seasoned tough white oak absolutely round. SPOKES: Selected white oak or hickory. RIMS: Bone dry oak stock bolted on both sides of each spoke. Tires shrunk on hot, forcing spokes, hubs and rims into a strong solid unit. Handsomely painted; trimmed with black striping and varnished. TONGUE: Full size oak tongue stiff or coach pattern with tongue chains. Capacity, 5000 pounds. Shipping weight, about 725 pounds. Shipped from Factory near Evansville, Ind. See "Estimated Total Freight Charges" at right. For Easy Payments Use Order Blank on Page 725.

Whitewater TRADE MARK Steel Wheel Trucks

$35.95 Cash Price — Steel Wheel Trucks

Clipped Gears Trussed Axles

$5 DOWN FIVE DOLLARS A MONTH

This is the same Whitewater Steel Wheel Truck we have sold for many years, which is giving dependable, satisfactory service to thousands of our customers We have tried each season to make it better and now offer a combination of wheel sizes to suit every requirement at extremely low prices No other farm truck compares in size and quality of wood parts and in the amount of ironing at the prices, we quote We do not want our customers to compare this truck with the many light weight trucks offered which are made with lighter axles, bolsters, lighter and smaller dimension material throughout when making their selection All parts are full size truck dimensions and can only be compared with similar standard farm trucks on the market. The low price offers a saving of $10 to $15. Sold on easy terms of payment, if you prefer.

Gears: Plain front gear without sand board. One front reach brace. Heavy select quality hickory axles. All other parts seasoned oak. Cross bar tongue. Rear gear with wood hounds. Bolsters filled with club stakes. Skeins, 3¼ by 10 inches; cast standard pattern. Wheels: Full forged steel in several sizes to suit every requirement. Tire 4 inches wide by ⅜ inch thick. Grooved to protect ends of spokes. Track: Narrow, auto, 4 feet, 8 inches wide with 38-inch bolsters, or 5-foot width with 42-inch bolsters. Painting, gears red, wheels black. Capacity, 4000 pounds. Shipped from Factory near Evansville, Ind. Shipping weight, about 500 pounds. See "Estimated Freight Charges" below. For Easy Payments Use Order Blank on Page 725.

A Lifetime of Service in This Sturdy Steel Wheel Truck

A new superior Whitewater Steel Truck, built to the specifications of a wagon gear. Combines the strength and sturdy lasting qualities of a good wagon gear with the easy loading, easy running, wide wheel features of the steel wheel truck. It represents the supreme effort of the largest wagon and truck manufacturers to produce a truck better than anything ever offered. Sturdy, solidly built—reinforced at all points of stress or strain. A truck that will give dependable service year after year and for many years.

Our low price is one of the most interesting features about this new truck. Seeing it on your farm, you would declare it to be worth $65 to $75—and be glad to pay that much for it. There is no other truck just like it; it will more than pay for itself in the satisfaction and service it will give you. Order this truck and compare it with any in your neighborhood regardless of price. If it isn't the best value for the money—a real bargain—if the purchase does not save you $20 to $25—send it back. We will refund your money, including all transportation charges.

Regular Wagon Gear Specifications

Gear: Stout hardwood fully ironed at every point of wear or strain. Both front and rear gears fully clipped—not bolted. Front hound, round angle steel with hardwood sway bar. Both front and rear hounds fully braced and ironed. Bolsters ironed with top plate and on ends. Selected hickory full size axles heavily trussed, made from split hickory, insuring straight grain. Skeins are 3¼ by 10 inches standard long bell dust-proof pattern, sealed to axles with red lead—forced on by hydraulic pressure.

Oak drop tongue 3 by 3½ inches by 11 feet 6 inches long. Oak reach 9 feet long. Hardwood bolsters full size with heavy steel bolster plates; two ringed bolster stakes, all fully ironed, 38 inches wide on narrow track trucks, and 42 inches wide on wide trucks. Narrow 38-inch bolsters furnished on wide track trucks when specified on your order.

Wheels: Dur-a-bilt full forged steel wheels with 4 by ⅜-inch tires in several sizes to suit every requirement. Spokes forged hot into hubs and spinner riveted in rims so they cannot pull out or come loose and rattle. Tires are grooved to protect heads of spokes from wear. Grease retaining grooves in hubs.

Painting: Gear painted red, handsomely trimmed with black striping and varnished Wheels, black Capacity, 5000 pounds Shipping weight, about 600 pounds See "Estimated Freight Charges" at left.

Square Deal Auto Seat Buggies

$79.95

Built of the best materials throughout. Gear: One-inch axles, arched. Hickory reach, ironed full length. Body: Auto streamline metal hardwood sills and frame, 26 by 56 inches. Auto Seat: 34¾ inches wide. Top: Four bow auto—skeleton style. Wheels: Sarven patent, select hickory, screw rims ⅞-inch wide with 1-inch steel tires. Tires are bolted between spokes. Height: front, 39 inches; rear, 43 inches. Upholstering of good quality black artificial leather. Full spring back cushion. Padded seat ends. Shafts of select hickory. Triple braced, with leather straps and points. Bradley couplings. Patent leather dashboard. Painted black auto finish. Gear is brewster green neatly striped. Sundries: Side curtains, rubber floor mat and whip socket included. Shipping weight, 540 pounds. Shipped from Factory near Evansville, Ind. Estimated Freight Charges for 500 miles, $9.35; 750 miles, $12.30; 1000 miles, $15.71.

287 G 7030—Narrow track, 4 feet 8 inches.... $79.95
287 G 7033—Wide track, 5 feet, 2 inches.... 81.95

For rubber tires, add $10. For pole complete instead of shafts, add $4.25. Allow six to ten days for finishing and packing.

We can furnish surreys, Concord buggies, spring wagons, runabouts, road and Phaeton carts. Write for prices.

Sarven Pattern Buggy and Light Wagon Wheels

Extra High-Grade Set of 4 $14.45

Of tough, close grained hickory. Extended malleable iron flange; round edge tires bolted between spokes. Sarven pattern wheels are furnished in the white only; oil finished—not painted or varnished. Wheels are without boxes, and we do not set axle boxes in hubs. We can furnish any standard sizes from 34 to 48 inches high. Be sure to state height of wheel desired. Rear wheels usually 4 inches higher than front wheels. Two wheels may be purchased at half the price of four. Extra high-grade wheels are select hickory and are equal to wheels furnished with new buggies. Rims are screwed on each side of spoke. Extra standard grade wheels are sound hickory stock; some spokes or rims may be dark in color, but are entirely suitable for repair work. Not mailable. Shipped from Factory near Evansville, Ind. Estimated Total Freight Charges for 300 miles, $1.28; 500 miles, $1.74; 750 miles, $2.61.

NOTE: We can furnish heavier sizes, suitable for spring delivery wagons and drays. Write for prices.

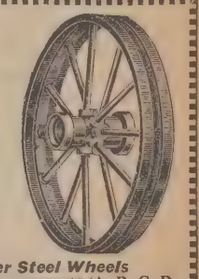
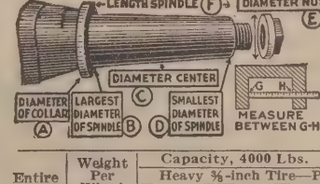
DUR-A-BILT Full Forged Steel Wheels



For sheer strength, ease in pulling heavy loads over rough roads, uneven ground and long wear choose Dur-a-bilt Steel Wheels. They do not cut up fields and outlast wood wheels. Spokes cannot come loose and rattle in hub, nor wear off at tire; tires and spokes are extra heavy and of finest all steel construction. Grooved tires are stronger and more suitable for use on plowed ground. Grease retaining grooves in hubs. Our prices are much lower than usually asked elsewhere.



How to Order Steel Wheels

Send us exact measurements (A, B, C, D, E and F) to one-sixteenth of an inch, of your old skeins as indicated at left. Measure crosswise—not from top to bottom, as old skeins are often worn on under side. Measure all four skeins separately—not old wheels. Give exact sizes as we make allowance for play. If you have no calipers, cut pieces of cardboard to fit over part to be measured, and measure across slots. Allow five to fifteen days for shipment.

Ball-Bearing Scales

$101.65 Cash Price

Shipped from Factory near Kansas City, Mo.

This type is desirable wherever it is possible to use it. It sets above the surface and is the most economical type of scale. Built on the five-lever principle—two pipe levers, one on each end of the scale; and two arm levers connecting the pipe levers. Arm levers carry weight to cross lever which transfers it to beam. All other levers are stationary so that jarring of loads does not affect them. Hardened steel ball bearings take the hard wear off the knife edges. Frame is of steel channels with heavy I-beam joists. Standard compound beam; iron and brass highly polished; main bar weighs by 200 pounds; lower bar by 2½ pounds to 200 pounds. Hardwood beam box well constructed, nicely painted and fitted with lock and key Platform planks not included. For Easy Payments Use Order Blank on Page 725.

Estimated Freight Charges per 100 pounds: For 500 miles, $1.18; 750 miles, $1.57; 1000 miles, $1.99.

Shipped from Factory near Kansas City, Mo.

Standard Full Capacity Beam

This type is preferable where it is necessary to have platform level with surrounding ground, or if it is impossible to build approaches. We furnish everything needed except platform and timbers. Entire weight is carried on foundations in bottom of pit. Wall and frame do not have to be as heavy as on scales that hang from frame. Frame and floor the same for all sizes. Joists and bearing plank will vary according to capacity. Building plans included.

This scale has five levers and will carry more than rated capacity. Requires pit 28 inches to 49 inches deep.

Estimated Freight Charges per 100 pounds: For 500 miles, $1.18; 750 miles, $1.57; 1000 miles, $1.99. For Easy Payments Use Order Blank on Page 725.

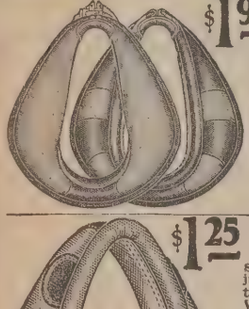
How to Order Horse Collars of Correct Size

If you have an old horse collar that fits, give the inside length in inches from top (A) to bottom (B)—see illustration at right. If you have no collar of right size, measure horse's neck, using stick or lath as shown in picture at left. The measurement in inches from E to F will be size collar required. Follow either of these methods and we can supply you collars which will fit your horses correctly. The draft is the circumference at D and C. Choose the style collar having draft desired. General Ordering Instructions on Page 342.



Very Popular for Teaming — $1.95

A good Collar for general farm work and teaming. Face and back of extra heavy white duck reinforced with wear leathers at hame chafes and line rings. Throat reinforced with heavy leather. Heavy split leather rim strongly sewed. Outer seam machine sewed. Buckle and billet top. Stuffed with straw. Draft, about 17 inches. Ship. weight, each, 11 pounds.

595 G 2600—State size wanted.

Size	Each	Size	Each
17-inch	$1.95	21-inch	$2.06
18-inch	1.97	22-inch	2.10
19-inch	1.99	23-inch	2.15
20-inch	2.00	24-inch	2.30

Open Throat Style—Low Price — $1.25

Do not confuse this Collar with inferior ones sold elsewhere for about the same price. It is just the collar you need when your horses develop tender shoulders—gives them a chance to heal. Will not chafe or gall the horse's neck. Recommended for plowing and general farm work. Tightly filled and covered with heavy white duck. Wear leathers at hame chafes and line rings. Draft, about 17 inches. Shipping weight, each, about 5 pounds.

595 G 2610—State size wanted.

Size	Each	Size	Each
17-inch	$1.25	21-inch	$1.25
18-inch	1.25	22-inch	1.25
19-inch	1.25	23-inch	1.25

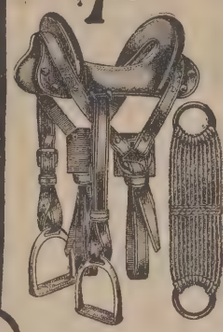
Genuine McClellan Saddle
* U.S. Army Type *



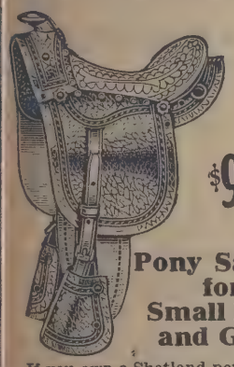
$7.95

A Great Value

IT TOOK months of careful planning before we were able to offer a splendid Army Type Saddle at such a low price. You men who appreciate values will agree that this is one of the best you have ever seen. The government had thousands of genuine Army saddle trees on hand, so we bought a large supply of them, at a great saving and had these saddles made up along practically the same lines as the popular U. S. Army type saddles which were such favorites with Ward's customers. The tree alone would ordinarily cost you nearly as much as the price we ask for the entire saddle. McClellan type tree, rawhide covered. Leather covered seat, open center. Leather covered bars. Has wide hard hair cinchas. Iron stirrups with 1¾-inch stirrup straps. Actual weight, 10 pounds. Shipping weight, 18 pounds. Mailable.

495 G 2350..... **$7.95**

A Favorite Everywhere



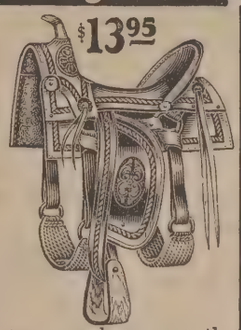
$9.65

Pony Saddle for Small Boys and Girls

If you own a Shetland pony here's your Saddle. Has 11-inch Morgan style, leather covered tree. Leather covered horn; 2½-inch leather covered stirrups; 9¼ by 10½-inch skirts embossed to resemble pigskin; ⅞-in. stirrup straps; 3½-in. girths and 1-in. tie straps. Has fancy quilted seat of sheepskin. Actual weight, 6 pounds. Shipping weight, 12 pounds. Mailable.

495 G 2325..... **$9.65**
495 G 2326—Same as above, except with 12-inch tree for medium size pony..... **$9.95**

For Young Men and Boys



$13.95

—who do a great deal of riding and who want the greatest possible comfort, we recommend this saddle. Young stockmen or rangers will be delighted with its fine appearance, attractive lines and strong construction. If you need a good utility saddle you can save several dollars by ordering this as we do not know of one anywhere near the price that will give you so much satisfaction.

Handsomely Embossed Design

Made throughout of russet skirting leather; 13½-inch Morgan type tree, has steel fork, leather covered horn; rigging securely fastened to tree; leather lined cantle. Blankets Made to Ward's Own Specifications
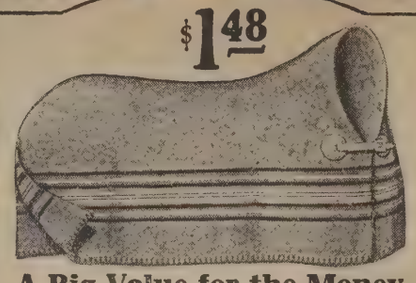
Guaranteed Unbeatable Values

$1.78 Popular Low Priced Blanket

An extra good value in a warm, durable Blanket. We do not believe you can duplicate it elsewhere at this exceptionally low price. Furnished in sizes most generally in demand. Blue mixed ground with a wide fancy red and green striped border. Carefully woven from good materials and contains about 20 per cent wool.

95 G 3300—Size, 72 by 72 in. Ship. wt., 4 lbs. 8 oz. ... $1.78
95 G 3301—Size, 76 by 80 in. Ship. wt., 5 lbs. 8 oz. ... 2.48
95 G 3302—Size, 80 by 84 in. Ship. wt., 6 lbs. 8 oz. ... 2.85



$1.48 A Big Value for the Money

No need to leave your horses standing uncovered in cold weather when you can buy Blankets for so little money. We sell many thousands of these each season—hence our low price. Deep gray with parallel body stripes of blue, black and orange. Edges are turned and double stitched with red cotton warp. Strong buckle and leather strap fastener. Contains about 13 per cent wool for warmth. Size, 72 by 72 inches. Shipping weight, each, 5 pounds.

95 G 3303—Each ... $1.48

$3.35 The Corn Belt Champion

A good quality Horse Blanket. Body is of alternate dark and light gray bars, with broad fancy border of red, yellow and gray stripes. Woven on hard twisted warps making it warm and fluffy. Contains about 17 per cent wool. Has buckles and straps at front stay. Shipping weight, each, 8 pounds.

95 G 3317—Size, 84 by 90 inches. Each ... $3.35

Similar to above, but 22 per cent wool, with extra fine quality workmanship and materials. Ship. wt., 8 lbs. 8 oz.

95 G 3316—Size, 84 by 90 inches. Each ... $4.35

The Winter Special
No Better Value Offered Anywhere
$3.69

Looks like those usually selling for about $2.00 more. Will keep your horses warm and will last a long time. Has a dark gray background with attractive scarlet and blue borders and body stripes. Contains about 43 per cent wool—desirable for extra cold weather. Woven on hard twisted warp to give warmth, strength and durability. Has leather strap and buckle fastener; heavy duck stay. Blanket stitched edges.

95 G 3308—Size, 80 by 84 in. Ship. wt., 7 lbs. ... $3.69
95 G 3309—Size, 84 by 90 in. Ship. wt., 8 lbs. 8 oz. 4.15
95 G 3310—Size, 90 by 96 in. Ship. wt., 9 lbs. ... 4.70

Our Leader Horse Blanket

Our most popular Horse Blanket because of its excellent quality. Made by one of the leading manufacturers of high-grade blankets. Of a rich dark blue with broad scarlet body stripes. Contains over 55 per cent wool woven on hard twisted warps. Has heavy buckle and strap front fasteners with duck understay. Will outwear many blankets selling for $2 to $3 more. If you are not satisfied when you receive this blanket, send it back and we will refund your money and all transportation charges.

95 G 3312—Size, 80 by 84 inches. Shipping weight, 7 pounds. Each ... $4.35
95 G 3313—Size, 84 by 90 inches. Shipping weight, 8 lbs. 8 oz. Each ... $4.95
95 G 3314—Size, 90 by 96 inches. Ship. wt., 9 lbs. 8 oz. Each ... $5.75

$5.45 Our Finest Unlined Horse Blanket
Over Half Wool

Our highest Horse Blanket—sure to please the most discriminating buyer as it is one of the handsomest plaid blankets sold anywhere. Deep nap holds warmth. Extremely serviceable. Has an olive body with light brown and orange overplaid with an exceptionally striking broad border of green, brown and other light colors. Contains over 50 per cent wool to give warmth. Heavy buckle and strap front fasteners with duck understays to give added strength. Strong lock stitch ends.

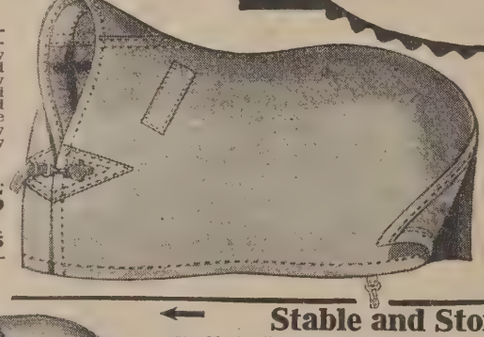
95 G 3318—Size, 80 by 84 inches. Shipping weight, 7 pounds. Each ... $5.45
95 G 3319—Size, 84 by 90 inches. Shipping weight, 8 pounds. Each ... $6.45

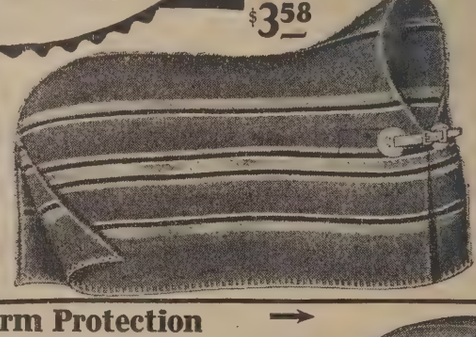
Water-Proofed and Interlined
$5.85

A new oil treated Blanket. Absolutely guaranteed to turn water because of special water-proofing. Heavy kersey lining which gives warmth and body sufficient to withstand wintry blasts, sewed to closely woven khaki duck covering. Hame leathers and trace carriers insure snug fit. Buckle and strap fasteners with heavy stay at front. This same quality usually sells for $2 more elsewhere.

95 G 3321—Size, 80 by 84 inches. Shipping weight, 11 pounds. Each ... $5.85

95 G 3322—Size, 84 by 90 inches. Ship. wt., 12 lbs. Each ... $6.35





$3.58

Ward's Marshall Horse Blanket

Made by a manufacturer who has won an enviable reputation for his quality blankets. Desirable medium weight. Contains about 28 per cent wool; woven on hard twisted warp. Deep wine colored background with body stripes of red, green and yellow. Well napped.

General Ordering Instructions Page 342

ORDERING from this catalogue is simple as A-B-C. In fact, you will enjoy the convenience and comfort of shopping in your own home. There are only a few things to remember.

The above sketch shows how to fill in the Order Blanks. Use pen and ink or, if you haven't them handy, a pencil. We have experienced order clerks who will easily understand what you want. Should you run out of blanks, you may use a sheet of plain paper, but we always send another order blank in every package. We will gladly send an extra supply of order blanks on request.

Check your order to see that all necessary information has been given us. Before sealing the envelope, make sure your remittance is enclosed. Then we will give you prompt, satisfactory service.

The Order Above Is an Example Only—Do Not Copy the Numbers and Prices; Refer to the Catalogue

General Ordering Instructions Page 342

ORDERING from this catalogue is simple as A-B-C. In fact, you will enjoy the convenience and comfort of shopping in your own home. There are only a few things to remember.

The above sketch shows how to fill in the Order Blanks. Use pen and ink or, if you haven't them handy, a pencil. We have experienced order clerks who will easily understand what you want. Should you run out of blanks, you may use a sheet of plain paper, but we always send another order blank in every package. We will gladly send an extra supply of order blanks on request.

Check your order to see that all necessary information has been given us. Before sealing the envelope, make sure your remittance is enclosed. Then we will give you prompt, satisfactory service.

The Order Above Is an Example Only—Do Not Copy the Numbers and Prices; Refer to the Catalogue

Write Us in Your Own Language

Česi a Slováci

Můžete nám psáti česky nebo slovensky, když jest to pro vás pohodlnější. Ceským nebo slovenským dopisům a objednávkám věnujeme stejnou pozornost jako anglicky psaným.

Prohlédněte si dobře obrázek a přečtěte si popis v katalogu každého zboží, které objednáváte. Udejte číslo, barvu a velikost a pošlete také peníze na poštovné, když objednávka má býti poslána po poště.

Deutsch

Schreiben Sie uns auf deutsch, falls Sie dies vorziehen. Ihre Aufträge werden mit gleicher Sorgfalt ausgeführt.

Bitte beachten Sie genau Abbildung und Beschreibung der Gegenstände, die Sie bestellen möchten. Vergessen Sie nicht, Nummer, Preis, Grösse und Farbe anzugeben und Ihrem Briefe genug Geld beizufügen, um den Wert der Ware und eventuelle Postgebühren zu decken.

Español

Ud. puede escribirnos en español si le es más conveniente. Contestaremos sus cartas, y sus órdenes, con la misma esmerada atención como si fuesen escritas en inglés.

Suplicamos una cuidadosa atención á las ilustraciones y descripciones de nuestro catálogo. De cada artículo que Ud. ordene, sírvase mencionar el número, tamaño y color en su órden, y envíenos dinero suficiente para cubrir el costo total de las mercaderias, incluyendo franqueo, si su orden es para ser enviada por correo.

Français

Écrivez nous en français si vous le préférez. Vos commandes feront l'objet de nos meilleurs soins. Etudiez bien l'illustration et la description de l'article que vous comptez commander. Indiquez en le numéro, le prix, ainsi que la couleur et les mésures. Ajoutez à votre lettre une somme d'argent suffisante pour couvrir le prix de la marchandise y compris l'affranchissement, si la marchandise devra être expédiée par la poste.

Hollandsch

U kan ons in de Hollandsche taal schrijven, indien dit gemakkelijker voor u is. Alle bestellingen worden zorgvuldig uitgevoerd, onverschillig of deze in de Engelsche of in een andere taal geschreven zijn.

Ieder artikel in onzen catalogus is duidelijk beschreven en geillustreerd. Geef nummer, maat en kleur op den bestelbrief aan en zend ons het totaal bedrag der bestelling, frankeeringskosten inbegrepen, indien de bestelling per post moet worden gezonden.

Italiano

Se ciò Vi riesce più facile, potete scriverci in Italiano anzichè in Inglese. Risponderemo con uguale sollecitudine alle V/e gradite lettere ed i V/i ordini riceveranno, da parte nostra, la medesima attenzione come se fossero scritti in Inglese.

Per ogni articolo che Vi compiacerete ordinarci, Vi preghiamo di volerne studiare prima attentamente la illustrazione e la descrizione che, dello stesso, si fa nel n/o catalogo. Siate ben sicuri di menzionare nel V/o ordine: il **numero** dell'articolo, la **grandezza** ed il **colore** che preferite. Favorirete inoltre rimetterci per intero l'ammontare dell'importo del V/o ordine, più le spese di posta se la spedizione Vi deve essere fatta con questo mezzo.

Norsk

De kan skrive til os paa Norsk, om det falder lettere for Dem. Vi vil besvare Deres breve og bestillinger med den samme nøiagtighed, som om de var skrevne paa Engelsk.

Venligst se nøie paa illustrationen og læs forklaringen i katalogen af hver artikel, De ordrer. Opgiv artikel nummer, størrelse og kulør naar bestillinger sendes, og indlæg nok penge til at betale total beløbet af varerne, iberegnet porto, om Deres bestillinger skal sendes pr. post.

Polskie

Można do nas pisywać po polsku. Listy i zamówienia odpowiemy z najdokładniejszą starannością, taksamo jak otrzymujemy zamówienia pisane w języku angielskim.

Uprasza się aby zastanowić się nad każdą ilustracyą i opisem podanem w katalogu. Trzeba podać dokładnie numer, wielkość i kolor rzeczy zamawianej, sumę pieniężną za rzeczy zamawiane włączając także koszta za przesyłkę wraz z zamówieniem.

Portuguez

Podeis escrever-nos na lingua portugueza se os convir mais fazer isso. Daremos ás vossas encommendas a mesma cuidadosa attenção que ellas receberiam se as escrevesseis em inglez. Eimportante que estudeis attentamente no nosso catalogo a illustração e descripção dada n'elle de cada artigo que desejeis encommendar, e que ao tempo de mandar-nos a encommenda nos deis o numero que o artigo traz no catalogo, e tambem o tamanho e a côr. Tamben é preciso enviarnos bastante dinheiro para cobrir o importe total das mercadorias, incluindo o porte, se desejais que enviemos as mercadorias pelo correio.

По Русски

Вы можете писать нам по-русски, если для Вас выгодно.

Ваши заказы будут встречены с таким же вниманием, как если бы они были написаны по-английски.

Изучите картину и описание в каталоге, прежде чем заказать.

В Вашем заказе укажите предмет, номер, меру, цвет и пришлите достаточно денег для покрытия стоимости товаров и почтовых расходов, если Ваш заказ будет прислан по почте.

Suomea

Te voitte kirjoittaa meille suomeksi jos se on teille käytännöllisempi, teidän tilauksenne tulee saamaan saman huolellisen huomion kuin jos ne olisivat Englannin kielella kirjoitettu.

Tarkastakaa huolellisesti kuva ja selvitys hinta luettelossa jokaisesta tavarasta mitä tilaatte Mainitkaa tavaran numero, koko, ja väri, tilauksessanne, ja lähettakää meille tarpeellinen summa rahaa peittämään tavarain hinta, postimaksu siihen luettuna jos tavaranne on lähetettävä postin kautta.

Svenska

Ni kan skrifva på svenska om Ni föredrager det. Vi skola besvara edert bref, och eder rekvisition skall få samma noggranna uppmärksamhet som den skulle ha fått om den varit skrifven på engelska.

Betrakta noga bilden och beskrifningen i Katalogen på hvarje artikel Ni rekvirerar. Angif artikelns nummer, storlek och färg. Sänd oss tillräckligt pengar för varan såväl som också postpängar om en rekvisition skall sändas pr. post.

Wrought Iron Ⓖ End Table

Choose this as a gift and you will be sure to please. It will reflect your excellent taste. Wrought iron furniture of this sturdy, graceful type is very popular. And our price is the lowest we've ever seen offered for a table of such fine quality. The firm hardwood top is shaded lacquer with flower design. Height, 24 inches. Size of top, 22 by 12 inches. Ship. weight, 28 lbs.

166 G 2334—Chinese red $3.85
166 G 2335—Leaf green..$3.95

Lacquered Telephone Set

Strikingly beautiful in design and coloring. And it seems almost impossible that a set of such fine quality can be priced so very low. It is richly finished in shaded lacquer, trimmed in gold and decorated with hand-painted floral patterns. Built of hardwood with gracefully turned legs. The chair is covered with durable tapestry in a lovely design.

Upper cabinet for holding the telephone has a sliding cover on the back which permits inserting the instrument without disconnecting. Telephone directory and memorandum pads may be kept in the lower compartment beneath the top, 17 inches wide and 11 inches deep. Decorated drop front. Entire height of stand, 47½ inches. Upper cabinet 14 inches high, 11 inches wide and 8½ inches deep. Cabinet base 30 inches high, 22 inches wide and 15½ inches deep. Height of chair, 27½ inches; size of seat, 14 by 12 inches. Shipping weight, 85 pounds.

166 G 2462—Chinese red. Set..$21.85
166 G 2463—Leaf green. Set... 21.95

Ⓕ A Lovely Formal Tapestry Chair

Luxuriously rich, with a high back—the popular console type. Only about once in a lifetime can you find such a bargain! The graceful sweep of its arms, the turned posts and stretcher and wood carving are lovely. Covered in personnage design tapestry with plain velour on outside back. Galloon fringed gimp. Solidly built of kiln-dried hardwood, finished dull brown Mahogany. Wide coil, tempered steel springs in seat. New cotton felt and flax fiber filling. Height, 46½ inches; seat 24 by 21 inches. Shipping weight, 100 pounds. See "Estimated Freight Charges" above.

166 G 888.....$21.95

Richly Lacquered Fernery in Italian Renaissance Style

Filled with growing flowers and ferns, it will make any room seem delightfully fresh and cozy, even in the dull winter days. Very distinguished looking with its Italian Renaissance lines and curves and its rich lacquer colors artistically shaded. And it has been carefully built to last, of selected kilndried hardwood. What a remarkable bargain, at our very special price! Complete with heavy galvanized pan. Height, 29½ inches. Size of top, 36 by 12 inches. Ferns not included. Shipping weight, 40 pounds.

166 G 2336—Chinese red lacquer.....$8.85
166 G 2337—Leaf green lacquer..... 8.95

Cedar Chest to Protect Clothing and Beautify Your Home

Absolute safety for your furs and clothing from the ravages of moths and dust is assured if you have this Chest of fragrant cedar. And it's a stunning piece of furniture, decorated with charming overlay and dainty molding. The neatly fluted feet and turned legs are ever so graceful. Built of solid Genuine Tennessee Red Cedar lock corner construction, finished either Natural Cedar or with the five-ply lid surfaced in Genuine Walnut, and finished in a dull rubbed beautifully grained reproduction of Walnut. Brass lid stay and hinges, Corbin lock. Polished metal floor glides. Bag of cedar shavings included. See construction details on Page 483. See "Estimated Freight Charges" above.

In its second year of sensational success

—the outstanding development of 20 years!

The Beautiful Imperial Windsor

A Living Room Furnace that combines finest furniture designs with newest heating ideas

Price—Lower, by almost one-half, than smaller, less efficient styles.

Guarantee—10-year firepot! No other furnace of this type has it.

Design—Looks like finest furniture. Finished in full grained walnut enamel.

Size—Far greater heating capacity; ample for 6 rooms—all with comfort.

Combustion—Perfect—complete! Saves fuel—even consumes most of smoke.

Health—Leading doctors recommend its circulation principles of moist air.

LOCATE the Imperial Windsor in your living room, parlor, library or any other room, and it will heat five or six average rooms comfortably. It will look well beside your finest piece of furniture, because it is designed for parlor use.

It will burn any kind of fuel—hard coal, soft coal, coke or wood—all with the same grates. Remember, it requires no basement; consumes less fuel and does away with most of the dirt and inconvenience of common heating stoves.

The success of the Imperial Windsor has been tremendous in just two short years. Every home-owner who is using this ideal Living Room Furnace cannot praise it too highly, not only as a most beautiful example of the furniture designer's art, but for real genuine economy and zero-weather comfort. They say it is the greatest heating development in twenty years.

Its startling new features of FULL COMBUSTION utilize the utmost from every pound of fuel. The hot-blast ring delivers heated air, laden with oxygen directly over the fire bed. This mixes with the rising gas from the fuel and is consumed quickly and so completely that nearly all soot is eliminated.

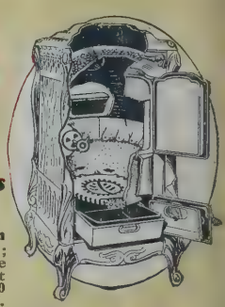
Active circulation, for which the Imperial Windsor is famous, is produced by drawing the cold air from the floor, super heating it between the jacket and the furnace, passing it around the open water bowl, and then out into the room in the form of wholesome, warm, MOIST circulating air. This healthful principle of humidified circulation is recommended by all doctors and health authorities.

We have tested the big Imperial Windsor with the best of this type; and we say to you that it actually delivers more real heating efficiency than any "above cellar" furnace made, regardless of price, size or make.

The full grain walnut porcelain enameled finish is applied over the cast iron front as well as on the sides and back, which are made of that wonderful rust-resistant metal—genuine ARMCO Iron. Every part is built for long life, and the workmanship throughout is perfect. The firepot is extra large—the largest of any furnace of this type sold today. And it is the only firepot, to our knowledge, that is unconditionally guaranteed for TEN YEARS.

A furnace of this size, with the same heating capacity, can not be purchased elsewhere for less than $140.

CASH PRICE $93.85



Also sold on easy payments ***$5 DOWN*** ***Five dollars a month***

For Easy Payments use Order Blank on Page 725. Shipping weights: Walnut, 630 pounds; Plain, 610 pounds. Shipped from our Baltimore Store or Albany, N. Y., whichever is nearest you. Estimated Total Freight Charges for 150 miles, $3.02; 300 miles, $3.90; 500 miles, $6.17.

Look at These Unusual Features

Extra Large, Extra Heavy Firepot—Guaranteed Ten Years! No other firepot is guaranteed for this length of time. The Imperial Windsor is fitted with a hundred pound, eighteen-inch firepot, one inch thick—the very heaviest used in any heater of this type. In fact it is as large as a firepot used in most small furnaces.

Holds Fire as Long as the average furnace—The extra double-weight combustion chamber and big firepot which holds a deep bed of coals, forces every ounce of fuel to do its full duty. The machine-ground joints and tight doors give positive control of fire.

Large Fuel Feed Door—Fuel door, 11 by 13 inches, permits burning large chunks of wood if desired. Swinging iron fire curtain prevents smoke or flame bursts when door is open.

Extra Heavy Grates—The extra heavy duplex grates are set into a heavy, round, oscillating shaking-grate, and are designed for burning soft or hard coal, coke or wood.

Humidifier—Large, easily accessible water reservoir, around which the heat is passed, supplies proper amount of moisture to the warm air for greater comfort and health.

Pipe Collar—Reversible—can connect to flue directly behind heater or flue higher up. Takes 7-inch pipe. Special size flue is unnecessary.

Ash Pan—Extra large. Heavy galvanized iron, reinforced.

Hot-Blast Ring—Described above and shown in small picture.

Dimensions—Height, 56 inches. Floor space, 29 x 29 inches.
